# General Information

Hendrix College is a residential, co-educational, liberal arts institution, situated in Conway, Arkansas. Related to the United Methodist Church, Hendrix is nonsectarian in its admission and educational program and provides a vision that is national and international in scope. The College provides educational opportunities consistent both with its traditions and with the demands of cultural relevance in a time of rapid change. Students are challenged to acquire the knowledge and abilities requisite for entry either into further professional studies or into professions directly.

Hendrix is committed to the idea that the educational program of each student should combine areas of common learning with individual design. The curriculum is arranged to assure students the opportunities to gain acquaintance with cultural traditions of the world; to develop undergraduate expertise in a field of concentration; to cultivate skills of communication, deliberation, and analysis; and to study broadly in a variety of areas of knowledge. Each student develops a course of study in consultation with a faculty advisor.

The Hendrix academic program is complemented by creative and performing opportunities, by varsity and intramural athletics, and by a comprehensive co-curricular program including residential life, activities both on-campus and off-campus, career development, and opportunities for personal guidance and religious expression. In both its academic and its co-curricular programs, Hendrix strives to provide students the means to pursue meaningful, enriching, and contributive personal and professional lives.

## The Liberal Arts College

Organized education emerged in antiquity in the civilizations of the eastern Mediterranean. Drawing on a confluence of prior cultures, itinerant teachers in Greece claimed to teach the skills and capacities necessary for a successful, contributive public life in the city-states. Schools developed around the greatest of these teachers, and the precursors of modern colleges and universities flourished throughout the Greek and Roman worlds. One of these, founded by the Greek philosopher Plato, was called "the Academy," a name we celebrate in every reference to the academic enterprise.

Though the classical tradition withered, the learning of the ancients was preserved by religious institutions and scholars. The world of Islam sustained and extended classical learning and transmitted it to the West. As European civilization grew in sophistication in the later Middle Ages, students and teachers in law, theology, medicine, and the liberal arts banded together into societies. At Bologna, later at Paris, and then at Oxford and Cambridge, these gained papal, imperial, or royal recognition as institutions of learning. Throughout Europe the foundation of education was the seven liberal arts: the trivium of grammar, logic, and rhetoric; and the quadrivium of arithmetic, geometry, music, and astronomy. But uniquely in the English-speaking world, these institutions developed as colleges, residential societies of relatively small size in which teaching and learning scholars combined the advantages of community life with the pursuit of knowledge.

The collegiate ideal has flourished in America. Independent institutions representing a multitude of denominations and ethnic backgrounds established the characteristic diversity of higher learning in America. As in ancient Greece, higher education in this country has provided for individual human flourishing through encouraging a command of the sciences and the humanities while preparing young adults

to take an active role in the public life of a participatory society.

We now live in a global community characterized by the interrelation and confluence of many previously insular peoples and cultures. The cultivation of global citizenship—understanding the relation of one’s own nationality, ethnicity, and heritage to a world of increasing diversity—is an appropriate element of liberal arts education. The college that aims to equip its students to cope and flourish in that context undertakes a natural contemporary extension of its tradition.

Implicit in the academic enterprise from its beginning is the conviction that neither individual well-being nor the just society emerges inevitably from human nature. Nor is our nature opposed to these accomplishments. Rather, the premise of the liberal arts college is the idea that only purposeful cultivation in a community of the right sort will result in the emergence of excellence. Such a community is a matter of discernment and design; it carries forward a tradition by understanding its past, broadly conceived, by incorporating and embodying what is worthy of its embrace, and by transforming itself continually in pursuit of the best.

## **Historical Sketch of Hendrix College**

In 1876 the institution which was to become Hendrix College was established in Altus, Arkansas, by Isham L. Burrow, a minister in the Methodist Episcopal Church, South (now the United Methodist Church). Central Institute had an enrollment of 20 pupils. Originally a primary school, the institution soon added a secondary and then a collegiate department. In 1881 the name was changed to Central Collegiate Institute.

In 1884 Central Collegiate Institute was purchased by the Methodist Church in Arkansas. Five years later the primary department was discontinued, and the institution was renamed Hendrix College in honor of Bishop Eugene R. Hendrix. It was designed as the "male college" of the

Methodist Church, South, in Arkansas, but it continued to accept women students. In 1890 the Board of Trustees moved Hendrix College from Altus to Conway. In 1890 Hendrix had five faculty members and 150 students, including about 25 in the collegiate department. By 1900 Hendrix was cited by the U.S. Office of Education as having higher standards for admission and graduation than any other institution of higher learning in Arkansas. In 1908 the school was accredited as a "Class A" college by the Methodist Church, and two years later it received the first of several substantial financial gifts from the General Education Board of New York (the Rockefeller Foundation).

National academic recognition was achieved with membership in the North Central Association of Colleges in 1924, the first year Arkansas institutions were eligible for membership. International accreditation followed in 1929 with a place on the approved list of the American Association of Universities. The secondary department (Hendrix Academy) was discontinued in 1925, residential facilities for women students were increased, and the student enrollment stabilized at around 325. During the period 1929-33, Hendrix was merged with Henderson-Brown College of Arkadelphia and Galloway Woman's College of Searcy. When Hendrix celebrated its semi-centennial in 1934, it had firmly established its role as a small, co-educational, undergraduate, residential, liberal arts, church-related institution. Constant institutional advancements led to entry into the Associated Colleges of the South and the Southern Collegiate Athletic Conference, the establishment of a Phi Beta Kappa chapter, new residential and academic buildings, and a 35% increase in the number of faculty between 1988 and 2002. Consistently recognized for excellence in undergraduate liberal arts education, Hendrix emerged in the 1990's as a leader in undergraduate research.

From the foundation of 126 years of excellence in education, Hendrix College moves confidently into the 21st century.

## The Statement of Purpose

Hendrix College, a private, undergraduate institution of the liberal arts related to the United Methodist Church, offers distinguished academic programs in a residential, coeducational setting. As a collegiate community, Hendrix is dedicated to the cultivation of whole persons through the transmission of knowledge, the refinement of intellect, the development of character, and the encouragement of a concern for worthy values. In these ways Hendrix prepares its graduates for lives of service and fulfillment in their communities and the world.

Toward the accomplishment of this purpose, the College offers curricular and co-curricular programs affording students the opportunity

- to investigate and appreciate the richly diverse cultural, intellectual, and linguistic traditions shaping the contemporary world;
- to examine critically and understand the intellectual traditions woven into the history of Western thought;
- to develop skill and effectiveness in the use of language, the analysis of information, and the communication of knowledge;
- to explore and connect the content and methods of the humanities, natural sciences, and social sciences;

- to participate in depth in a specific field of study, acquiring a body of knowledge appropriate to that discipline, putting to use its methods for the discovery of new knowledge, appreciating its historical development, and grasping its implications for the broader culture.

Hendrix thereby intends to cultivate among students:

- enduring intellectual curiosity and love of knowledge; aesthetic sensibilities and delight in beauty;
- powers of ethical deliberation and empathy for others; discernment of the social, spiritual, and ecological needs of our time;
- a sense of responsibility for leadership and service in response to those needs; and
- recreational dispositions complementing a full flourishing of the human potential.

# The Academic Program

The academic program of Hendrix College comprises diverse elements in a coherent whole, combining design with flexibility. The general education requirements at the College consist of three components – The Collegiate Center, Learning Domains, and Capacities. The Collegiate Center assures students the opportunity to engage in thought about cultures and contemporary issues. The Learning Domains afford multiple options for acquiring a basic understanding of the content, disciplinary styles, and modes of inquiries of the humanities, the natural sciences, and the social sciences in ways that may cross traditional disciplinary boundaries. The Capacities requirement recognizes that all students must exhibit basic proficiencies in fundamental skills that are utilized across multiple disciplines. Majors are offered in more than two dozen disciplinary fields and include opportunities for interdisciplinary studies. Minors in almost thirty areas complement the majors and allow students opportunities to pursue additional academic interests. The College's curricular structures are intended to guide students in a coherent process of learning while encouraging all students to exercise responsibility in constructing individual programs of study.

The provisions on the following pages apply to all candidates for the baccalaureate degree at Hendrix. Specific course descriptions are listed under the appropriate department and program headings in a later section of the *Catalog*.

The requirements for the baccalaureate degree are stated below. These requirements include the general education program (I, II, III, and IV below); collegiate requirements regarding the number, selection, and level of performance in courses counted toward the degree (V and VI); the requirements regarding majors, double majors, and minors (VII); and the senior capstone experience (VIII).

Hendrix also offers a program leading to a Master of Arts in Accounting as described both below and in the departmental entry for Economics and Business.

Most graduate and professional schools discourage heavy undergraduate specialization and emphasize the values of a broadly based liberal education as a preparation for advanced study. Graduate study can lead to careers in scholarship, in research, or in the professions. In planning undergraduate preparation for graduate study students should confer with the members of the department in their fields. The 2003-2004 *Guide to Academic Planning* contains information about pre-professional programs at Hendrix.

Academic year 2002-2003 was the first year for the curriculum described above. The implementation of this new curriculum occurred at the same time that the College completed its move from a term calendar to a semester calendar under which the normal student load is four courses per semester. The 2003-2004 *Guide to Academic Planning* supplements the academic planning information in the *Catalog* and includes detailed information concerning provisions for "bridge" students who attend Hendrix under both calendar systems. The planning for bridge students has been built around the desire that no student will be disadvantaged in progress toward a degree because of the calendar and curricular changes.

## **The Program for the Bachelor of Arts Degree**

### **I. The Collegiate Center**

In its Statement of Purpose, the College pledges to offer curricular programs "to investigate and appreciate the richly diverse cultural, intellectual, and linguistic traditions shaping the contemporary world" and "to examine critically and understand the intellectual traditions woven into the history of Western thought." The College also commits its intention to the cultivation of "discernment of social, spiritual, and

ecological needs of our time" and "a sense of responsibility for leadership and service in response to those needs."

The Collegiate Center addresses these commitments through a two-component general education requirement:

**Journeys**—one-course common sequence.

Journeys is a one-semester, common course required of all first-year students entering Hendrix College. It is grounded in the College's motto which (from Ephesians 4:13) may be translated as "toward a fulfilled person." The motto thus implies trajectory, a sense of movement or development, from one state of being or one way of living to another. It implies, in short, the notion of journey. This course takes the concept of journey as its touchstone and explores how different cultures and different peoples have made sense of their own life journeys.

The Journeys course is global in its perspective and interdisciplinary in its approach. For example, through an exploration of Homer's *Odyssey* and some of the dialogues of Plato we probe how the ancient Greeks conceived of human journeys, both physical and metaphorical. We turn then to China, examining "the ways" for human flourishing pioneered by Confucius and the Buddha. In both Islam and Christianity, we can trace adherents' spiritual journeys toward a relationship with the divine. We explore journeys of a more contemporary nature by looking at Charles Darwin's *Origin of Species* and by reading texts pivotal to the rise of modern democracy, including selections from John Locke's *Second Treatise of Government*. We also probe journeys of self-discovery, such as the one revealed in W.E.B. DuBois' *Souls of Black Folk*. We will look, too, at the journeys toward independence made by nations and individuals as they have thrown off the yoke of imperialism—we look especially at the role of Gandhi in the move for Indian independence in the 20<sup>th</sup> century. The exact works and kinds of journeys we examine will no doubt evolve as the course changes over the coming years. But our goal will remain

constant. We aim to challenge our students to examine a variety of human journeys, with the hope that they will come to understand different conceptions of human fulfillment and that they will reflect deliberately on the paths their own lives might take.

### Explorations: Liberal Arts for Life—one course.

Explorations: Liberal Arts for Life is a one-semester common course required of all entering students in their first semester at the College. Explorations is designed to foster an ongoing engagement with the liberal arts experience, to facilitate the transition of new students to the Hendrix community, and to enhance students' potential for success in their collegiate studies. The course meets once a week and carries one-quarter (.25) course credit.

Areas of study in Explorations include higher education and the liberal arts, the aims and expectations of the College, academic and career explorations, and self-inquiry and personal development. Additionally, the seminar focuses on refining student knowledge, perspectives and skills requisite to successful academic work and integration into the Hendrix community.

Each new student will be enrolled in both a Journeys and an Explorations section. Academic components of Explorations may be linked to Journeys content, adding immediate relevance to these areas of study. In each Explorations section, instruction will be complemented by the presence of a second-year peer assistant who will be available to provide student perspective and assistance throughout the course.

### Challenges of the Contemporary World (CW)—one course.

This component complements the Journeys component by exploring challenges of the contemporary era. Such challenges include environmental concerns, racial and ethnic differences, social inequities regarding gender and sexuality, and other issues of world citizenship. By

confronting contemporary social issues, students prepare themselves to join a responsible world community striving toward a just, sustainable, and spiritually satisfying future. This component of the curriculum is a flexible one-course requirement to be fulfilled after the first year.

Courses meeting the Challenges of the Contemporary World requirement are listed below. Courses from this list offered in 2003-2004 are noted with a "CW" in the Schedule of Classes, 2003-2004.

## **II. Learning Domains**

Learning Domains represent an organization of courses around content and teaching methods that may transcend departmental boundaries. Students should be exposed to courses in each of the Learning Domains to insure that they receive an adequate breadth of educational experiences while at the College. The Learning Domains form the foundations of a liberal arts education, much as reading, writing, and arithmetic form the foundation of secondary education.

A student must take seven courses across six Learning Domains as defined below. These seven courses must be from seven different disciplines as distinguished by the first three letters of the course identifier.

Courses that may be used to satisfy each of these Learning Domain requirements are designated by the two-letter code that appears by each Domain title below. These codes also appear in the Schedule of Classes, 2003-2004 and with course descriptions in the Catalog.

**A. Expressive Arts (EA)**—one course.

Throughout history, humans have used the arts to explore and express ideas and feelings in a uniquely symbolic and expressive way, endowing the arts with qualities that are significantly different from those embodied in other ways of knowing. To understand any culture, a person must be able to grasp, interpret, and respond to its artistic creations and symbols. Given the broad spectrum of cultural production, a study of the expressive arts introduces students to ways of interpreting and understanding art content, as well as understanding the forms through which this content is produced and communicated. Courses in this domain emphasize either the creative process through the making and performing of works of art or the place of such works of art within a particular historical, cultural, or aesthetic context.

**B. Historical Perspectives (HP)**—one course.

History is that branch of knowledge that seeks to account for the diverse ways in which human beings in different cultures and societies have all responded to temporal change. Through the examination of contemporary issues from a historical perspective, we gain insight into the richness of human experience and gain insight into our own convictions and actions. Courses in this domain study the development of societies and cultures over time.

**C. Literary Studies (LA)**—one course.

Literature has been a central form of expression for many societies. Literature provides a medium through which students gain insight into the minds and lives of other human beings, and the process whereby human experience is imaginatively transformed into art. Critical reading/interpretation of a literary text provides understanding into what meanings that text holds, how those meanings are produced, what purposes they serve, and what effects

they have. Literary studies also facilitate a student's ability to articulate responses both orally and in writing.

**D. Natural Science Inquiry (NS, NS-L)**—two courses, each from a different department; one course must be a laboratory course.

Science and technology are playing an ever-increasing role in our society. In order to navigate this sea of information students must know and understand how science does and does not work, the application of scientific and mathematical principles, and the distinction between science and dogma. This requires the coupling of basic scientific principles with systematic, critical analysis. Emphasis is on the methods used to model, gather, interpret, and evaluate data critically, and the placement of this information into a larger context. In the face of our rapidly evolving understanding of the natural world, application of the scientific method is an enduring skill for assessing the validity of observations related to the natural world. This mode of inquiry inextricably links course content and the analysis process.

**E. Social and Behavioral Analysis (SB)**—one course.

Human experience always takes place in the context of larger social forces, organizations, and institutions: families, organizations, communities, governments, and economics. Courses in this domain study the myriad dimensions of human behavior and the human relationships from a variety of disciplinary and interdisciplinary perspectives. Through this study we begin to comprehend individual and social life and to develop policies and other means of intervention.

**F. Values, Beliefs and Ethics (VA)**—one course.

A perennial feature of humanity is the ability and need to raise fundamental questions about the ultimate meaning of our existence, our common origins and destiny, the nature of reason, and what

constitutes a good life. Our efforts to deal with these questions reflect basic values and beliefs that shape our perception of the world, give order and purpose to our existence, and inform our moral judgment. Courses in this domain seek to explore critically and to understand different value and belief systems, to examine commonalities of these systems across historical, philosophical, religious, and/or cultural boundaries, and to introduce ways of making reasoned value judgments.

### III. Capacities

#### A. Writing (bi-level program).

Clear and effective writing is inseparable from clear and coherent thinking. Each student must demonstrate the attainment of an acceptable level of skill in written communication by fulfilling the requirements of a bi-level writing program.

**Level I (W1).** To meet the Level I writing requirement a student must:

- receive a "C" or above in ENGL 110 *Introduction to Academic Writing*, or ENGL 210 *Advanced Academic Writing* at Hendrix, or
- receive a grade of "C" or above in a course at Hendrix from the category Introduction to Literary Studies (These courses are identified by the code "W1" in the Schedule of Classes, 2003-2004); or
- receive a grade of "C" or above on an examination in written English administered by the Writing Center at Hendrix and certified by the English Department.

Each student should aim to meet this requirement during his or her first or second year.

**Level II (W2).** To meet the Level II writing requirement, a student must receive writing proficiency certification (including making a grade of "C" or higher) in a writing-intensive course offered by any department of the College. Writing intensive courses are identified by the code "W2" in the Schedule of Classes, 2003-2004.

The Level II requirement may be met any semester after the Level I requirement has been met. A student may not use the same course to meet both levels. Writing-intensive courses will be sophomore-level and above and may be used to meet other requirements, as appropriate.

Course credits received from the Advanced Placement exam (AP), International Baccalaureate exam (IB), or from transfer credit may not be used to satisfy either the Level I or Level II requirement. Moreover, successful completion of the Level I writing examination will not satisfy the Literary Studies (LA) Learning Domain.

**B. Foreign Language** (two-semester equivalent).

Students should achieve the degree of competence in a foreign language necessary to encounter another culture on its own terms. This level of ability requires being able to understand, analyze, and use a foreign language. Such a capacity increases subtlety of mind, sharpens sensitivity to the use of one's own language, and more fully opens another culture for exploration.

Students can fulfill the foreign language requirement by satisfying at least one of the following:

- Passing the second semester of any foreign language at the College;
- Passing an examination demonstrating proficiency at a level equivalent to the second semester of a foreign language taken at the College;
- Receiving transfer credit for the equivalent of two semesters of a foreign language from an accredited institution.
- In the case of international students whose native language is something other than English, by passing the TOEFL.

**C. Quantitative Skills** (QS) (one-semester equivalent).

As our society becomes more technologically and analytically based, it is important that students develop quantitative skills that are necessary in a large and growing number of careers. Mathematical models form the basis for many fundamental concepts and modes of analysis in a diverse number of disciplines. Students need to possess sufficient quantitative

skills in order to understand, manipulate, and interpret these models. It is therefore important that students possess a base level of mathematical/computing skills necessary for the development of those quantitative skills they will need in their chosen disciplines and in their lives.

To complete the quantitative skills capacity requirement, students must successfully receive credit for a Quantitative Skills course by one of the methods listed below:

- Passing a Quantitative Skills course offered by the College;
- Earning an appropriate Advanced Placement (AP) or International Baccalaureate (IB) credit;
- Transferring from any accredited institution a course that is comparable in academic quality and content to a Quantitative Skills course.

#### **D. Physical Activity (PA) (two-semester equivalent).**

Students are encouraged to develop and practice a lifestyle that promotes wellness, physical fitness and incorporates recreational activities on a regular basis. All students must meet the Physical Activity requirement unless exempted by the Physical Activity Coordinator.

Students can fulfill the physical activity requirement by receiving credit for two different physical activity classes offered at the College.

Successful completion in a varsity sport for one season qualifies as an activity class for this purpose. However, no more than one unit may be earned from participation in varsity sports.

## **IV. Double Counting of Courses**

Many courses satisfy more than one general education requirement. That does not necessarily imply that a student may use a course to satisfy all of those requirements. The following guidelines apply:

- The Journeys course may not be used to satisfy Learning Domain requirements, Capacities requirements, or major or minor requirements;
- A course used to satisfy a Capacities requirement may also be used to satisfy either a Challenges of the Contemporary World or Learning Domains requirement;

- A course with two or more Learning Domain codes may be used to satisfy only one Learning Domain requirement;
- A course with a Challenges of the Contemporary World code and a Learning Domain code may be used to satisfy either the Challenges requirement or the Learning Domain requirement, but not both;
- Courses taken to satisfy major or minor requirements may also be used to satisfy general education requirements, subject to the restrictions stated above;
- In the case of multiple-coded courses, a student may elect to change which code the student wants to apply for satisfaction of the General Education Requirements. This change can occur at any time before graduation;
- The Learning Domain requirements must be satisfied by seven courses from seven different disciplines as distinguished by the first four letters of the course identifier;
- Course credits received by Advanced Placement (AP) exam, College Level Examination Program (CLEP), or International Baccalaureate (IB) exam may not be used to satisfy Learning Domain or Collegiate Center requirements.

## **V. Number of Courses Required for Graduation**

The 2002-2003 academic year was the first year for the semester calendar at Hendrix. For students graduating before the semester calendar was implemented, the number of courses credits required for graduation was 36. For students graduating with all course credits earned under the semester calendar, the number of whole course credits for graduation is 32. For students who earn credits under both calendars, the number of course credits required for graduation is determined by the length of time a student was academically enrolled under the term calendar. The number of courses required for graduation is determined by the number of term course credits a student had on June 15, 2002 as given by the following chart:

# of Term Credits	# of Credits Needed to Graduate
0-4	32
5-13	33
14-22	34
23-31	35
32-36	36

Courses with grades of incomplete on June 15, 2002 are counted in this total as long as the incomplete grades are removed within the time limits stated by the incomplete policy. An average of 2.00 or better must be maintained on all courses (exclusive of courses taken for credit only) counted towards the degree. Course credits earned through CLEP, AP, or IB exams may be counted toward graduation although they may not be used to satisfy specific requirements for graduation as described in other sections.

## **VI. Residency Requirements**

A student must successfully complete a minimum of sixteen courses at Hendrix. Six of the final eight courses counted toward graduation must originate from Hendrix or institutions which are in direct, formal institutional exchange agreements with Hendrix. Additionally, at least 50% of all major and minor requirements must be fulfilled from course work taken in residence at the College.

## **VII. Majors and Minors**

Students have three options for academic study:

- the pursuit of a single major
- the pursuit of two majors (double major)
- the pursuit of one major and one minor.

The pursuit of any other combination of multiple majors and/or minors is not permitted.

Student transcripts will list the name of the major, as well as any double major or minor, along with the grades on the Senior Capstone Experience.

Students should be aware that the pursuit of a double major or a major and a minor may require more than four years to complete.

Requirements for a major are as follows:

- declaring a major and notifying the Office of the Registrar no later than the first semester of the junior year;
- fulfilling the requirements as designated by the student's major department;
- maintaining a minimum grade point average of 2.00 in departmental requirements;
- passing a Senior Capstone Experience in the major. (See Senior Capstone Experience)

The College offers the degree of Bachelor of Arts with these majors:

Accounting	International Relations & Global
Art	Studies
Biology	Kinesiology
Chemistry	Mathematics
Computer Science	Music
Economics	Philosophy
Economics & Business	Philosophy & Religion
Elementary Education	Physics
English	Politics
Environmental Studies	Psychology
French	Religion
German	Sociology/Anthropology
History	Spanish
Interdisciplinary Studies	Theatre Arts

### **Policy for double majors**

A student may complete a second major at Hendrix by fulfilling all of the following criteria:

- completing and filing a letter of intent with the Office of the Registrar to pursue two majors at Hendrix College. This letter of intent must be filed no later than the first semester of the student's senior year;

- completing the Hendrix requirements for both majors;
- maintaining a minimum grade point average of 2.00 in the courses that comprise each major;
- passing the Senior Capstone Experience for both majors;
- completing both majors prior to the awarding of the undergraduate degree.

### **Policy for minors**

A student may complete a minor by fulfilling the following requirements:

- formally declaring intent with the Office of the Registrar. This letter of intent must be filed no later than the first semester of the student's senior year;
- completing the course requirements for the minor as specified in the departmental entry in the Catalog;
- successfully completing at Hendrix at least three of the courses that constitute the minor;
- maintaining a minimum grade point average of 2.00 in the courses that comprise the minor;
- completing both a major and the minor prior to the awarding of the undergraduate degree.

The College offers the following academic minors:

Accounting	German
Africana Studies	History
Anthropology	International Relations and Global Studies
Art-Studio Emphasis	
Art-Art History Emphasis	Kinesiology
Biology	Mathematics
Chemistry	Music
Classics	Philosophy
Computer Science	Physics
Economics	Politics
Education-Early Childhood & Middle School Emphasis	Psychology
Education-Secondary Emphasis	Religion
English	Sociology
French	Spanish
Gender Studies	Theatre Arts

The college offers one graduate degree, the Master of Arts in Accounting (see page 29).

## **VIII. Senior Capstone Experience**

The senior capstone experience is an opportunity for the student to integrate and synthesize the various aspects of the subject matter studied within the major. Each department or program has designed the capstone experience for its majors to help them develop a broader understanding of the significance of the major within the framework of their overall liberal arts experience. This experience may take the form of a comprehensive examination, a senior seminar, an undergraduate research project, or a senior exhibition, recital, or performance. Using one or more of these components also allows departments to assess the effectiveness of their major programs and evaluate the learning of each student. A grade is assigned for the Senior Capstone Experience after its completion. The grade is entered on the student's transcript but is not calculated in the GPA.

## **IX. Undergraduate Research**

Students are encouraged to explore the opportunities available in the department of their major for undergraduate research. In a variety of formats—on-campus or off-campus, as a paid internship or for academic credit—Hendrix students may participate in faculty-directed research projects. As a part of the undergraduate experience, student research is an instructional format providing first-hand understanding of methods through which knowledge is gained in a particular field. These projects often lead to the presentation of results at departmental colloquia or seminars, state or regional meetings, or the annual sessions of the National Conference on Undergraduate Research. Students interested in these opportunities should consult with their faculty advisors or the chairs of the major departments.

## The Program for the Master of Arts in Accounting

The purpose of this program is to provide outstanding, liberally educated students with the technical, theoretical, and interpersonal skills required for successful careers in industry, public accounting, not-for-profit organizations, financial institutions, governmental organizations, education, and consulting. Successful completion of this program qualifies students to sit for the CPA examination in Arkansas and may enable them to waive certain courses in MBA and other graduate programs. This program has a broad perspective beyond traditional accounting and includes topics in economics, statistics, finance, and law. These requirements develop and enhance quantitative problem-solving and decision-making skills. Extensive use of modern techniques using computer applications and real-world data enables students to be prepared for the rigorous requirements of the business world. Small class sizes and a low student-to-faculty ratio make possible individualized and specialized instruction. Students are able to complete this degree in one year (two semesters) of coursework.

Prerequisites for admittance into the program include majoring in Accounting, Economics, or Economics and Business and consent of the faculty. Interested students should contact the department chair for details and admission information.

A total of eight (8) courses is required for graduation with the following specifications:

- ECON 530 Management Science
- ECON 550 Managerial Economics
- And six (6) courses from the following list including at least four (4) business courses:
  - BUSI 500 Taxation for Business Entities
  - BUSI 510 Accounting for Management Planning and Control
  - BUSI 520 Seminar in Accounting
  - BUSI 530 Governmental and Not-for-Profit Accounting
  - BUSI 540 Contemporary Issues in Auditing
  - BUSI 550 Business Law

- BUSI 598/599 Independent Study or Internship in Accounting
- ECON 500 Econometrics and Forecasting
- ECON 570 Industrial Organization
- ECON 590 Economic Research
- ECON 599 Independent Study in Economics

# Academic Policies and Regulations

## **The Academic Calendar**

The 9-month academic year consists of a fall and spring semester, with each semester encompassing 14 weeks of classes and one week of final examinations. Most classes meet for 150 minutes per week, though some first-year classes meet for 200 minutes per week. The standard class period is 50 minutes for classes that meet three days per week and 75 minutes for classes meeting two days per week. Detailed descriptions of the academic calendar and daily schedule can be found at the rear of this *Catalog* or at [www.hendrix.edu/academic/academic\\_calendar](http://www.hendrix.edu/academic/academic_calendar).

The College posts three graduation dates – immediately prior to the fall semester, at the end of the fall semester, and at the end of the spring semester. Commencement occurs once per year on the first Saturday following final examinations in the spring semester.

## **Courses and Units**

The academic unit is the course credit, which matches or exceeds the standards required of a conventional quarter-hour or semester course. The conversion rate for a standard semester course is 4 semester hours.

## **Course Load**

The academic program at Hendrix College is arranged so that the normal student load is four whole-credit courses per semester. A student attempting at least three whole-credit courses in a given semester is classified as a full-time student. Courses not earning whole course credit, such as physical activity classes and music activity classes, are not counted toward the student load. Students must receive permission from the Registrar to register as part-time students.

Under normal circumstances students who are making timely progress toward the completion of their degree programs in eight

semesters will be expected to enroll in no more than four whole-credit courses per semester. Students may not pre-register for a course overload. Students who wish to attempt more than four whole-credit courses in a semester must have at least sophomore standing. Exceptions to this policy require written permission of the student's faculty advisor.

### **Classification of Students**

For purposes of registration, course selection, and catalog listings, class standing is defined annually at the beginning of the fall semester according to the following guidelines:

<b>Class Standing</b>	<b>2003-2004</b>	<b>2004 and beyond</b>
Fresher	0-6 credits	0-6 credits
Sophomore	7-14 credits	7-14 credits
Junior	15-25 credits	15-23 credits
Senior	at least 26 credits	at least 24 credits

### **Grades, Grade Point Average, and Earned Credits**

**Grading System.** The grading system and associated grade points per whole credit are as follows:

- A** ..... 4 ..... excellent
- B** ..... 3 ..... good
- C** ..... 2 ..... satisfactory
- D** ..... 1 ..... poor
- F** ..... 0 ..... failing
- CR** ..... 0 ..... credit, passed at a minimum level of **C**
- NC** ..... 0 ..... no credit for a course taken for credit only
- I** ..... 0 ..... incomplete
- NR** ..... 0 ..... no report
- W** ..... 0 ..... withdrawn

At the conclusion of each semester, all courses are awarded a grade, a GPA credit, and a degree credit.

A GPA credit indicates the weighting factor assigned to a grade for use in the grade point average computation. A grade of **A, B, C, D, F** or **NC** may be assigned a GPA credit of 0, 1/4, 1/2, or 1, depending on the course. (Most Hendrix courses carry a GPA weight of 1. Study abroad credits, however, typically carry a GPA weight of 0, unless Hendrix is the originating institution for the grades. Currently Hendrix is the originating institution for the Hendrix-in-Oxford and Hendrix-in-London programs. Applied music and physical activity classes typically carry GPA weights of 1/4 or 1/2.) A grade of **CR, I, NR,** or **W** will always be assigned a GPA credit of 0. To compute the grade point average, multiply each grade by its assigned GPA credit, sum the results, and divide by the sum of the GPA credits.

A degree credit indicates whether or not the received grade will be assigned an earned credit towards graduation. A grade of **A, B, C, D** or **CR** may be assigned a degree credit of 0 or 1, depending on the course. A grade of **F, NC, I, NR,** or **W** will be assigned a degree credit of 0. To compute the number of earned graduation credits, sum the total number of degree credits.

**Grade I (Incomplete).** The grade of **I**, or Incomplete, is assigned when a student, for reasons beyond her or his control, is unable to complete requirements of a course by the end of the semester. When an Incomplete grade is reported by an instructor, a form entitled "Report on Incomplete Grade" must be submitted by the instructor to the Registrar. This report stipulates the conditions and the deadline date that must be met for the removal of the Incomplete. Incomplete grades should be resolved by the conclusion of the following semester and may not extend beyond a calendar year. (The calendar year begins at the end of the semester in which the grade of Incomplete is assigned.) The student and the advisor will receive copies of this report. Removal of the Incomplete and the assigning of the course grade by the instructor occur once the student has successfully completed the remaining course requirements.

The Incomplete grade will revert to the grade specified on the "Report on Incomplete Grade" form if the requirements are not met by the specified deadline date.

**Grade NR (No Report).** The **NR** grade is a temporary one and indicates that due to circumstances beyond the control of the student the Office of the Registrar did not receive the grade. The **NR** grade should be replaced by a letter grade as soon as possible and/or no later than graduation.

**Repeating a Course.** A student may repeat a course for which a grade already exists on the transcript. When a course is repeated at Hendrix, the highest earned grade is factored into the Hendrix grade point average and the course is designated with an **R** on the transcript. The lower grades are not factored into the Hendrix grade point calculation but remain on the Hendrix transcript and are designated with an asterisk (\*). A repeat grade of **CR** will be considered higher only than grades of **D**, **F**, **NC**, and **W**. Repeated courses may be counted only once toward earned degree credits. A course transferred in as a repeat course may not be used to replace a grade earned in the original Hendrix course.

## **Academic Status**

**Dean's List.** At the conclusion of each semester, the Office of Academic Affairs publishes a list of students who, completing no fewer than four whole credit courses in the semester for a letter grade, have received no grade other than A.

**Good Standing, Academic Probation, Suspension, and Dismissal.** A full-time student must meet the following standards for academic performance and progress to qualify as a student in good standing:

- a. The student's cumulative grade point average must meet or exceed the following thresholds: Freshers – 1.75; Sophomores – 1.90; Juniors or above – 2.0.

- b. The student must have earned at least three course credits during the previous semester.
- c. The student must have earned at least six course credits after the first year of academic study, thirteen credits after the second year, twenty credits after the third year, twenty-seven credits after the fourth year, and credits sufficient for graduation after five years of academic study.
- d. The total number of incomplete (**I**) grades and unforgiven failing (**F**) grades on the student's transcript may not exceed four.
- e. The student must exhibit integrity and personal honesty in the classroom and in other campus affairs.

Except in case of extenuating circumstances, a student who fails to meet one or more of these criteria will be placed on academic probation, effective for the next semester. The Registrar may remove a student from academic probation when he or she meets each of the minimum academic performance standards defined above. A student remaining on academic probation after two consecutive semesters is subject to academic suspension for one semester. Any coursework completed at another institution while a student is on academic suspension must first be approved by the Registrar's Office. A student who has been readmitted to the College after academic suspension may be dismissed from the College if he or she continues to fail to make satisfactory progress toward a degree. Additionally, a student is subject to academic dismissal or suspension if he or she accumulates four F's, fails all courses attempted in a single semester, or participates in an act or acts of academic dishonesty.

**Academic Warning.** A student will receive an academic warning when his or her semester grade point average (GPA) drops below 2.00 even though his or her cumulative grade point average may remain at or above the required minimums cited for academic probation. Academic warning is notice of unsatisfactory academic progress during a given semester. Receipt of an academic warning does not place a student on probationary status.

## **Class Attendance**

Students are expected to attend regularly all classes for which they are enrolled. Absences will typically be excused for documented cases of illness, emergency, sanctioned school functions, or other appropriate exigent circumstances. Students are expected to notify instructors of their circumstances in a timely manner.

At their professional discretion, course instructors may, by notifying the Registrar prior to the deadline for withdrawing from a course, remove from their courses any student whose unexcused absences over any three week period reach or exceed 50%. Instructors are not obliged to notify the student prior to taking this action. A student removed from a course under these circumstances will be notified by the Office of the Registrar through the student's Hendrix email account. A student may appeal this action by contacting the Registrar within three business days of the drop notice date. The Registrar will forward the appeal to the Academic Appeals Committee for review and action.

## **Academic Integrity**

Hendrix College is committed to high standards of honesty and fairness in academic pursuits. Such standards are central to the process of intellectual inquiry, the development of character, and the preservation of the integrity of the community.

Hendrix College is an environment intended not only to cultivate an active interest in the liberal arts, but also to serve as a place for students to begin taking responsibility for their own actions. In keeping with this mission, the faculty and students of Hendrix College have adopted a set of standards and procedures designed to

- guarantee the integrity and value of each student's work
- demonstrate the student body's commitment to serious academic pursuits
- foster a capacity for ethical decision-making
- involve students and faculty mutually in the academic judicial process

- specify the procedures to be followed for incidents of academic dishonesty
- help create a supportive and fair learning environment.
- cultivate an on-going dialogue about academic values within the Hendrix Community.

In pursuit of these goals, the students have committed to adhere to the following principles:

- All students have an equal right to their opinions and to receive constructive criticism.
- Students should positively engage the course material and encourage their classmates to do the same.
- No students should be permitted to gain unfair advantage or violate their peers' commitment to honest work and genuine effort. It follows that any work that a student submits for class will be that student's own work. The amount of cooperation undertaken with other students, the consistency and accuracy of work, and the test-taking procedure should adhere to those guidelines that the instructor provides.
- Academic integrity is valued and upheld because we recognize that scholarly pursuits are aimed at increasing the shared body of knowledge and that the full disclosure of sources is the most effective way to ensure accountability to both ourselves and our colleagues.

Violations of these standards of academic integrity may take one of the following forms:

- a. Plagiarism, which involves the use of quotations without quotation marks, the use of quotations without indication of the source, the use of another's idea without acknowledging the source, the submission of a paper or project (or any portion of such) prepared by another person;
- b. cheating on examinations, laboratory reports, exercises, or projects that are to be done by individual students; giving or receiving answers and/or materials pertinent to any academic work without permission of the instructor;
- c. stealing, manipulating, or interfering with any academic work of another student;
- d. collusion with other students on work that is to be completed by an individual student;
- e. lying to or deceiving faculty; or

- f. violating particular standards as determined and explicitly outlined by individual faculty members on a course by course basis. These particular standards should be clearly indicated on the syllabus for each course.

The Committee on Academic Integrity handles all instances of alleged academic dishonesty.

**Composition of the Committee:** The committee will be composed of four members of the Student Association and three faculty members. The students are nominated and voted upon by the Student Senate in the same manner as the College Judicial Council. The College's standing Committee on Committees will nominate the faculty members, whose service counts as a full-time committee commitment. Once formed, the Committee will elect a student Chair who will vote only in order to form a simple majority to effect a postponement. All other members have full voting privileges.

In the same manner, both the Student Senate and the College's Committee on Committees will also designate two alternates from their respective constituencies. Alternates will serve on a case-by-case basis when a potential conflict of interest might arise and the full member determines the need to recuse himself or herself or if the required quorum of seven cannot be met.

The Student Chair is responsible for the following: to convene the Committee whenever a report has been filed; to serve as the official, corresponding liaison between the Committee and the concerned parties; to be the contact person for all questions concerning the process and procedure of the Committee; and to transmit all Committee decisions to the concerned parties through an Official Letter of Decision.

**Committee Process:** All alleged violations of academic standards must be reported to the Committee on Academic Integrity. A violation can be filed in one of three ways:

- a. A student may file a report directly with the Chair of the Committee

- b. A faculty or staff member may file a report with the Chair of the Committee
- c. A student may inform the instructor of record, who subsequently files a report directly with the Chair of the Committee.

All reports must be made in writing, with the Committee convening within two weeks of that report. Whoever files the alleged violation report to the Committee is required to attend the hearing. At this meeting, all statements and evidence are presented. All parties will be allowed to introduce evidence or witnesses.

A simple majority may postpone a decision if certain evidence deemed crucial to the case has not been presented. The Chair may vote only to create a simple majority to effect a postponement. A decision may only be postponed twice, and on each occasion the Committee must reconvene within a week. The Committee on Academic Integrity will otherwise adhere to the procedural guidelines outlined for the College's Judicial Council.

In order to protect the confidentiality of students, all Committee deliberations are held in confidence, as are all decisions and potential sanctions. Furthermore, at the beginning of each academic year, every member of the Committee must sign a Confidentiality Statement to ensure the privacy of deliberations.

The Committee is to use the sentiments expressed within this document to render a decision on each particular case. The Committee has two options in rendering a decision:

- a. In violation
- b. Not in violation

A student is in violation of the standards of academic integrity only when four (4) or more full voting members of the Committee concur that a violation has occurred. If a student is found to be in violation of the standards of academic integrity, the Committee also hands down a particular sanction in direct consultation with the instructor of record.

The Committee must strongly consider the recommended sanction from the instructor of record. Specific sanctions must also be agreed upon by at least four (4) full voting members of the Committee. If a student is not found to be in violation of the standards of academic integrity, no further action will be taken. All records pertaining to the case remain confidential within the Committee structure and are available only for the purpose of determining appropriate sanctions. The Committee will retain all records for a period of six years, after which the records are purged.

Appropriate sanctions may include any of the following:

- a. allowing the student to resubmit the assignment with the understanding that a predetermined number of penalty points will be deducted from the student's total score
- b. giving the student a "0" on the assignment in question
- c. giving the student an F for the course
- d. and, in severe or repeat offense cases, suspension and/or expulsion (with such a recommendation, the Provost of the College is the consulting officer).

When a decision has been reached, it is transmitted to the involved parties through an Official Letter of Decision from the Chair of the Committee. Included in this Letter is the decision of the Committee and, if found to be in violation of the standards of academic integrity, the prescribed sanction. Copies of this letter are also sent to the faculty advisor, the instructor of record, the Registrar's Office, and the Provost of the College. Also, if the student is listed as financially dependent with the Registrar's Office, a copy of the letter will be sent to those whom the student is dependent upon.

**Appeals:** All decisions are subject to appeal. Intent to appeal must be filed in writing with the Office of Academic Affairs no later than one week after the Committee's decision. The Provost will decide if there are sufficient grounds for appeal, and, if such grounds are found, will forward the case to the Committee on Academic Appeals, whose decision is final.

## Academic Grievances

A student who believes that he or she has an academic grievance should discuss the concern with the faculty member in charge of the course in which the concern has arisen. If a mutually satisfactory resolution is not reached, the student should confer with his or her academic advisor and should take the matter to the relevant department chair. If no resolution is reached at this level or if the department chair is the faculty member in question in the first instance, the concern should be taken to the relevant area chair. Concerns remaining unresolved at this level should be taken to the Provost. Concerns regarding graduation requirements and their fulfillment should be taken to the Registrar.

## Schedule Changes

It is the student's responsibility to initiate and complete the necessary procedures for making course schedule changes such as adding, dropping, and withdrawing from courses. All of these changes must be performed using the "Add/Drop" form obtained from the student's advisor. In order for the requested course schedule change to be effective, the completed form with appropriate signatures must be submitted to the Office of the Registrar by 4:30 p.m. on the published deadline date.

**Adding a course.** The deadline for adding a course to a student's schedule is one week from the start of classes. Any course addition must be reported using the "Add/Drop" form and be signed by the student, the student's advisor, and a representative from the Office of the Registrar. Any student adding a course after the first week must secure the explicit written consent of the instructor and will be assessed a \$100 late fee. Departmental placement policies may authorize transitions from certain courses to other courses within the same discipline beyond this deadline without a late fee assessment.

**Dropping a course.** Students may drop a course without having that course appear on their academic transcripts at any point up to Friday

of the fourth full week of the semester. Any course drop must be reported using the "Add/Drop" form and be signed by the student, the student's advisor, and a representative from the Office of the Registrar.

**Withdrawal from a course.** From the close of the drop period through the end of the second week of classes subsequent to the due date for Interim Reports, a student may withdraw from a course with a grade of **W**. A grade of **W** will not be used in the calculation of the (semester or cumulative) grade point average. Any course withdrawal must be reported using the "Add/Drop" form and be signed by the student, the student's advisor, and a representative from the Office of the Registrar. After the eighth week of class, a student will not be allowed to withdraw from a course. Students who register for a course but never attend classes for that course are required to initiate and complete the necessary course drop or course withdrawal procedure outlined above. Simply not attending class does not guarantee a student's automatic withdrawal from that course and may even result in the grade of **F** for that course.

## **Withdrawal from the College**

A student who wishes to withdraw from the College should complete an "Application for Withdrawal" form available in the Office of the Registrar. The student should then have the form signed by his or her advisor, the Librarian, the Cashier, the Dean of Students, and the Registrar. Failure to secure the signatures and proper clearances may seriously affect the student's academic record.

Withdrawals during a semester may have a negative impact on academic grades, credits, financial refunds, and access to housing and other College facilities. Students who do not return for a subsequent semester are considered to have withdrawn voluntarily from the College. Students who voluntarily withdraw may subsequently apply for readmission through the Office of Admission.

## **Leave of Absence**

A student may apply for Leave of Absence status from the College under specific circumstances. Normally, Leave of Absence status is granted only for academic enrichment purposes or when the health and welfare of the student justifies placing the student on leave. Leave of Absence status is limited to students in good standing who plan to return to Hendrix within the designated “leave” period. The maximum allotted time for Leave of Absence status is one calendar year from the point at which the Leave is requested.

A student who wishes to be placed on leave should complete an “Application for On-Leave” form available in the Office of the Registrar. The student should then have the form signed by his or her advisor, the Business Office, the Dean of Students, and the Registrar.

## **Study Abroad Status**

A student who is accepted for study through the Hendrix College Study Abroad Programs must apply for Study Abroad Status through the Office of the Registrar. It is important to note that Study Abroad Status is distinguished from Leave of Absence status in that students enrolled in such programs are considered, academically, to be enrolled at Hendrix. Examples of these programs include Hendrix-in-Oxford, the International Student Exchange Program, and various consortia relationships.

To apply for Study Abroad Status, the student should obtain an “Enrollment in Hendrix Cooperative Program” form from the Office of the Registrar and have the form signed by his or her advisor, the Dean of Students, the Director of Financial Aid, and the Vice President for Business and Finance. The form must then be signed by the Registrar.

## **Courses Taken For Credit Only**

To encourage selection of a broader range of courses, Hendrix permits students to take one course per year on a credit only basis during their

sophomore, junior, and senior years. In place of the letter grade of **C** or better, the student will receive the designation of **CR**. In place of the letter grade of **D** or **F**, the student will receive the designation of **NC**. Courses taken for credit only must be at the 200 level or above. Courses taken for credit only at Hendrix must be outside the student's major or minor. Moreover, because of the centrality of the Learning Domain requirements to the liberal arts curriculum, these credit only courses may not be used to complete Learning Domain requirements. The maximum number of credit only courses counted toward graduation will be three. Intention to take a course under this option must be declared within the first two weeks of the semester at the Office of the Registrar. A student may request that the **CR** designation be changed to the letter grade reported by the instructor if the course is later used to fulfill a major, minor, or Learning Domain requirement in existence at the beginning of the student's senior year. Courses typically assigned a grade of **CR**, such as Propylaea, Physical Activity classes, senior seminars, and some internships, will not count toward a student's limit of three credit only courses. This policy also does not apply to graded music activity classes.

### **Activity Course Credits**

Course credit for graduation may be earned with the completion of a specific number of activity courses with a grade of **CR** or **C** or higher in a given type of activity. Physical activity courses are offered only on a **CR** basis with no assigned grade. Some music activity courses are offered only on a **CR** basis while others are offered either on a **CR** or on a graded basis. Details can be found in the catalog section for the Department of Music.

The following combinations of activity course credits are equivalent to one course credit:

- Any four physical activity courses
- In the Department of Music:
  - Four activity courses at the 200-level (ensembles) or 300-level

- (thirty-minute per week applied music lessons)
- Two activity courses at the 400-level (sixty-minute per week applied music lessons)
- One activity course at the 400-level and two at the 200- or 300-level.

Grades earned in activity courses will appear on the college transcript and will count in the student's grade point average. However, only whole credits (accrued as described above) will count toward the 32 course graduation requirement.

Any number of individual activity courses may be taken by a student; however, there are limitations on the number of whole course credits that a student may count toward graduation. Only one course credit in the Department of Kinesiology may count toward graduation, and only two course credits in the Department of Music may count toward graduation. The exception to this rule is Music majors who may earn up to two additional course credits toward graduation from music activity courses.

Activity classes are subject to the same registration, add, drop, and withdrawal deadlines as standard semester courses.

## **Transfer Credits**

Transfer credit may be accepted, subject to the following conditions and restrictions.

The course(s) offered for transfer must be comparable in academic quality to Hendrix courses, have originated at an accredited institution, and have a recorded grade of **C** or better. **Credit** or **Pass** grades will not be accepted in transfer. Courses originating from institutions that are in direct, formal institutional exchange agreements with Hendrix will be exempt from these grade restrictions and will be recorded in transfer. For incoming transfer students, one credit will be awarded for every four semester-hours of accepted transfer work, rounding to the nearest whole

credit. Once a student has matriculated at Hendrix, one credit will be awarded for every accepted transfer course, provided the transfer course carries at least three semester-hours of academic weight. Transfer credit must originate from courses taken in residence at an accredited institution. No transfer credit is awarded for correspondence work, for courses taken in a high school setting, or for courses that have been applied toward an earned baccalaureate degree.

Current students are strongly urged to seek transfer approval from their advisor and the Registrar using the form provided for this purpose prior to enrollment in any course for which transfer approval might be sought. The number of transfer courses that can be used to fulfill graduation requirements is determined by the residency requirement in item VI of the Program for the Bachelor of Arts Degree.

If a course is accepted for transfer credit, the grade from the originating institution will not appear on the Hendrix transcript unless the originating institution has a direct, formal institutional exchange agreement with Hendrix. Transfer grades from institutions that are in direct, formal institutional exchange agreements with Hendrix (such as the Graz, Westminster and ISEP study abroad programs and various consortium relationships) will be recorded but not calculated in the Hendrix grade point average. Transfer grades will be recorded and included in the Hendrix grade point average if Hendrix is the originating institution (such as the Hendrix-in-Oxford and Hendrix-in-London programs).

### **Advanced Placement and International Baccalaureate Credits**

The examinations and the courses for which AP and IB credit is granted are listed below. Credit granted for a specific course counts toward the satisfaction of any requirement toward which the listed course counts, with two exceptions: (1) Literature and Writing Courses, if taken to satisfy

the Level I Writing Requirement, must be taken at Hendrix, and (2) Learning Domain and Collegiate Center requirements may not be satisfied by AP or IB credits. The maximum number of credits which may be awarded for any combination of AP and/or IB examinations is six.

AP Exam	Min. Score	Hendrix Course Equivalent
Art-Studio General Portfolio .. 4 .....	4	One course elective
Biology .....	4	BIOL 101 <i>Concepts of Biology</i>
Chemistry .....	4	*

## **Credit Based on Departmental Placement Policy**

The Departments of Foreign Languages, Music, and Mathematics and Computer Science have placement policies that may result in a course credit being awarded after completion of a higher level course. The total number of additional credits that can be obtained by a student under these policies is limited to one credit.

## **College Level Examination Program (CLEP) General and Subject Examinations**

Hendrix will grant credit to students who make prescribed scores on the CLEP General Examinations. No student may receive credit in a General Examination area taken after receiving college-level credit in any course in that area. Hendrix will grant credit to students who pass the CLEP Subject Examinations approved by the department appropriate to the examination. The score necessary to receive credit through a Subject Examination will be the mean score achieved by "C" students in the national norms sample. The number of course credits to be given for passing a Subject Examination will be determined by the appropriate department.

## **Academic Records**

### **Transcript of Record**

The Registrar prepares, maintains, and permanently retains a record of each student's academic work. Student files of pertinent documents are maintained up to five years following the last date of attendance. Students may view their documents in the Office of the Registrar.

The permanent record is the transcript, which reflects all undergraduate and graduate work completed at Hendrix College and work taken at other institutions but applied toward the Hendrix degree. It lists chronologically the courses, units, grades, cumulative grade-point average, and total units.

### **Transcript Requests**

Official transcripts bearing the seal of the College and Registrar's signature will be sent by first class postage to other schools, institutions, or agencies, upon written request by a student or alumnus. To request an official transcript one should complete a "Transcript Request" form (available at the Office of the Registrar) or write to the Office of the Registrar, Attn: Transcripts, Hendrix College, 1600 Washington Avenue, Conway, AR 72032. Requests must include the student's name while in attendance at Hendrix, Social Security Number and/or student I.D. number, dates of attendance, current phone number, and student signature for release. Official transcripts are not available to students who have any outstanding financial or administrative obligations to the College.

Transcripts and first-class postage are provided free of charge as a service to students and alumni. Transcripts are usually mailed within two business days, though a student may request that mailing does not occur until grades are posted. Other special methods of delivery may be available by request for an additional charge. Facsimile or electronic transcripts are not provided due to security and privacy concerns. Transcripts of work completed elsewhere must be requested directly from the campus or institution concerned.

Unofficial transcripts for personal or on-campus use are available only for currently enrolled students.

### **Application for Graduation and Commencement**

A student preparing to graduate must complete an "Application for Graduation" form in the Office of the Registrar no later than the mid-

semester break in the semester immediately preceding the student's final semester at Hendrix. (Spring graduates must file applications by the fall mid-semester break.) Failure to do so may preclude the student from participating in Commencement and may result in his or her diploma not being available at Commencement.

All Hendrix graduates are expected to participate in Commencement unless excused by the Registrar. Students who have failed to satisfy two or fewer outstanding degree requirements may request permission from the Registrar to participate in Commencement and should complete their degree requirements prior to the start of the next academic year.

## **Graduation With Distinction**

The Bachelor of Arts with Distinction in \_\_\_\_\_ (a department or program) is conferred upon those graduating seniors who fulfill criteria determined by the department or program. In determining requirements for distinction, a department or program considers such criteria as the following:

- overall grade point average;
- grade point average in courses required by the department;
- grade on a comprehensive examination;
- independent project(s);
- recommendation from faculty in department or program;
- some evidence of collegiate breadth such as
  - grade point average in courses outside the major,
  - grade point average in the Collegiate Center,
  - course distribution,
  - recommendation from faculty member(s) outside the major,
  - papers done in departments other than the major,
  - extracurricular activities, and
  - other evidence deserving consideration.
- departmental interview open to all faculty;
- other appropriate criteria as the department determines.

The department or program reviews and evaluates the achievements of senior majors. Selection of students for graduation with Distinction is made by the department or program after evaluation of all available information.

The achievement of Distinction does not preclude graduation with collegiate Honors. For example, a student may graduate with a designation such as the following "Bachelor of Arts Cum Laude, with Distinction in Biology."

## **Graduation With Honors**

In order to recognize graduating seniors who have done outstanding work in the collegiate curriculum, the College awards the Bachelor of Arts *Cum Laude*, *Magna Cum Laude*, or *Summa Cum Laude*. Seeking to honor the approximate top ten percent of each graduating class, the Committee on Honors each year establishes for the following year the minimum grade point average for each level of honors. For 2003-2004 the scale is the following:

<i>Cum Laude</i>	3.70-3.84
<i>Magna Cum Laude</i>	3.85-3.94
<i>Summa Cum Laude</i>	3.95-4.00

## **Phi Beta Kappa**

Members in course are elected to Phi Beta Kappa primarily on the basis of broad cultural interests, scholarly achievement, and good character.

The Phi Beta Kappa Society sets the minimum requirements that must be met in order for a student to be considered for election. A grade point average of at least 3.80 is required, though no right to election adheres to any student solely by reason of fulfillment of the minimum GPA. At least three fourths of the degree program must be in liberal work, *i.e.*, not applied or professional work. Grades earned in applied or professional coursework are not counted in the GPA for purposes of Phi Beta Kappa eligibility. Applied and professional work includes all training intended to develop vocational skills or techniques. These courses include, but are not limited to, applied Education and Accounting courses.

Weight is given to the breadth of the program of study as shown by the number, variety, and level of courses taken outside the major(s). Weight also is given to the balance and proportion of the candidate's degree program as a whole. Therefore, exploration of areas outside the major(s) beyond the minimum coursework required for graduation will strengthen a student's qualifications. Fulfillment of the College's graduation requirements under the Foreign Language and Quantitative Skills capacities generally satisfies the minimum criteria in those areas for Phi Beta Kappa eligibility, though completion of one or more courses in mathematics is viewed favorably.

Members are elected during the Spring semester each year. In general, the Hendrix chapter considers only students who are in their last semester prior to graduation or who completed their degree the previous December.

## **Family Educational Rights and Privacy Act**

Listed below is the notification of the Family Educational Rights and Privacy Act of 1974. The College is to inform enrolled students annually of their rights under the terms of the Family Educational Rights and Privacy Act of 1974 (FERPA). The act does not apply to students admitted to the College who have not officially enrolled. Enrolled students have the following rights under the Law:

### **Student Records**

#### **A. Policy Intent**

1. The Hendrix student record policy is intended to conform with all state and federal statutes dealing with access to information held by an educational institution on present and former students.
2. The Hendrix College student record policy is formulated to protect the privacy of that student information that is maintained and yet provide access to student records for those having a legitimate purpose to view such records. Regulations and procedures to ensure adequate protection of the student are provided in this policy.
3. "Records" refers to those files and their contents that are maintained by official units of the College. Generally, students have the right

to review any official record that the College maintains on them. Access to records by others, without student permission, is limited to purposes of an educational nature. When access is permitted, documents will be examined only under conditions that will prevent unauthorized removal, alteration, or mutilation. Information to which the student does not have access is limited to the following:

- a. Confidential letters of recommendation placed in the student's files before January 1, 1975, and those letters for which student has signed a waiver of his or her right of access.
  - b. Parents' confidential financial statements.
  - c. Personal files and records of members of faculty or administrative personnel "which are in sole possession of the maker thereof and which are not accessible or revealed to any person except a substitute."
  - d. Records of the Admission Office concerning students admitted but not yet enrolled at the College. Medical/psychological records used in connection with treatment of the student. Such records are, however, reviewable by a physician or psychologist of the student's choice.
4. Only the following offices are authorized to release non-directory information: Registrar, Career Services, Counseling Services, Financial Aid, Dean of Students, Provost, and President.
  5. Copies of this policy are available upon request from the Registrar, who is responsible for the administration of the student record policy.

**B. Access to Student Records by the Student or Parents of Dependent Students:**

1. Students and parents of dependent students have the right to inspect their records (as defined in A3 above) and are entitled to an explanation of any information therein.
2. Documents submitted to the College by or for the student will not be returned to the student. Normally, academic records received from other institutions will not be sent to third parties external to the College. Such records should be requested by the student from the originating institution.
3. Official records and transcripts of the College (signature and/or seal affixed) are mailed directly to other institutions or agencies the student requests. When circumstances warrant, official records may be given directly to the student at the discretion of the proper College official. In such cases, the record will be clearly marked to indicate issuance to the student.

4. Should a student believe his or her record is incorrect, a written request should be submitted to the appropriate College official indicating the correct information that should be entered. The official will respond within a reasonable period concerning his or her action. Should the student not be satisfied, a hearing may be requested of the Registrar.

**C. Access to Student Records by Others:**

1. Disclosure of general directory information: Certain information may be released by the College without prior consent of the student if considered appropriate by designated officials. Such information is limited to the following:
  - Student's name, address, telephone number (permanent and local).
  - Date and place of birth.
  - Dates of attendance at the College, major fields of study, current classification, degrees, honors, and awards.
  - Previous schools attended and degrees awarded.
  - Heights and weights of members of athletic teams.
  - Participation in officially recognized activities.
  - E-mail address.
  - Class schedule/roster
  - Full or part-time status
  - Photograph
2. Directory information will not be released for commercial purposes by administrative offices of the College under any circumstances. Students may request that directory information not be released by written request to the Office of the Registrar. All other student information will be released only upon written request of the student, excepting those instances cited below.
3. Disclosure to members of the College community:
  - a. Access to student records for administrative reasons for faculty, administrative staff, and other pertinent employees is permissible provided that such persons are properly identified and can demonstrate a legitimate interest in the materials.
  - b. Access for the purpose of research by faculty and administrative staff is permissible when authorized by the department head and the administrator of the office concerned.
  - c. Information requested by student organizations of any kind will be provided only when authorized by the Dean of Students.
4. Disclosure to organizations providing financial support to a

student: It is the College's policy to release the academic transcript to such organizations only upon the student's written request or authorization. Otherwise, the academic transcript will be sent only to the student or to the parent(s) upon whom the student is financially dependent, a policy consistent with the College's interpretation of the Family Educational Rights and Privacy Act of 1974, popularly known as the "Buckley Amendment."

5. Disclosure to other educational agencies and organizations: Information may be released to another institution of learning, research organization, or accrediting body for legitimate educational reasons provided that any data shall be protected in a manner that will not permit the personal identification of the student by a third party.
6. Local, state, and federal governmental agencies. Government agencies are permitted access to student records only when auditing, enforcing, and/or evaluating sponsored programs. In such instances, such data may not be given to a third party and will be destroyed when no longer needed for audit, enforcement, and/or evaluative purposes.

## **Academic Advising**

Academic advising is an integral part of the academic program of the College. All academic advisors are full-time faculty members. Faculty advisors serve as a central academic resource and mentor for Hendrix students. Each student has a faculty advisor who provides guidance in academic planning and who is available for counseling on academic and related issues and concerns. Each student is expected to work closely with his or her faculty advisor in the design and pursuit of a coherent course of study shaped by his or her goals and interests and by College and departmental requirements.

Academic advising at Hendrix is viewed as a cooperative educational partnership between advisor and advisee, grounded in mutual respect and a common commitment to student growth and success. The advisor/advisee relationship respects the autonomy and intellect of each student and acknowledges the broader developmental and educational contexts within which academic advising occurs.

Though advisors and advisees work together in all areas related to academic planning, academic decision-making responsibilities, including the responsibility for meeting each of the graduation requirements of the College, rest ultimately with the student. Primary responsibility for timely, effective use of the academic advising system also remains with the individual student.

Academic advisors are responsible for providing their advisees with appropriate, accurate information concerning the academic policies, programs, procedures, and resources of the College. Advisors also assist advisees in defining, developing, and pursuing an educational plan consonant with their academic, career, and life goals, including the selection of an academic major consistent with their interests and abilities within the broader liberal arts curriculum.

Each new student at Hendrix is assigned a faculty advisor who is a member of the Council of New Student Advisors (CNSA), a group of faculty selected and trained specifically to work with new students at the College. Though students may change advisors at any time after their initial registration, most new students remain with their CNSA advisor at least through their first year of study. Typically, at an appropriate point during the second year of study, when a major has been identified and confirmed through work in courses and with faculty in that discipline, each student chooses an advisor in the department or area of his or her major. Junior and senior students are expected to work with a faculty advisor in the department or area of their major. Forms and instructions for changing advisors are available in the Office of the Registrar.

In addition to the CNSA advisor, each new student is paired with an Academic Peer Mentor (APM) for his or her first year at the College. Academic Peer Mentors are upperclass students who are committed to helping new students flourish in the Hendrix academic community.

Advisees are encouraged to meet regularly with their advisors in order to realize the full educational potential of the advising program. More specifically, each student works carefully with his or her advisor

each spring to structure an appropriate course schedule for the upcoming year, based on the student's short and long-term academic objectives as well as his or her career interests and goals.

In addition to ongoing general discussions concerning academic planning and scheduling, career goals, and academic progress, students and advisors will want to discuss at least the following:

- Taking less or more than a standard load (four courses) in a given semester;
- Dropping a course in progress;
- Receiving an Interim Report in a course;
- Changing the year's schedule in any way;
- Selecting and declaring a major or minor;
- Changing a major or minor;
- Study abroad opportunities;
- Transfer credit procedures;
- Internship possibilities;
- Going on leave or withdrawing from the College.

To assist students and advisors in understanding the academic programs of the College, including appropriate sequencing of courses in each major, and to promote each student's initiative and autonomy in directing his or her own academic program and progress, Hendrix publishes a *Hendrix Guide to Academic Planning* each year. The *Guide* contains both general guidelines and specific recommendations written by departmental and program faculty to facilitate effective academic planning. The *Hendrix Catalog* and the *Hendrix Guide to Academic Planning* are the two principal academic planning resource documents of the College.

Academic advising at Hendrix is coordinated through the office of the Associate Provost for Advising and Retention. Questions and inquiries regarding academic advising may be directed to that office.

## **Academic Support Services**

The Office of Academic Support Services is responsible for providing services to promote academic success. The coordinator of Academic

Support Services works with faculty members to identify key content in their coursework that can be reinforced through support services such as peer tutoring, group facilitation, and workshops. It is also the coordinator's responsibility to assess the academic needs of the student body in order to provide services to meet those needs.

Services offered by the Office of Academic Support Services include the following:

- *One-on-one Academic Counseling*  
The coordinator meets with students to discuss their academic status. These meetings are by appointment and often occur based on the referral of a faculty member. Students can contact the coordinator to set up an appointment.
- *Academic Workshops*  
These workshops provide students with an overview of information on academic topics. The workshops occur throughout each semester and are based on topics chosen by students. Presenters include faculty, staff, and academic consultants. Students may attend the workshops by registering in advance.
- *Peer Tutoring*  
Peer Tutors are an essential part of Academic Support Services. They assist students with coursework by helping them gain a better understanding of the material. Tutors are trained at the beginning of the academic year and monitored throughout the year. Tutoring is offered for the following subjects: Biology, Chemistry, Foreign Languages, and Physics. Assistance is also available for Accounting, Mathematics, Psychology, and Writing. The hours during which tutors are available may vary each semester. For more information, or to schedule an appointment, contact Academic Support Services by calling 450-1482 or visit our web site: [www.hendrix.edu/academic/academicsupport/tutoring.htm](http://www.hendrix.edu/academic/academicsupport/tutoring.htm).

The Office of Academic Support Services is open Monday-Friday from 8 a.m.- 5 p.m. To contact the office, call 450-1482 or visit our web site: [www.hendrix.edu/academic/academicsupport/index.htm](http://www.hendrix.edu/academic/academicsupport/index.htm).

## **Olin C. and Marjorie H. Bailey Library**

The Bailey Library houses the College's print and electronic collections, the Hendrix College Archives, the United Methodist Archives, a student computer lab, the Library Media Center, a writing lab, 24-hour study rooms, an electronic bibliographic instructional lab, and a media classroom. The Library exists to serve the intellectual needs of the College's academic programs and to contribute to high standards of educational excellence.

### **Collections and Access**

The Library boasts an outstanding small academic collection with 208,000 bound volumes, 30,000 government documents, and 176,000 microforms. Additionally, the Library provides access to 45 multidisciplinary and subject-specific electronic databases, some containing the actual full text of articles. Between 747 print journal subscriptions and full text electronic databases, over 2,000 journal titles are available. Most of the Library's electronic resources, including many full text journals, can be accessed from the Bailey Library web page, [www.hendrix.edu/BaileyLibrary](http://www.hendrix.edu/BaileyLibrary). Access to books and journal articles not available in the Bailey Library can be requested through Bailey's interlibrary loan service. On average, it takes requested materials six days to arrive. However, some digitized articles arrive within the hour while some materials take as long as six weeks to arrive.

Students may borrow books and materials from the main book collection for three weeks and reserve books for shorter periods of time. Reference books and periodicals are expressly for use in the Library. Presentation of a valid college identification card or an appropriate book card is necessary to borrow library materials. The privilege of borrowing the intellectual content of the Library requires a commitment to care responsibly for books (or other items), return items on time, and pay for damages should it be necessary. Hendrix students can also borrow materials from the University of Central Arkansas' Torreyson Library.

Up to three books may be borrowed for 28 days upon presenting a Hendrix identification card.

Current issues of journals, along with the backfiles and indexes, are located on the first floor. The reference collection is also on the first floor, as are microforms and government documents. The second floor has main collection books, including juvenile books, the Hendrix College Archives, and seven group study rooms.

### **Improve Access to Collections: Ask a Librarian**

Librarians are happy to help locate quality resources supporting research and classroom work and to assist with the critical evaluation of materials. Countless hours can be saved simply by asking a librarian to recommend reference works, research databases, Internet sites, or library collections that best meet needs. Librarians additionally provide individual reference assistance, tours, and workshops. If needed information is not in the Bailey collections, then librarians can identify relevant materials within other libraries' print and electronic collections and can provide easy access through interlibrary loan.

### **Library Hours**

#### **Monday through Thursday... 8:00 a.m. – midnight**

Friday ..... 8:00 a.m. – 5:00 p.m.

Saturday ..... 10:00 a.m. – 5:00 p.m.

Sunday ..... 2:00 p.m. – midnight

### **The Bailey Library Media Center**

The Media Center makes available for use in classroom and auditorium spaces across campus this equipment: video and audio cassette recorders; DVD and CD players; television monitors or data projectors; overhead projectors; slide projectors; VHS, Hi-8 and digital camcorders; digital still cameras; tripods; microphones; and a television satellite system.

The Media Center also makes available for use in the media carrels, the study carrels, or for checkout the following: audio cassette/CD players (boomboxes); audio cassette recorders with microphones; headphones;

slide projectors or slide carousels; VHS, Hi-8 and digital camcorders; digital still cameras; tripods; digital and linear video editing equipment; various dubbing equipment; and a transparency maker. A 24-hour study area containing individual and group carrels is located next to the Media Center.

Any member of the Hendrix community may check out PC or Macintosh laptops for use in travel to academic conferences and special field research projects/sabbaticals. Laptop checkout must be arranged in advance via e-mail to the Director of the Media Center. Students engaging in academic travel or field research should have their mentor faculty or staff member e-mail the Director of the Media Center.

Anyone can search the Media Center's media (VHS, DVD, CD, CD-ROM) through the library's automated catalogue. The Media Center also maintains a list of videos on its web site: [www.hendrix.edu/MediaCenter](http://www.hendrix.edu/MediaCenter). The Media Center's collection includes the complete works of Shakespeare on video, the Foreign Language department's cultural library, and growing CD and DVD collections. The circulation policies for the Media Center are consistent with those of the Library. Faculty may place their own or the Media Center's materials on reserve.

The Director of the Media Center maintains a Wish List for acquisitions. Requests are added to the Wish List and are purchased, as funds are available. To make requests or to review the current Wish List, e-mail the Director of the Media Center.

The staff members and student workers of the Media Center are available for classroom and event support by appointment. The Director of the Media Center is available as time and expertise allow to advise and assist in using audio/visual instructional materials outside the Library. All Media Center staff members are happy to assist patrons with reference questions on curriculum and technical support. More specific information regarding media and equipment checkout, media-ready classrooms, audio-visual event reservations, and set-up may be obtained from the World Wide Web page at: <http://www.hendrix.edu/MediaCenter/media.htm>.

## **Information Technology & Academic Computing**

The College's computing facilities include multiple Windows NT-based servers performing web, e-mail, and administrative functions. Three general purpose computer labs contain a total of 75 PC and Macintosh computers and associated laser printers. Scanning equipment is available for use in creating Web pages and other graphics applications. During academic semesters, the computer lab in Bailey Library is open around the clock, seven days a week, with a lab assistant on duty Sunday through Thursday from 1:00 p.m. until 10:00 p.m. to provide assistance to students in the use of the equipment and software.

The campus-wide Hendrix Network (H-net) provides a direct Ethernet connection to the Internet from every classroom, office, and residence hall room. All students are assigned a computer account and e-mail address upon registration. Approximately 70% of students living in residence halls have their computers connected to H-net. Students are provided information during the summer concerning connection to H-net from residence hall rooms. Information Technology should be contacted for further information at (501) 450-1340.

## **Religious Education**

Through the Offices of The Chaplain and Church Relations, Hendrix College offers a program to prepare students and other interested individuals for service to the church in religious education, church music, and youth ministry. The goal of the program is to provide opportunities for individuals to cultivate expertise in church careers while deepening and broadening the sensibility that leads them toward such vocations. In this way the College seeks to provide to the church individuals who move toward careers in service based on a firm foundation of liberal education, practical experience, and carefully guided vocational reflection.

Students who successfully complete the requirements of the Program in Religious Education, Church Music, and Youth Ministry, as set forth below, will be recognized by Hendrix and by the Arkansas Area

Conference Council on Ministries of the United Methodist Church with a certificate of completion. This recognition will indicate to employers or prospective employers that the graduate has satisfactorily accomplished the aims of the program and is thereby commended for a relevant church vocation.

The program for Hendrix students comprises four elements which are stated and described below.

- **Majors and course work**

A student seeking to complete the program should pursue an academic major in a relevant field offered by the College. The liberal arts tradition prepares students to respond with integrity to the wide range of opportunities and challenges that must be faced in life. While Hendrix College does not offer a major in religious education, the College is committed to helping students prepare for such a career. Students interested in this program should consult with the coordinator of the program. Below are recommended major fields and supplemental course work:

Suggested majors:

Religion, Philosophy, Psychology, Sociology, English, Education, Music, or History

Representative Course Work:

Bible: At least two courses are recommended, Introduction to Hebrew Bible and Introduction to New Testament

Religion in a Global Context

Variations of Early Christianity

Philosophy of Religion

State of the World

- **Seminars**

A student seeking to complete the program will participate in six seminars designed to provide students with specific vocational insights and skills. Leading professionals and church educators from seminaries, local churches, the General Board of Discipleship, and the two Arkansas conferences of the United Methodist Church will conduct sessions for students in the program. Core seminars will be required, and others may be selected according to need and interests. Representative topics appear below.

Core Seminars:

Stages of Faith Development

Methodist History, Theology, and Polity  
Religious Education  
Introduction to Christian Education: Its Nature, Purpose, and Practice  
Teacher Training and Development  
Developing and Implementing the Church School Curriculum  
Working with Various Age Levels in the Church  
Church Music  
Integrating Music into the Worship Experience  
Directing Church Choirs (vocal and handbell)  
Hymnology: Using the Hymnal  
Working with the Changing Voice  
Youth Ministry  
Programs: Where You Find Them and Who Leads Them  
Building Community: Retreats, Recreation, and Rules  
Adopting Biblical and Theological Resources for Youth  
Who are the Youth of the 21st Century?

- Internship

A student seeking to complete the program will participate in a supervised internship in a local church. The internship is an extended practicum experience carried out by the student under the general direction of the coordinator of the program and under the immediate supervision of the local pastor or other appropriate church professional. It is to be an action-reflection learning experience. The student will have an opportunity to study and practice religious education, church music, or youth ministry in a local church setting. The student will also be responsible for integrating the internship into his or her total educational experience. The specific elements of the internship include the following:

- The student will write an initial paper outlining the goals and expectations he or she has for the internship experience. The paper is to be submitted to the coordinator of the program and the internship supervisor. All the parties will meet to discuss the paper.
- The student is expected to become familiar with the structure and polity of the United Methodist Church (or other denominational equivalent). This awareness should include reading appropriate literature and attending various board and committee meetings of the local church as agreed upon by the student and internship supervisor. These goals and

agreements will be placed in writing. The student should meet at least one time during the internship with the District Superintendent (or equivalent denominational leader). This meeting will be for the purpose of learning how the District Superintendent relates to the local church and to the denomination as a whole.

- The student will write a weekly reflection paper about an event or situation experienced during the execution of his or her responsibilities. These shall be submitted to the internship supervisor.
- The student will meet weekly with the internship supervisor to discuss the reflection paper and any other appropriate matters.
- The student, the internship supervisor, and the coordinator of the program will meet for a final evaluation of the internship experience. This meeting will include a discussion of whether the goals and expectations of the internship have been met, how well the student has fulfilled the agreed-upon duties and responsibilities, and how well the church has provided an appropriate learning experience.

### **Pretheological Fellowship**

Students interested in completing the Program in Religious Education, Church Music, and Youth Ministry should participate in the Hendrix College Pretheological Fellowship. The Pretheological Fellowship provides an opportunity for students to meet for discussion of professional, spiritual, and vocational goals, as well as support and encouragement. The group meets under the guidance of the Chaplain. Students will also be encouraged to participate in mission or service projects, fellowship teams, and campus worship services.

For additional information about the Religious Education program contact the Office of the Chaplain, 450-1263.

## **Programs and Opportunities**

### **Army ROTC**

Hendrix College students are invited to participate in the Army Reserve Officers Training Corps program conducted under the auspices of the University of Central Arkansas. The program is offered on a voluntary basis to first-year men and women enrolling at Hendrix. The courses available are Military Science I-IV, and incur no additional charge as a fifth course. For more information about the ROTC program, see the ROTC program's website at <http://www.uca.edu/division/academic/rotc/>.

### **Combined Engineering Programs**

Hendrix participates in cooperative programs in engineering with Columbia University, Vanderbilt University, and Washington University. Under provisions of these programs, students take three years of their work at Hendrix and two years at Columbia, Vanderbilt, or Washington University. These programs enable students to receive a liberal arts degree from Hendrix and an engineering degree from one of the three schools of engineering. Students desiring information about these programs should contact Dr. Richard Rolleigh of the Department of Physics, 450-1256.

### **Gulf Coast Research Laboratory**

Hendrix College is a formal affiliate of the Gulf Coast Research Laboratory in Ocean Springs, Mississippi. Courses that deal with the ecology, botany, zoology, and microbiology of marine organisms may be taken in Ocean Springs during the summer. Credit for these courses is awarded through the University of Southern Mississippi and is accepted as biology credit at Hendrix College with the prior approval of both the student's academic advisor and the chairman of the Biology Department.

### **Independent Studies**

Hendrix College encourages each student to include at least one independent study in the course work presented for the Bachelor of Arts. Independent studies are arranged by the student in consultation with a

supervising faculty member, and each independent study proposal must be approved by the chair of the department within which the independent study is registered as a course. Independent studies should be designed to expand, complement, and deepen the college's regular course offerings and may be arranged as tutorials or undergraduate research experiences.

Students wishing further information on independent study opportunities should consult with the chair of the relevant department.

### **International-Intercultural Studies**

Hendrix College, through the International-Intercultural Studies Committee and individual faculty members and departments, encourages and coordinates overseas study opportunities for Hendrix students. The Committee also aids in the development of international educational programs and activities. The I-IS Committee is made up of students, faculty, and members of the administrative staff.

The College sponsors student participation in international exchange programs. Arrangements with the Karl Franzens University in Graz, Austria, and the International Student Exchange Program (over 100 universities in about 45 countries) permit Hendrix students to study at foreign universities and allow Hendrix to bring students from overseas universities to the College. In addition, study abroad opportunities are available through the Associated Colleges of the South.

The International Student Exchange Program, or ISEP, provides many exciting and varied opportunities for study abroad. The program arranges for direct enrollment of individual Hendrix students in colleges and universities on six continents. In recent years, ISEP placements have been arranged in such places as the Netherlands, Japan, Hungary, Malta, Ghana, Korea, Finland, and Australia.

With the approval of the I-IS Committee, students may spend their junior or senior years in the Hendrix-in-Oxford program. Under the auspices of the Oxford Overseas Study Course, they study in England with individual tutors in a wide variety of academic disciplines. Students

develop individual study programs and participate in extracurricular activities, which have included internships at the British House of Commons, participation on an Oxford women's rowing team, and membership in the John Wesley and Fabian Societies. The program allows for extensive European travel during the long winter and spring recesses.

The Department of Foreign Languages can provide students with information on additional options for language, cultural and literary studies abroad. The Coordinator of International Programs also advises individual students on participation in programs not directly affiliated with the College. In addition, other campus organizations arrange special foreign travel, study, and activity programs such as European tours by various musical ensembles, volunteer work in Peru, and the Hendrix-in-London semester sponsored by the Hendrix-Murphy Foundation.

Information on all of these overseas activity and study programs may be obtained from Dr. Wayne Oudekerk, Coordinator of International Programs, 450-1210. The College also encourages students during their junior years to explore postgraduate international study opportunities such as the Rhodes Scholarship Program, the Fulbright Scholarship Program (Dr. Jon Arms, advisor), the Thomas J. Watson Fellowships (Ms. Britt Anne Murphy, advisor), and others. Recent graduates have won awards for the study of dance in the United Kingdom and Japan, woman leaders in South America and Africa, turtle populations in the Galapagos, the Seychelles and elsewhere, and ecovillages around the world.

Hendrix College cannot be held responsible for financial liability or other obligations of non-Hendrix study abroad programs.

## **Internships**

In an effort to provide students with the opportunity to gain additional experiences in areas of study and to clarify their career interests, Hendrix College offers an Internship Program. Coordinated through the Office of Career Services, this program encourages students to apply classroom theories to the solutions of actual problems at a work site.

Host agencies assist interns by providing training, projects and supervision to students throughout the internship experience. This program is available to sophomores, juniors, and seniors of all majors and may be combined with an internship for course credit. All interested students must meet with a Career Services professional to complete all learning contracts prior to beginning the internship experience. Contact the Office of Career Services, 450-1416, for additional information.

### **Semester in Environmental Science**

The Semester in Environmental Science (SES) is offered each fall by The Ecosystems Center, Marine Biological Laboratory (MBL), located in Woods Hole on Cape Cod in Massachusetts. SES is a 15-week program in environmental science offered to Hendrix students and others enrolled in colleges participating in the MBL Consortium in Environmental Science. The MBL is the oldest private marine laboratory in North America, and has served as a home to researchers and students studying both basic biology and the environment for over 110 years. The SES program, which began in 1997, is dedicated to providing undergraduates with an opportunity to learn about ecosystems and conduct environmental research with some of the top scientists in the field. For more information, contact the chair of the Hendrix Environmental Studies Program.

### **Sunoikisis**

Sunoikisis ("cohabitation" in Greek) is an organization of the Classics programs at colleges belonging to the Associated Colleges of the South. Sunoikisis offers translation courses in Latin and Greek for advanced students as well as a course in archaeology which prepares students for a summer dig in Turkey. These courses, taught by professors from the ACS, combine online lectures, web-based discussions, and tutorials with a professor at a student's home institution. Arrangements may be made for interested Hendrix students to participate in these courses and receive Hendrix credit. Students should contact Dr. Rebecca Resinski of the Department of Foreign Languages, 450-1464, for more information.

## **Undergraduate Research**

Students are encouraged to explore the opportunities available in the department of their major for undergraduate research. In a variety of formats—on-campus or off-campus, as a paid internship or for academic credit—Hendrix students may participate in faculty-directed research projects. As a part of the undergraduate experience, student research is an instructional format providing first-hand understanding of methods through which knowledge is gained in a particular field. These projects often lead to the presentation of results at departmental colloquia or seminars, state or regional meetings, or the annual sessions of the National Conference on Undergraduate Research. Students interested in these opportunities should consult with their faculty advisors or the chairs of the major departments.

## **The Washington Semester**

Under an agreement with The American University in Washington, D.C., Hendrix College participates in the Washington Semester Program. Students selected to study under this program spend the fall semester of their junior or senior years in Washington and are enrolled at The American University. This program affords students opportunity to continue their college educations while observing the operation of government and international agencies in the nation's capital. Detailed information may be obtained from the chair of the Department of Politics, 450-1319.

## Special Programs

### The W.C. Buthman Endowed Visiting Scholar and Lectureship Program

Established and endowed by his family, colleagues, former students, friends, and admirers in November, 2000, the **W. C. Buthman Endowed Visiting Scholar and Lectureship Program** honors the distinguished legacy and service of the late Dr. Buthman, former Academic Dean and Professor of History at Hendrix College. In keeping with Dr. Buthman's interest in and commitment to international affairs and global issues, the program focuses on scholars and lecturers whose expertise speaks most directly to the concerns of the collegiate center section of the new Hendrix curriculum known as "Challenges of the Contemporary World." In this way, the Buthman Program solidifies and enhances a most integral part of the College's educational mission as it engages a new millennium replete with global issues and fundamentally articulated by global dynamics.

The W. C. Buthman Endowed Visiting Scholar and Lectureship Program brings up to two scholars per academic year to the campus, beginning in the Fall, 2001. As the endowment grows, additional visiting scholars and related programs may be included.

Scholars are selected with the following criteria in mind:

- That they bring fresh perspectives to the analysis of global issues and trends;
- That over time a wide range of global issues and dynamics is addressed in keeping with the curricular agenda of the College's "Challenges of the Contemporary World;"
- That scholars utilize interdisciplinary perspectives and methodologies whenever possible and relevant;
- That they promote cross-cultural appreciation and understanding;
- That they stimulate critical thinking about and evaluation of global issues and trends.

Scholars will receive a modest honorarium, plus expenses associated with their visit to campus. In return, they will be expected to spend up to three days on campus, engaging in a variety of opportunities by which

to articulate their views on a range of global issues: public lectures, classroom visits, informal colloquia, and social occasions.

Selection of scholars will be undertaken by the International Relations & Global Studies Committee, appointed by the Provost, which will solicit nominations from the Hendrix community at large. Nominations for Buthman Fellows should be made to the Chair of the IRGS Committee.

### **Center for Entrepreneurial Studies**

The Center for Entrepreneurial Studies provides opportunities for the study of the current and historical role of entrepreneurs in market economies. It provides a forum for public debate about the roles played by entrepreneurs in local, regional, national and international economic spheres. The Center provides focus for public debate concerning the effects of economic policy in such areas as taxes, property rights, government spending, and the regulation of entrepreneurship. The Center engages in activities complementing the educational enterprise at the College, such as sponsoring nationally prominent speakers on an occasional basis. The Center will sponsor internships for Hendrix students with entrepreneurs and will undertake other educational activities for the public consistent with the above purposes, such as seminars, workshops, and retreats focused on business and business leadership in relation to the liberal arts. For additional information contact Dr. S. Keith Berry, Professor of Economics, at 450-1233.

### **Hendrix-Murphy Foundation Programs in Literature and Language**

Foundation programs enrich the study of literature and language at the College in a variety of ways. Students and faculty attend public presentations by and meet with nationally and internationally acclaimed scholars, novelists, poets, playwrights, and theatre directors. These visitors explore such annual program themes as Southern literature, 20<sup>th</sup> century culture, literary criticism, Africa, the French Revolution, human earth relations, and biography. Many students also participate in such Murphy

Programs as the Language House, a year's residential living experience rotating annually among French, German, and Spanish; a Writing Center, which provides peer tutoring services; a semester of study in London; creative and essay writing competitions; foreign and other film series; classical and other literature readings; and a senior studies seminar in Master Works. The new Bertie Wilson Murphy Building serves as a center for these programs, providing on-campus lodging for the Foundation's visiting faculty, writers, and lecturers and a seminar room and library for those visitors to visit informally with students and faculty. Other building events include student and faculty poetry and other readings, film evenings, study hall nights, student and faculty workshops, and student literary group meetings. Additional information is available from the Foundation's office in the Murphy Building by calling 450-1399.

### **Hendrix-Lilly Vocations Initiative**

A generous grant from the Lilly Endowment enables Hendrix College to offer the Hendrix-Lilly Vocations Initiative, titled "Vocation and Integrity: A Call to Wholeness." The overall purpose of the Vocations Initiative is to invite students to see their years in college as a period of discernment, a time for extended and deep reflection about who they are called to be in life. The Initiative encourages students to explore answers to questions about what their life's work should most truly be about through involvement in service to those in need, participation in a faith community, and reflective exercises for identifying worthy values, as well as through academic preparation.

The Vocations Initiative designs and funds retreats, volunteer service projects, and travel opportunities; visiting scholars, academic courses, student research and national conferences; opportunities for theological discernment and building spiritual discipline; occasions for "shadowing" and interning with community leaders. All these offerings and opportunities are designed to help participants explore the content and nature of their calling. They are designed to assist students, and the staff

or faculty working with them, with the process of integrating what daily life so often fragments: faith and knowledge, information and values, self-fulfillment and service, secular duties and faith commitment, wage-earning and calling.

Recognizing the diversity in our community, the Hendrix-Lilly Vocations Initiative provides points of entry appropriate for students of any religious heritage and those with no religious tradition at all. In honor of the religious tradition of the College, however, some elements of the Vocations Initiative are designed specifically to assist those students exploring a Christian vocation, whether through professional ministry or active lay leadership. For additional information contact Dr. Peg Falls-Corbitt, Professor of Philosophy, at 450-1285, or the Hendrix-Lilly Office at 450-4590.

## **Special Events**

The Special Events Committee presents special, non-class programs in the fine and performing arts. Outstanding events of the past have included Marcel Marceau, The North Carolina Dance Theatre, Pilobolus, Pere Ubu, Garth Fagan Dance, The Mystic Arts of Tibet, The Preservation Hall Jazz Band, Steven Petronio Dance Company, Lucinda Williams, T Bone Burnett and Sam Phillips, Van Dyke Parks, Richard Thompson, Gillian Welch and David Rawlings, The National Theatre of the Deaf, The Arkansas Symphony Orchestra, and Taj Mahal. For seasonal information call (501) 450-4545 or visit the Special Events website at <http://www.hendrix.edu/specialevents>.

## **Steel Center**

The Marshall T. Steel Center for the Study of Religion and Philosophy is named for Dr. Marshall T. Steel, distinguished alumnus and President of the College from 1958 to 1969. The Steel Center was made possible by a bequest from Mrs. Ruth Veasey of Dermott, Arkansas. The purpose of the Steel Center is the enhancement of the College's capacities in the fields of religion and philosophy. It does this by

sponsoring lectures throughout the year by notable speakers from throughout the nation, by offering workshops on philosophy of religion, theology, and related topics, and by sponsoring the Friday Afternoon Discussion in the Raney Building each Friday. In addition, the Steel Center offers opportunities for continuing education for clergy and laity in the region by sponsoring the annual Steel-Hendrix lecture and awards ceremony. Dr. Jay McDaniel, Professor of Religion, 450-1284, serves as director.

# Admission and Financial Information

## Admission Information

Hendrix College is a selective institution, admitting students who demonstrate significant academic achievements and are well prepared for the rigorous curriculum of the College. Hendrix seeks students of varied interests and talents, representative of many social, economic, and geographic backgrounds. Admission is not limited by age, race, gender, disability, sexual orientation, or national origin of the applicant. Reflecting the historic understanding of institutions related to the United Methodist Church, Hendrix is nonsectarian in its approach to admission.

### Recommended Preparatory Work

Hendrix College expects students to demonstrate their seriousness of purpose by participating in a college preparatory curriculum throughout their high school careers. It is highly recommended that preparatory work include the following subjects:

- English (4 units) – to cover grammar, composition, and literature.
- Social Studies (3 units) – to include 1 unit in American history, 1 unit in world history, and 1/2 unit in civics or American government.
- Natural Sciences (2 units) – to be selected from offerings in biology, chemistry, and physics.
- Mathematics (3 units) – to include algebra I, and additional units selected from algebra II, geometry, trigonometry, precalculus, and calculus.
- Foreign Language (2 units) – to be selected from offerings in French, German, Spanish, or other major foreign languages.

Particular attention is given to the level of challenge of an applicant's previous course of study and to trends in performance.

## Admission Criteria

Admission is based upon an overall review of each applicant rather than on any single factor. The following general criteria have been found most useful in selecting applicants:

- Demonstrated academic competence.
- Scholastic potential.
- Personal motivation (in particular, motivation to take advantage of an education at an institution with the aims and programs of Hendrix College).
- Character and leadership.

## To Apply For Admission To The Freshman Class

As a candidate for the Freshman class, you should

- obtain an application form from the Office of Admission, a copy of the common application, or an electronic application at [www.hendrix.edu](http://www.hendrix.edu).
- submit the completed form with a \$40 non-refundable application fee.
- have your high school forward a transcript of grades on all work you have attempted since the beginning of the ninth grade.
- take the American College Test (ACT) or the Scholastic Aptitude Test (SAT) and request that your scores be sent to Hendrix. These tests may be taken during the junior or senior year. Information concerning the tests may be obtained from your high school counselor or by contacting the Office of Admission, Hendrix College. The Hendrix ACT code number is 0128, and the SAT code number is 6273.
- Return your application to:  
Office of Admission  
Hendrix College  
1600 Washington Avenue  
Conway, AR 72032-3080

For additional information, you can write to the above address, call (800) 277-9017 (fax number: (501) 450-3843) or email at [adm@hendrix.edu](mailto:adm@hendrix.edu). You can also visit our website at [www.hendrix.edu](http://www.hendrix.edu).

## To Apply For Admission By Transfer

If you are a candidate for admission as a transfer student, you should

- obtain an application form from the Office of Admission or a copy of the common application, or an electronic application at [www.hendrix.edu](http://www.hendrix.edu).
- return the completed form with a \$40 non-refundable application fee.
- if you have been in college for less than a year, have your high school forward an official transcript of your high school grades and the results of your ACT or SAT to the Office of Admission.
- have each college or university previously attended send an official transcript of your work. Failure to report attendance at another institution, whether or not credit was granted, may result in dismissal from Hendrix.
- have sent to the Office of Admission a "Dean of Student Affairs Recommendation" form, which may also be obtained from the Office of Admission or from the website at [www.hendrix.edu](http://www.hendrix.edu).

## International Student Admission

Applications from international students are encouraged. A candidate for admission to the freshman class or as a transfer student should

- obtain an international student application form from the Office of Admission or from the website at [www.hendrix.edu](http://www.hendrix.edu).
- return the completed form with a \$100 non-refundable application fee.
- submit official transcripts of all secondary and post-secondary academic work translated into English.
- take the Test of English as a Foreign Language (TOEFL), or the SAT, and have the score reported directly to the College if he or she is a non-native speaker of English.
- submit a Declaration of Finance on bank stationery stating financial resources for one full year's expenses at Hendrix College.

## Acceptance Procedures

The Committee on Enrollment and Financial Aid must have all the appropriate information as listed before it can act on an application.

The Committee reviews applications which are complete beginning

November 1, and letters of acceptance are mailed on a “rolling admission” basis.

To reserve a position in the freshman class, students are requested to submit an enrollment deposit of \$200 no later than May 1st. The fee is credited as a security deposit and will be kept in reserve as long as the student is enrolled (see Security Deposit in Financial Information section).

Positions in the freshman class are reserved on a first-come basis. Room assignments in the residence halls are made based on the date the enrollment deposit is received.

A housing application will be issued at the time of admission. The housing application must be completed and returned by May 15.

Because of the enrollment structure, students submitting the deposit after all positions in the class have been reserved are placed on a waiting list.

## **Campus Visits**

Hendrix strongly encourages prospective students to visit the campus. A campus visit normally includes the opportunity to attend a class, a tour of campus and lunch with current students, a meeting with an admission officer, and a meeting with a member of the Hendrix faculty. (Meeting with a professor is a requirement for academic merit scholarships.) Prospective students may spend the night in a residence hall with current students if they wish. Overnight visits are available only during the academic year and must be arranged at least one week in advance.

The Office of Admission, located in Ellis Hall, is open from 8:00 a.m. to 5:00 p.m. Monday through Friday during the academic year, from 7:30 a.m. to 4:00 p.m. during the summer, and from 10:00 a.m. to 12:00 noon on Saturdays between October 1 and March 1. Persons interested in scheduling a Campus Visit should call the Office of Admission at (800) 277-9017.

## Financial Information

### Student Fees

The academic year is divided into two semesters, each lasting approximately fourteen weeks. Each student completes registration in the fall for the entire year or portion of the year that he or she will be enrolled. Student fees, for the entire year or portion of the year for which the student is enrolled, are due and payable in order to complete registration. However, the popular College Plan provides for payment of the annual student fees in two payments in accordance with the following schedule:

Fall Semester	By August 8, 2003
Spring Semester	By December 19, 2003

Payments not received by these dates will be subject to a late payment fee.

At the end of the academic year, any outstanding balance over \$200 could be referred to a third party collector. Students are responsible for any extra collection fees that may result from late/non-payment.

---

Financial arrangements must be completed by the stated deadlines or registration is incomplete and the student will be ineligible to attend classes, live in campus housing, or eat in the cafeteria. Diplomas, transcripts, drop/add course approvals, and statements of intent are not issued until accounts are paid in full.

The summary of basic charges does not include key deposits, computer network maintenance fee, auto decal fee, the cost of books, or fees for special courses. The costs of books vary with the courses taken but run approximately \$700 per year.

The normal student load is four courses per semester. Students who register for extra courses (with special permission from the Registrar) will be charged an additional \$944 for each additional course taken. This fee is non-refundable if the extra courses are dropped after classes begin for the term.

Hendrix College reserves the right to adjust the charges for tuition, fees, room, and board without formal notice.

### **Refund of Student Fees**

Students withdrawing or requesting a leave of absence at anytime during the year must go through the proper process. The student must go to the Office of the Registrar to begin the process. The form which the student receives must be presented to each additional office as indicated on the form.

Hendrix College has adopted the following policy regarding the refund of tuition, room and board when a student withdraws or takes a leave of absence during a semester.

Tuition is refunded as follows:

- 100% if withdrawal occurs by the end of the business day on Friday of the first week of classes;
- 75% if withdrawal occurs during the second week of classes;
- 50% if withdrawal occurs during the third week of classes;
- 25% if withdrawal occurs during the fourth week of classes.

Board is refunded as follows:

- Board is pro-rated if withdrawal occurs by the end of the business day on Friday of the first week of classes;
- 75% if withdrawal occurs during the second week of classes;
- 50% if withdrawal occurs during the third week of classes;

25% if withdrawal occurs during the fourth week of classes;  
No refund is given if withdrawal occurs after the fourth week of classes.

The room or apartment charge is non-refundable after the student has attended any classes.

The date of withdrawal from which all claims to reductions and refunds will be referred is the date on which the student officially notifies the Registrar's Office of his/her intent to withdraw. Students withdrawing or removed under disciplinary action forfeit the right to a refund.

In addition, students receiving Title IV financial aid will receive a calculation for earned and unearned Title IV funds as outlined in the Return of Title IV funds policy. Unearned funds will be charged back to the student's account and returned to the proper parties. Information on the Institutional Refund Policy and the Return of Title IV Funds is available from the Office of Business and Finance or the Student Financial Aid Office. An administrative fee of the lesser of 5% of institutional charges or \$100 is charged to students who withdraw during an enrollment period.

The refund portion returned to the Title IV programs is determined according to the Return of Title IV Funds Policy. The Title IV portion of the refund is allocated among the Title IV programs accordingly:

1. Unsubsidized Stafford Loans
2. Subsidized Stafford Loans
3. Unsubsidized Direct Loans
4. Subsidized Direct Loans
5. Perkins Loans
6. Federal PLUS Loans
7. Direct PLUS Loans
8. Pell Grants
9. FSEPG
10. Other Title IV programs

If the refund is attributed to Family Educational Loan Programs, it is returned directly to the lender within 30 days of the later date of when the student withdrew or when the school is notified of the withdrawal.

If the student withdraws during the refund period, institutionally

funded and state funded scholarships and grants will be refunded on a basis consistent with the refund calculation method, not to exceed the total amount of the calculated refund. Private scholarships are not refunded unless specifically required by the donor.

Students who are enlisted in a military reserve and are called to active military service in the middle of a term, and thus forced to take a leave of absence for the term, will receive a tuition refund equal to the amount of tuition paid at the beginning of the term. Room and board fees will be prorated, with the amount of fees not yet used at the time of call to military service refunded to the student.

### **Security Deposit**

As described in the "Admission Information" section of the *Catalog*, a new student who has been accepted for admission is required to make a \$200 enrollment deposit after notification of acceptance. After a student is registered, the enrollment deposit becomes a security deposit, and any residence hall damage charges, library fines, parking fines, or other campus charges may be charged to the deposit. Each student is required to restore the deposit to the \$200 level at every registration period. Unless forfeited as described below, the balance of the deposit will be refunded to the student 45 days after he or she leaves the College.

At the time a student registers for the Spring Semester of each academic year, he or she must declare his or her intentions with regard to returning for the subsequent year. If he or she is returning, and the student's account is paid in full, the security deposit is held as a deposit for the following year and a housing application is issued. If a student's plans change after the declaration and a decision is made not to return to Hendrix, the student may obtain a refund of the balance of the deposit (within 45 days) by notifying the Office of Fiscal Affairs by June 1, 1/2 of the deposit if notification is made by July 1 and 1/4 of the deposit if notification is made by July 15. If notification is after July 15, if the student moves off campus during the academic year, or if the student withdraws during the academic year, the deposit is forfeited.

If a student is on a leave of absence from the College and decides not to return at the end of the leave, the security deposit is forfeited.

## **Financial Aid**

Student financial aid is available in the form of scholarships, grants, loans, and part-time employment. With the exception of some scholarships, loans, and skill-based jobs, financial aid is awarded primarily on the basis of financial need.

### **Financial Need Determination**

The Office of Student Financial Aid utilizes the Free Application for Federal Student Aid (FAFSA) to determine the students financial need. All such information is held in the strictest confidence and is accessible for this purpose only. Family size, income, and resources, among other factors, are considered in determining a familys expected contribution towards the students educational costs. Financial need generally represents the difference between the cost of attending Hendrix and the amount which the student and his or her parents are expected to contribute. The amount and type of assistance a student receives are dependent upon the availability of funds, the students financial need, the students classification, and the record of academic performance. The application for financial aid may be obtained from high school counselors or the Office of Financial Aid at Hendrix and should be filed as soon as the actual information requested is available. Students who submit their FAFSA to the Office of Financial Aid by February 15 prior to the year of anticipated enrollment will be given priority status. Students will be notified of their financial aid awards as soon as possible after the receipt of the necessary information by the Office of Financial Aid.

### **Academic Requirements**

All students who receive financial aid must demonstrate the ability to do satisfactory college work. Students are normally expected to

complete their degree requirements within four years, but students unable to graduate within four years may receive aid for an additional year. To meet the course load requirements, students, i.e. student aid recipients, are considered to be making satisfactory progress if they meet the following number of courses:

1. By the end of the first academic year of study, must have completed at least 6 courses;
2. By the end of the second academic year of study, must have completed at least 13 courses;
3. By the end of the third academic year of study, must have completed 20 courses; and
4. By the end of the fourth academic year of study, must have completed 27 courses.

The number of courses completed will be reviewed at the end of each academic year. Students who fail to meet the minimum standards of the college for the first time will be placed on financial aid probation for one semester. By the end of the probationary semester, students must have completed the minimum number of courses or they will be suspended from receiving additional financial assistance until such time as they have completed the required number of courses.

Summer courses may be counted toward meeting the requirements for the previous academic year. Correspondence courses may also count toward meeting the requirements for the previous academic year provided they are completed (final grade and credit recorded) during that academic year for which they are to apply, or in the interim period prior to enrolling for another academic year. Summer courses and correspondence work will not count toward meeting the grade point requirements.

A course in which a grade of "incomplete" is assigned will not be used to meet course load requirements. If the incomplete is changed to a passing grade, it will be recorded in the semester during which the course was taken and will then apply to the requirements as a part of that semester. No course may be counted more than once toward satisfying the course load requirements.

Courses taken as an option under which no grade is assigned (credit only) will count toward the requirements for eligibility. Courses taken and passed on a credit basis will not affect the grade point average but will count toward graduation requirements.

In addition to the above, financial aid recipients must also maintain minimum cumulative grade point averages to remain eligible for aid. These requirements are as follows:

Freshmen	0-6 courses	1.75
Sophomores	7-14 courses	1.90
Juniors	15-25 courses	2.00
Seniors	26+ courses	2.00

Grade point averages will be reviewed at the end of each academic year. Students failing to meet the minimum grade point standards of the College for the first time will be placed on financial aid probation for one semester. By the end of the probationary semester, students must have the required minimum grade point average or they will be suspended from receiving additional financial assistance until such time as they have achieved the required grade point average.

The requirements listed above are applicable to all Title IV programs (Federal Pell Grants, Federal Supplemental Educational Opportunity Grants, Federal Work-Study, Federal Perkins Loans, Federal Stafford Loans, Federal PLUS Loans, Hendrix Pace loans, HELP loans, Arkansas Student Assistance Grants, and VA benefits) and to most Hendrix funded scholarships, grants, and work programs. Higher academic performance standards are required to retain most merit scholarships.

During their first year of enrollment, transfer students accepted for admission to the College will be eligible to receive financial aid. Once enrolled, however, transfer credits accepted by the Office of Academic Affairs, plus work completed at Hendrix College, will be evaluated to determine future satisfactory academic progress for financial aid purposes.

Students who feel that mitigating circumstances prevented them from making satisfactory academic progress may appeal the decision to suspend

their financial aid eligibility. In cases of legitimate mitigating circumstances, a written appeal for variance should be submitted to the Director of Financial Aid.

Most financial aid requires a minimum course load of three courses per semester. Some state programs require four per term. Students should verify that they are enrolled in the necessary course load to maintain all aid. Students wishing to reduce course loads after enrollment should contact the Financial Aid Office to ensure that their aid will not be affected. The financial aid officer may cancel or reduce awards at any time if students fail to maintain satisfactory academic standards or minimum course load requirements.

### **Academic Probation Policy for Students Receiving Veterans Administration Benefits**

Students receiving assistance from the Veterans Administration are subject to certain minimum standards of progress:

- A first-year student whose grade point average is less than 1.75 cumulative will be placed on academic probation. A first-year student on academic probation whose grade point average is less than 1.75 cumulative at the end of the term will be suspended from drawing V.A. educational benefits.
- A sophomore student whose grade point average is less than 1.90 cumulative will be placed on academic probation. A sophomore student on probation whose grade point average is less than 1.90 cumulative will be suspended from drawing V.A. benefits.
- A junior student whose grade point average is less than 2.00 cumulative will be placed on academic probation. A junior student on probation whose grade point average is less than 2.00 cumulative will be suspended from drawing V.A. benefits.
- A senior student whose grade point average is less than 2.00 cumulative will be placed on academic probation. A senior student on probation whose grade point average is less than 2.00 cumulative will be suspended from drawing V.A. educational benefits.
- A veteran dropping a course or changing to audit prior to the mid-term can be permitted to do so without penalty. If a course is

dropped after mid-term a grade of "F" is given. An incomplete grade must be cleared during the term following the term in which it was incurred. Failure to remove the incomplete in the required time will result in a grade of "F".

## **Scholarships and Grants**

Hendrix College awards a variety of scholarships and grants based on academic merit, leadership experience, performance in the fine arts, and financial need. Students who choose to compete for a scholarship must first complete an application for admission to the College. In most cases, students may accept only one scholarship or grant from Hendrix College. In some cases, students may accept the full value of one scholarship and a reduced value of a second scholarship.

Academic requirements for retention of Hendrix scholarships and grants vary according to the specific scholarship or grant. The requirements for retention are specifically enumerated in the students original scholarship notification letter.

### **Academic Merit Scholarships**

Academic Merit Scholarships, ranging in value from \$2,000 per year to full tuition, fees, room, and board are awarded to students who have accumulated outstanding high school records and who demonstrate the potential for academic success at Hendrix College. Students must visit the campus for an interview with a member of the Hendrix faculty in order to receive an Academic Merit Scholarship. Interviews for Academic Merit Scholarships begin in the fall of the year. Academic Merit Scholarship Awards are announced beginning in January. Priority for Academic Merit Scholarships is given to those students who apply and are interviewed prior to January 15.

Normally, students with a 3.0 GPA in College Preparatory Classes, and a 25 ACT or 1140 SAT, are eligible to compete for scholarships. When a students GPA exceeds 3.5, the test score minimums may be waived. In awarding scholarships, the scholarship committee considers the following criteria:

- Academic performance in College Preparatory Classes
- Standardized test scores
- Leadership/extra curricular activities
- Interview
- Recommendations

### **Hendrix College Leadership Awards**

Leadership Awards are granted to students who are selected as Hendrix Leadership Scholars. Fifteen Leadership Scholars are selected each year after a review of leadership, activities, community service, and honors. This is a four-year personal development program. Applications can be obtained from the Hendrix Office of Admission, and decisions are made in early March.

### **Hendrix-Lilly Service Scholarships**

The Hendrix-Lilly Vocations Initiative awards scholarships to five entering students each year. These scholarships are for students who have worked successfully in the past with volunteer service organizations, who intend to make leadership through volunteer service a part of their future, and who wish to embark upon a highly intentional, guided process of vocational discernment during their college years. Service Scholars commit to a certain number of volunteer service projects and vocational exploration programs per year. Applications can be obtained from the Hendrix Office of Admission.

### **Hendrix-Lilly Organ and Church Music Scholarships**

Each year, one four-year scholarship is awarded by the Hendrix-Lilly Vocations Initiative to a student with excellent performance skills in organ, who intends to continue formal organ instruction through Hendrix, and who wishes to explore the possibility of a vocation in church music. Application may be made through the Hendrix Office of Admission. An on-campus audition will be required.

### **United Methodist Youth Leadership Scholars**

United Methodist Youth Leadership Scholarships are awarded to fifteen students with leadership experience in local and regional United Methodist Youth ministries. Persons who wish to compete for a UMYF Leadership Award must submit a UMYF Leadership application by February 15. Awards are announced in early March.

### **Fine Arts Performance Scholarships**

Fine Arts Performance Scholarships are awarded to select students in music, theater, and visual arts. Students interested in Fine Arts Performance Scholarships in music and theatre must schedule an audition on campus with a member of the faculty. Preference is given to persons who audition prior to February 15. The last day for auditions is March 31. Students interested in Art Scholarships must submit a portfolio on slides by February 15.

### **Hendrix Aid Grants**

Hendrix Aid Grants are awarded in cases of need. The amount of the grants varies according to the students need and the availability of funds. To apply, students must complete the Free Application for Federal Student Aid (FAFSA).

### **Ministerial Student Loans/Grants**

Students preparing for ordained ministry in the United Methodist Church may qualify for a loan of one-half tuition, provided they meet certain criteria, including certification as a candidate for ministry in the United Methodist Church, and receive the approval of a duly appointed financial aid committee. Once the student, is ordained in the United Methodist Church and enters the full-time ministry, the loan will become a grant. Those students who later decide not to enter the ordained ministry in the United Methodist Church will be expected to repay the loan at six percent interest within five years after graduation.

### **Ministers' Dependent Grants**

Dependents of United Methodist elders and deacons under full-time appointment of a bishop are eligible to apply for a grant of one-half tuition. Dependents of retired or deceased ministers are also eligible to apply for the grants. All recipients of these grants must receive approval of a duly appointed financial aid committee and must be in good standing in the College.

### **United Methodist Scholarships**

Scholarships from the United Methodist Church are available each year to Hendrix students. The scholarships are based upon the students need and activities in the program of the Church.

## **Loans**

### **Federal Perkins Loans**

Depending upon financial need and the availability of funds, loans of up to \$4,000 annually, with a maximum of \$20,000 for an entire undergraduate college career are available. These loans bear interest at the rate of 5 percent per annum beginning nine months after the student ceases to carry at least one-half the normal academic course load. The first payment on principal and interest is due one month later at the minimum rate of \$40 per month.

### **Federal Stafford Loans**

The maximum loan under this program is \$2,625 for the first year of study, \$3,500 for the second year of study and \$5,500 per year for subsequent undergraduate study. The interest rate is subject to change each year but may never exceed 8.25 percent. Repayment begins 6 months after graduation or after a student ceases to be enrolled. Interest is paid for borrowers who demonstrate a financial need and for whom repayment has not yet begun.

### **Unsubsidized Federal Stafford Loans**

This program is the same as the Federal Stafford Loan program with

two exceptions: 1) Financial need is not an eligibility criterion. 2) The student is responsible for interest payments for the life of the loan beginning with the first disbursement.

### **United Methodist Student Loans**

Members of the United Methodist Church are eligible for loans of up to \$2,500 per calendar year. The interest rate on these loans is 6 percent, and interest accrues from the inception of the loan. Repayment begins 6 months after graduation or withdrawal from school. Final payment is due no later than 10 years from the date of the first payment.

### **Hendrix Education Loan Program**

The HELP program offers an interest-free loan to parents for up to 45 consecutive months during a student's enrollment at Hendrix. During the time Hendrix is paying the subsidy, parents make monthly payments. The amount of the payment is determined by the amount the parent borrows. If the parent borrows the same amount each year, the payments remain the same each month. If the parent borrows a greater amount in subsequent years, the payment will be based on the larger amount borrowed and will remain at that level. The HELP Program is a Federal PLUS Loan program and requires credit approval. The Federal PLUS Loan application serves as the application for the HELP loan.

### **PLUS Loans**

The PLUS Program makes loans available to parents of dependent undergraduate students. PLUS borrowers are not required to demonstrate financial need and may borrow up to the cost of education minus other aid. The interest rate is variable but cannot exceed 9 percent.

## **Government Grants**

### **Federal Pell Grants**

Depending upon congressional appropriations, eligible students may receive grants of up to \$4,050 per year based upon financial need. Students may apply directly to the Federal Pell Grant Program by filing the Free Application for Federal Student Aid.

### **Federal Supplemental Educational Opportunity Grants**

The federal government allocates Federal Supplemental Educational Opportunity Grant funds to colleges. This enables undergraduates with exceptional financial need to receive grants of up to \$4,000 per year.

### **Arkansas Student Assistance Grants**

Full-time undergraduate students who are legal residents of Arkansas may apply for the Student Assistance Grant Program, which is worth \$600 per year. Student eligibility is based on the results of the students Free Application for Federal Student Aid.

## **Student Employment Opportunities**

Hendrix participates in the Federal Work-Study Program for capable full-time students with financial need. Additionally, there are a number of other skill-based job opportunities available on campus in various academic and administrative departments. Students who wish to secure jobs through either program must apply through the Office of Financial Aid. Students eligible for the Federal Work-Study Program will have priority in job selection. Students are responsible for arranging their work schedules to meet employer needs.

No student will be paid for any work performed for the College without prior authorization from the Office of Financial Aid.

## **Application Procedure**

All students applying for financial aid are required to complete the following steps in order for a financial aid package to be awarded:

1. Obtain admission to the college.
2. Complete the Free Application for Federal Student Aid. FAFSAs

- may be obtained from high school guidance offices or from the Hendrix College Office of Admission or Office of Financial Aid. FAFSA may also be completed via the internet at [www.fafsa.ed.gov](http://www.fafsa.ed.gov).
3. Mail the FAFSA to the Federal Student Aid Programs or submit the FAFSA directly to Hendrix College.
  4. Submit other documents, if requested, by the Office of Financial Aid. The most frequently requested documents include
    - A signed copy of your U.S. income tax return (and your spouses return if you are married.)
    - A signed copy of your parents U.S. income tax return if you are required to provide parents tax information on the FAFSA.
    - A completed, signed verification worksheet.

### **Verification**

Students who receive federal or state aid may be selected for Verification. Additional information will be requested from students selected for Verification. Students must submit the required documents to the Office of Financial Aid within 15 days of the request. The Office of Financial Aid cannot certify a Federal Stafford Loan application or authorize federal or state financial aid to be credited to a students account until Verification is complete. If the information provided is different from the original application, the students need for assistance will be re-evaluated using the verified information.

### **Disbursement of Aid**

All scholarships and grants administered directly by Hendrix are credited to the students account at the beginning of the semester or upon completion of Verification, if required. Scholarship, grant, and loan funds awarded by private sources are not credited to the students account until the money is received by Hendrix. Earnings from work opportunities are paid directly to the student by check every month.

### **Financial Aid for Study Abroad**

Hendrix encourages students to participate in study abroad programs. Students desiring to participate in any study abroad program should contact the Financial Aid Office at Hendrix to determine which student

financial aid programs or funds may be used to study abroad. In all cases the Financial Aid Office will work with the student to help make study abroad possible using federal, state, private sector, and in many cases Hendrix funds. However, Hendrix-funded scholarships and grants are not available to all study abroad programs. Hendrix funds may be used for the exchange program with Graz University in Austria, exchange programs through the International Student Exchange Program (ISEP), and the Hendrix-in-London program at Birkbeck College.

Hendrix College scholarships and grants **are not available** to be used for the Hendrix-in-Oxford program. The financial Aid office will assist the student in obtaining any federal, state, or private sector funds for which the student is eligible to assist with expenses associated with this program.

### **Washington Semester**

Students considering the Washington semester through American University should consult the Office of Financial Aid about the affects on their aid eligibility. Although Hendrix scholarships and grants will not apply to the Washington semester, federal and state funding is applicable. Participating students with state aid must continue to meet state enrollment and continuing eligibility requirements.

### **Required Disclosures for Enrolled Students**

Below is a list and brief description of disclosures available to all students. Any student may receive a disclosure below in its entirety by contacting the Office of Financial Aid, 1600 Washington Avenue, Conway, AR 72032.

# Student Life

Programs and services for students at Hendrix are expressions of the intellectual and cultural thrusts of the College. "Student life" is seen as an opportunity for enhancing and enriching the educational environment. Certain affirmations, as contained in the Statement of Purpose of the College, are basic to the planning and carrying out of student services and programs. Crucial commitments of the College in student life include the intention to cultivate among students:

- aesthetic sensibilities and delight in beauty;
- powers of ethical deliberation and empathy for others;
- discernment of the social, spiritual, and ecological needs of our time;
- a sense of responsibility for leadership and service in response to those needs; and
- recreational dispositions complementing a full flourishing of the human potential.

To achieve these commitments, the Office of Student Affairs provides opportunities which challenge and support students to learn about themselves and others in an educational community while preparing for leadership and service as responsible world citizens.

## **Standards of Conduct**

Hendrix operates with standards which serve as guides to the development, modification, and enforcement of specific regulations. Enrollment in Hendrix places on the student the responsibility to be aware of both the principles and specific regulations. Specific regulations may be found under appropriate headings. Behavioral principles or standards include the following:

1. Students are expected to maintain standards of conduct befitting maturing and responsible citizens of an academic community and reflecting the purposes of the College. The obstruction or disruption of the work of the College will not be tolerated.
2. All members of the community are expected to exhibit integrity and personal honesty in the classroom and in other campus affairs. Evidence of dishonesty, such as theft or plagiarism, is considered cause for disciplinary action.
3. Conduct which leads to embarrassment, physical harm, or indignities to other persons will not be tolerated.
4. Personal behavior of members of the community must conform to standards of propriety congenial to our heritage and aims and to the laws of the state and nation.
5. Student-sponsored social events are expected to be consistent with the standards of the College.

## **Office of Career Services**

The mission of the Office of Career Services is to support students and alumni through the exploration of professional and educational opportunities for a lifetime of intellectual, social and personal development. To achieve this mission, workshops, events, resources and individual appointments are provided to assist students in defining their career aspirations through self-assessment, evaluation, exploration and internships, preparing them to apply successfully to graduate or professional schools and for employment. These services are available to all students and alumni and include:

### **Career Advising**

Professionals are available by appointment to assist students in planning their short and long-term career goals. Questions such as "What do I want to accomplish in life?", "What are my interests, skills, and values?", "How can I search for employment" and "What should I do to get into graduate school?" are but a few of many questions students may have about themselves or their futures. These and other concerns can be discussed on an individual and confidential basis. In addition, assessment

tools are available to assist students in identifying potential careers consistent with their interests. Alumni who are re-entering the job market or are interested in changing careers are invited to use this service.

## **Internships**

In an effort to provide students with the opportunity to gain additional experiences in areas of study and to clarify career interest, Hendrix College offers an Internship Program. Coordinated through the Office of Career Services, this program encourages students to apply classroom theories while exploring professional interests. Students must meet with a Career Services professional to complete learning contracts prior to beginning the internship experience. Students who wish to pursue internship experiences for course credit must be sponsored by a faculty member, complete academic study or reports, and invest time equal to the amount of time spent on a regular course offered by the appropriate department. A proposal for course credit can only be approved prior to the beginning of the experience.

## **Career Services Library**

The Career Services Library provides resources for students on various topics including careers, graduate schools, financial aid, job seeking and career planning. Job binders are also available with current and up-to-date information on job openings and internships. Magazines and handouts provide information on hiring trends, diversity in the workforce, resume writing, networking and other career-related topics. All of these resources can be borrowed from the library to provide time for full exploration.

## **Workshops and Events**

Prior to scheduling an appointment with a Career Services professional, students who are in need of specific information may wish to attend an educational or training workshop. Throughout the academic year, workshops are offered on topics such as Self-Assessment, Resume Writing, Interviewing Techniques, Dining Etiquette, Choosing a Graduate

or Professional School, Choosing an Internship, and Life After Hendrix. In addition annual events are scheduled to connect students with outside resources including a fall Graduate School Expo, a spring Career Fair, and Roundtable Dinners with Alumni.

### **On-line Resources**

Information about programs and services provided by the office is accessible 24 hours a day through the Hendrix College home page at [www.hendrix.edu/career](http://www.hendrix.edu/career). The Career Services page also includes resources and links for all services provided through the office. In addition, an on-line resume database and job referral system and an on-line assessment link can be accessed through this site. Information is also provided on the Alumni Sharing Knowledge (ASK) Program, a formalized program developed by the Career Development Committee of the Alumni Board of Governors and the Career Services Office with a goal of connecting alumni of Hendrix College with present students in order to enhance career planning and exploration.

### **Counseling Services**

The Office of Student Affairs provides services to meet the counseling, personal development, and referral needs of the Hendrix College student body. The staff are helping professionals and paraprofessionals in career counseling, personal counseling, crisis management, developmental issues, personal choice and responsibility, and leadership development. The members of this department have specialized training in these areas. They do not provide extensive, long-term personal counseling or psychotherapy. In cases where such therapy is necessary, the Student Affairs staff refers students to an appropriate qualified professional.

#### **Personal Counseling**

Personal counseling is available for all students to help them develop life-long skills for personal growth and successful management of conflicts

and crises. A list of referral resources is available for those who want or need additional help. Staff members will help locate counselors, psychologists, physicians, treatment centers, and other resources in the area.

Counseling Services are located on Washington Avenue. You may set an appointment or seek other counseling resources in person or by calling 450-1448.

### **Individual Counseling**

Individual counseling is available for a variety of problems and issues. Typical issues include stress, depression, anxiety, guilt, anger, low self-esteem, procrastination, time management skills, and relationship difficulties.

### **Group Counseling**

Groups are formed each semester to meet various needs. These may include eating disorders, grief, sexual assault and abuse, alcohol and drug problems, as well as other areas of concern. Groups are led by trained professionals specializing in the identified area and are usually limited to 6-10 participants.

### **Counseling Workshops**

Workshops are offered throughout the year on stress management, relationship issues, communication skills, time management, study skills and test anxiety, and other problems. Workshops are led by Hendrix staff and off-campus personnel specializing in particular skill areas.

### **A.D.A. Accommodations**

Students seeking accommodations in accord with the Americans with Disabilities Act should contact Counseling Services at 450-1448.

### **Dining Services**

Dining Services strives to provide a balanced diet of healthful food and a friendly setting for social interaction. All students residing in campus

residence facilities are required to participate in the board meal plan. Visitors and students living off campus may purchase individual meals in the dining hall or Campus Center snack bar.

## **Student Health Services**

The office of Student Affairs contracts with Conway Regional Medical Center to provide on-campus health care services to meet the students' needs. The clinic, located on Washington Avenue, is staffed by an Advanced Practice Nurse. The APN is a registered nurse (RN) who has advanced education and clinical training in a health care specialty area.

Advance Practice Nurses practice under the rules and regulations of the Nurse Practice Act of Arkansas Nurse Practice Act. APNs provide information people need to make informed decisions about their healthcare and lifestyle choices. They serve as the regular health care providers for children and adults during health and illness. At Hendrix College, the APN provides individualized care, focusing not only on health problems but also on the effects health problems have on the student's success at Hendrix. In addition to caring for students when they are ill, the APN also presents health related seminars and education.

Health Services also has a wide range of durable medical equipment ranging from wheel chairs to crutches and braces for loan to students. Over the counter medications are stocked for student's immediate needs. Health Services also provides allergy injections for students who take them, as well as assistance with vaccines and medications needed for foreign travel.

The clinic has both "walk-in" hours and visits by appointment. Call 450-1448 for more information.

## **Housing**

Hendrix is a residential community providing residence halls and dining services in the belief that shared living experiences promote an

effective context for the type of educational program to which Hendrix is devoted.

The residence halls and houses provide a comfortable atmosphere in which students may study, interact socially, and rest. Within the residence halls, students share with and learn from one another. The exchange of ideas and information is an important aspect of the educational process. Here students meet new people, gain new ideas, develop life-long friendships, and learn to live within a responsible community.

The Hendrix College campus offers several housing options: six traditional residence halls (two for men, three for women, and one coeducational facility); six smaller on-campus houses with suite style living arrangements; a language house; and two apartment complexes adjacent to the campus. Under the direction of the Director of Housing and Residence Life, the live-in staff includes two Area Coordinators, 34 Resident Assistants, and two Apartment Coordinators. Resident Assistants are returning students who have been trained to advise students on academic and social issues, coordinate social and educational programs, respond to policy violations, and report maintenance needs of facilities.

Each hall and house has lounge facilities for relaxation and social purposes. Visitation and quiet hours are established within each residence hall at the beginning of each academic year. Students who live in College housing are expected to familiarize themselves with all current policies and procedures, which are located on the Hendrix College homepage ([www.hendrix.edu](http://www.hendrix.edu)). Violation of community standards and policies is cause for disciplinary action.

Because Hendrix College is a residential college, all students are required to live in college residence facilities. Permission to live off campus must be requested and is granted on a very limited basis. Any exceptions to the on-campus requirement must be granted by the Director of Housing and Residence Life. Exceptions are determined on a yearly basis.

## **Intercollegiate Athletics**

For varsity intercollegiate athletics, Hendrix is a member of the Southern Collegiate Athletic Conference, a National Collegiate Athletic Association Division III affiliation. In addition to Hendrix, members of the SCAC are Centre College; DePauw University; Millsaps College; Oglethorpe University; Rhodes College; Rose-Hulman Institute of Technology; The University of the South (Sewanee); Southwestern University; and Trinity University. Hendrix sponsors 17 sports, including men's and women's soccer; men's and women's cross-country; men's and women's track and field; men's and women's basketball; men's and women's golf; men's and women's tennis; men's and women's swimming and diving; women's volleyball; men's baseball; and women's softball. Any student who wishes to explore participating in an intercollegiate varsity sport should contact either the coach of the sport or the director of athletics.

## **Office of Minority Student Affairs and Recruitment**

The Office of Multicultural and International Student Affairs collaborates closely with faculty and staff to create a campus climate that is culturally affirming where all Hendrix students are treated with dignity and respect. The office also offers services that range in scope from student programming activities, diversity training, leadership training, and support. Hendrix College is committed to the principle that diversity in the student body enhances the intellectual experience and understanding of the entire community.

## **New Student Orientation**

Hendrix College offers a unique New Student Orientation program that combines adventure, discovery, outreach, and education. New Student Orientation provides students with opportunities to interact with faculty, staff, returning students, and one another. Students will participate

in small group trips around the State of Arkansas. These enjoyable trips are a mixture of fun, education, and skill development. Not only do the trips offer students an introduction to new sights and environments, but also they establish a sense of community.

During New Student Orientation students share information, engage in discussions, and attend programs that are of special interest to the new student. Theatrical performances about the “freshman experience” and other interactive programs present information on academic skills, getting involved on campus, and making a successful transition from high school to college.

The Hendrix College New Student Orientation Program is a special blend of fun, education, skill development, friendship formation, and awareness-building. As a stepping stone between high school and college, New Student Orientation offers practical information for college life and an important sense of welcome and community.

## **Religious Life**

Hendrix understands that opportunities for spiritual growth, theological exploration, moral development, and the growing expression of one’s religious faith are central components of a liberal arts education. Hendrix attempts to implement these concerns throughout its programs. We do not conceive of these commitments as apart from or added to the intellectual-cultural life of the College but as integral to the mission of this College.

Hendrix offers its students and faculty a broad range of opportunities for religious study and practice. Religious life includes a variety of small groups that meet for study, meditation, and prayer; weekly Covenant Discipleship groups; weekly worship celebrations in Greene Chapel; theological discussions exploring various issues of faith and life; and numerous opportunities for volunteer service. Students are encouraged to attend the lectures and other activities sponsored by the Steel Center for the Study of Religion and Philosophy.

Participation in religious life at Hendrix is actively encouraged but is strictly voluntary. While Hendrix is related to the United Methodist Church, religious life on the Hendrix campus offers students of diverse cultural and spiritual heritages the opportunity to explore and grow in the disciplines of their respective religious traditions.

Hendrix students are encouraged to participate actively in the various churches in Conway. Many students obtain summer work in local churches and other church-related enterprises throughout the state and region.

Hendrix students provide leadership in weekly worship celebrations in Greene Chapel and frequently conduct services in other places on the campus. Hendrix students often go as resource groups into local churches. Students with career interest in religion are encouraged to meet and discuss vocational and professional goals and interests. There is a designated organization called the Pretheological Fellowship that addresses these goals and interests.

## **Student Activities and Involvement**

Hendrix students participate in a wide spectrum of co-curricular activities and experiences which complement academic learning and provide opportunities for students to enrich their leadership abilities. Activities include cultural events, such as concerts, lectures, plays, and exhibits; social events, such as dances, movies, and coffeehouses; intramural sports; student government; student media; clubs and organizations; and outdoor recreation. The "Leadership Hendrix" Program offers leadership opportunities for Leadership Scholars, student organizations, and other students interested in developing as leaders. In addition to on-campus events, the nearby city of Little Rock, thirty minutes from the College, offers students numerous social and cultural activities.

## **Intellectual and Cultural Activities**

Hendrix College is dedicated to providing its students with numerous co-curricular opportunities to stimulate and enrich their cultural and intellectual interests. Public lectures on a wide range of topics presenting differing points of view are designed to keep students informed on matters of regional, national, and international importance. Other programs include musical performances by visiting artists, gallery talks in connection with art exhibits, dramatic productions, a series of foreign films, and scholarly conferences on current topics. These are complemented by Hendrix student recitals, concerts, art exhibits, and plays. Such events are sponsored by College agencies including the Hendrix College Fine Arts Endowment Program, the Hendrix-Murphy Foundation Programs in Literature and Language, and the Marshall T. Steel Center for the Study of Religion and Philosophy.

### **Propylaea 400**

To cultivate intellectual and aesthetic curiosity, a student may attend and evaluate 60 intellectual and cultural events, including Murphy Foundation programs, Special Events, Convocations, Theatre Productions, and others. Students may register for the Propylaea Program through the Student Activities and Recreation Office at the onset of any term. Students who complete Propylaea 400 receive one course credit.

### **Student Organizations**

There are over fifty student clubs and organizations at Hendrix College for the varied interests of the student body. Such organizations include honor societies, academic clubs, special interest groups, and service organizations. Students are encouraged to participate in those activities which foster cultural, intellectual, spiritual, vocational, emotional, and social development. By becoming involved in the organizational life of the campus, students are able to become more active in their community and to gain valuable skills to enhance their personal, academic and career success.

Members of student organizations have opportunities to participate in leadership programs, workshops, and retreats focusing on skill development. Through the Student Activities and Recreation Office, student organizations have a wealth of educational resources to maximize their organizational and group experiences at Hendrix.

### **“Leadership Hendrix” Program**

The “Leadership Hendrix” Program provides experiential learning opportunities that assist Hendrix students in exploring personal values, understanding the self, respecting others, and developing community. Workshops, programs, and retreats are offered for students encouraging development of leadership abilities and awareness. “Leadership Hendrix” provides leadership experiences for various constituencies on the campus, including Leadership Scholars, student organizations and other students interested in developing as leaders.

Leadership Scholars receive a scholarship awarded for their leadership ability and involvement in high school and their interest in developing their full potential as exemplary leaders in the Hendrix community. These students participate in various activities over four years, including campus involvement: leadership speaker programs, group retreats, personal assessment programs, and volunteer activities.

### **Social Committee**

The Social Committee is a standing committee of the Student Senate and is supported by the Student Activity Fund. Its purpose is to plan and facilitate social activities such as movies, concerts, dances, coffeehouses, and novelty acts for the benefit of the campus. The organization sponsors several annual events, including the Hendrix Olympix, Homecoming Week, Winter Formal, and Spring Music Festival. The committee meets every week and is comprised of one representative from each residence hall and the off-campus council, two members at-large, and one new student representative elected at-large in the fall by the newly enrolled students. Other positions, appointed by the Student Senate, are

Chairperson, Director of Special Events, Director of Music and Dance, and Equipment Manager. The Secretary-Treasurer, who chairs the publicity committee, is appointed by the chairperson. Anyone interested in the returning student positions may apply to Senate when filing opens during spring term.

## **Hendrix College Volunteer Action Center**

Through the Volunteer Action Center, Hendrix students participate in a wide variety of volunteer services and activities. Students may participate individually with a particular community organization or may take part in group projects called Service Saturdays. Group projects have included work with the Turpentine Creek Animal Refuge, Arkansas Children's Hospital, Special Olympics, Paint Your Heart Out, and service trips to a medical mission in Peru. Individual projects include work with children and youth, the homeless, and tutoring. The Volunteer Action Center keeps a wide variety of organizational profiles and volunteer job descriptions on file.

All activities and programs of the Volunteer Action Center are run by students, allowing them to gain valuable leadership and organizational skills. Students find that their volunteer service is personally and professionally enriching.

## **Recreational Sports and Wellness**

The mission of Recreational Sports and Wellness is to provide students with programs and facilities that offer vigorous, fun-filled, health-promoting, physical activity conducive to wellness and personal development. Recreational Sports and Wellness seeks to create a climate that motivates and promotes a healthy lifestyle and enhances the quality of student life.

## **Recreational Facilities**

The center of recreational activity is the Mabee Activity Center, a 50,000-square-foot multipurpose facility. The center houses a gymnasium equipped for basketball and volleyball, four racquetball courts, four indoor

tennis courts, and a fitness room. The fitness room is filled with variable resistance weight lifting equipment, stepping machines, stationary bikes, treadmills, and rowing machines.

Grove Gymnasium, primarily used for physical education activity classes and athletic events, provides additional recreational opportunities. This facility contains a gymnasium, swimming pool, and a free weight area.

Outdoor recreation space on the campus is abundant: soccer, baseball and softball fields, a multipurpose intramural field, walking and jogging track, and five outdoor tennis courts. Also located on the campus is a 124-acre wilderness area with a series of jogging trails.

### **Informal Recreation**

The Informal Recreation program offers all students, faculty, staff, and their dependents opportunities in self-directed recreational pursuits. It is self-directed and is an ideal alternative for those interested in a non-structured program. The program offers a wide variety of activities including, but not limited to, basketball, volleyball, tennis, racquetball, aerobics, weight training, jogging, and swimming.

### **Intramural Sports**

The Intramural Sports program provides students, faculty, and staff of all abilities opportunities to participate in a moderately competitive setting for enjoyment and stress reduction without the push to win. The program provides every student the opportunity for competition and fun with friends in a wide variety of individual and team sports. Over twenty Intramural Sport activities, including flag football, basketball, racquetball, volleyball, ultimate Frisbee, and much more, are scheduled throughout the academic year.

### **Outdoor Activities and Recreation (OAR)**

The OAR program strives to assist the Hendrix community with outdoor pursuits. The program is designed to provide introductory experiences to help individuals gauge their interest and skill development.

Enjoyment and learning opportunities are stressed as the participants engage in new and sometimes difficult recreation endeavors. Trips and organized outings are scheduled throughout the academic year. Some examples of past programming include canoeing, hiking, rock climbing, and snow skiing. The OAR program also maintains an inventory of equipment and encourages individuals to strike out on their own. This equipment is rented on a first-come, first-served basis.

### **Recreation-Leisure Time**

Each student is encouraged to develop an appropriate program of recreation and leisure-time activities. The Department of Physical Education offers activity courses through which students may, on the department's certification, be awarded a course credit. Students who wish to explore this option should consult with the chair of the Department of Physical Education.

### **Student Government**

All regularly enrolled current students at Hendrix College, as defined and certified by the Registrar of the College, shall be members of the Hendrix Student Association. All executive and legislative authority of the Student Association shall be vested in a Student Senate. The Association elects the President, Vice-President, two (2) Senators at-large, who, with the Senator from each residence hall, the new Student Senator, and the Off Campus Senator, compose the Student Senate.

The Student Senate is responsible for the allocation of the Student Activity Fund, the sum total of the Student Activity Fees which each student pays to the College at the beginning of each academic year. Through the allocation of this Fund, the Senate sponsors a campus-wide social program coordinated by the Social Committee. Additionally, the Senate sponsors the various media agencies of the Student Association: the college annual, *Troubador*; the bi-weekly newspaper, the *Profile*; the campus literary magazine, *Aonian*; and the campus radio station, *KHDX*.

The Student Senate is responsible for appointments to various Student Senate and Association committees whose functions are to address issues of importance to the Association. Students are also encouraged to participate in the decision-making process of the College. Most standing committees of the faculty have student representatives who are appointed by the Student Senate.

## **Students with Disabilities**

Hendrix College is committed to ensuring "reasonable accommodation," in keeping with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1992, to all students who inform the College that they are qualified as individuals with a disability. In order to accomplish this, members of the Student Affairs staff will work with each student on an individual basis.

It is the responsibility of any student with a disability to identify himself or herself and to provide appropriate documentation of the disability to the Director of Counseling Services. The student should discuss the types of accommodations needed with the Director of Counseling Services and relevant faculty members. Because of the complexities of disabilities, "reasonable accommodation" will be determined on an individual basis by the counselor in consultation with the student and faculty and/or staff member. To provide adequate services, the Director of Counseling Services reserves the right to review the diagnosis that has been provided and to require that a new or updated diagnosis be made.

For complete information, students should consult the Policy and Procedures in the Students With Disabilities pamphlet that may be obtained from the office of the Director of Counseling Services, the Dean of Students, the Coordinator of Academic Support Services, or the Registrar.

## AFRICANA STUDIES

Professors Hines and West (chair)  
Associate Professors Jennings and Shutt

### MINOR

Students wishing to minor in Africana Studies will complete six of the following courses, at least two of which must be at the 300-level or above:

- two of the following African history courses, one of which must be HIST 120 or HIST 130:
  - HIST 120 *Early African History*
  - HIST 130 *Survey of Colonial Africa*
  - HIST 250 *History of Southern Africa*
  - HIST 280 *Contemporary Africa*
- one of the following African diasporan history courses:
  - HIST 325 *Africa and the Americas*
  - HIST 390 *African American History to 1865*
  - HIST 395 *African American History since 1865*
- two literature or cultural courses from the following list:
  - AFRI 400 *African Film*
  - ENGL 245 *African Novel*
  - ENGL 250 *Women and African Literature*
  - ENGL 361 *The Black Writer*
  - ENGL 455 *Chinua Achebe and Wole Soyinka*
  - RELI 360 *African American Religion*
  - TART 330 *Theatre and the Challenges of the Contemporary World: Africa and the African Diaspora*
- one elective from the *Catalog's* Africana Studies list of courses, not already taken to fulfill requirements 1 through 4.
  - AFRI 400 *African Film*
  - ENGL 245 *African Novel*
  - ENGL 250 *Women and African Literature*
  - ENGL 361 *The Black Writer*

ENGL 455 *Chinua Achebe and Wole Soyinka*  
HIST 120 *Early African History*  
HIST 130 *Survey of Colonial Africa*  
HIST 240 *History of the Islamic World*  
HIST 250 *History of Southern Africa*  
HIST 280 *Contemporary Africa*  
HIST 325 *Africa and the Americas*  
HIST 330 *Culture and Colonialism*  
HIST 350 *Environmental History*  
HIST 390 *African American History to 1865*  
HIST 395 *African American History since 1865*  
HIST 430 *Topics in African History*  
POLI 390 *Race and American Politics*  
RELI 360 *African American Religion*  
SOC 270 *Racial and Ethnic Minorities*

Study abroad courses and independent studies, if applicable and approved by the Africana Studies Program Committee, could also be used to substitute for courses listed in sections 3, 4, and 5.

English majors and History majors may double-count only one course from their major toward the Africana Studies minor.

---

## Courses

---

*All other courses required for the Africana Studies minor are described under the respective academic departments.*

### **AFRI 400 *African Film***

A study of feature films and documentaries made by African filmmakers, focusing on issues of culture, politics, gender, and environment in contemporary Africa. *Prerequisites: any two courses in African history and/or African literature.*

# ART

Associate Professor Maakestad (chair)  
Assistant Professors Lopas, Miller, and Payne

## STUDIO ART MAJOR

12 courses distributed as follows:

### Core Courses (4)

- ARTS 100 *Freehand Drawing*
- ARTH 170 *Western Art History Survey I: Ancient, Classic, Medieval*  
**or**  
ARTH 171 *Western Art History II: Renaissance through 20th Century*
- ARTH 430 *Contemporary Issues in Art*
- ARTS 497 *Practicum—Studio Art*

### Studio Electives (6)

- Three-course sequence in studio courses
- Two-course sequence in studio courses
- One additional studio course
- (At least one studio course must be taken in 3-D and at least one must be in 2-D)

### Art History Electives (1)

- One art history course beyond the survey level

### Electives (1)

- One elective in studio or art history

## STUDIO ART MINOR

Six courses distributed as follows:

- ARTS 100 *Freehand Drawing*
- ARTH 170 *Western Art History I: Ancient, Classic, Medieval*  
**or**  
ARTH 171 *Western Art History II: Renaissance through 20th Century*
- Two-course sequence in studio courses
- Two additional studio courses

## ART HISTORY MINOR

Six courses distributed as follows:

- ARTS 100 *Freehand Drawing*
- ARTH 170 *Western Art History I: Ancient, Classic, Medieval*
- ARTH 171 *Western Art History II: Renaissance through 20th Century*
- ARTH 430 *Contemporary Issues in Art*
- Two additional art history courses.

## Senior Capstone Experience

The Senior Capstone Experience for the studio art major consists of a written examination, the Senior Art Show, and a professional portfolio. The grade for the Senior Capstone Experience is based on these three components.

---

## Studio Courses

---

### Drawing

#### **ARTS 100 *Freehand Drawing* (EA)**

An introductory course in basic drawing that explores a range of drawing methods and media. Students will learn to translate visual perception into two dimensions. Critiques will develop an understanding of visual imagery. (This course does not count towards either a two or three course sequence required for art majors.)

#### **ARTS 360 *Intermediate Drawing***

Students will examine the issues in translating three-dimensional reality onto a two dimensional surface. The emphasis will be on perceptual acuity and composition. *Prerequisite:* ARTS 100 and ARTS 110.

#### **ARTS 460 *Advanced Drawing***

Students will construct space on a two-dimensional surface. Artifice will take precedence over perception. *Prerequisite:* ARTS 360.

## Painting

*This series of three courses will cover perception, imagination, form, color and space. As students advance they are expected to develop their own voice as painters.*

### **ARTS 200 *Beginning Painting (EA)***

*Prerquisite:* AR TS 100 or AR TS 110.

### **ARTS 300 *Intermediate Painting***

*Prerquisite:* AR TS 200.

### **ARTS 400 *Advanced Painting***

*Prerequisite:* ARTS 300.

## Sculpture

*This series of courses begins with an introduction to basic conceptual development and modest technical instruction in areas such as clay modeling. Subsequent courses introduce more complex technical process such as mold-making, welding, casting, and woodworking. Advanced classes emphasize independent thought and personal conceptual development.*

### **ARTS 210 *Beginning Sculpture (EA)***

*Prerquisite:* AR TS 100 or AR TS 110.

### **ARTS 310 *Intermediate Sculpture***

*Prerquisite:* AR TS 210.

### **ARTS 410 *Advanced Sculpture***

*Prerquisite:* AR TS 310.

## Printmaking

### **ARTS 220 *Printmaking: Woodcut (EA)***

*Prerequisite:* ARTS 100 or ARTS 110 and one additional drawing course.

### **ARTS 320 *Printmaking: Etching (EA)***

*Prerequisite:* ARTS 100 or ARTS 110 and one additional drawing course.

## Photography

*These courses cover basic 35mm camera operation, black and white film processing, and photo printing.*

### **ARTS 250 *Beginning Photography (EA)***

*Prerequisite: AR TS 100 or AR TS 110.*

### **ARTS 350 *Intermediate Photography***

*Prerequisite: AR TS 250.*

### **ARTS 450 *Advanced Photography***

*Prerequisite: AR TS 350.*

## Ceramics

### **ARTS 280 *Ceramics: Handbuilding (EA)***

Introduction to the techniques and concepts of ceramic sculpture and functional ceramics. *Prerequisite: AR TS 100 or AR TS 110.*

### **ARTS 380 *Ceramics: Wheel Thrown***

Functional ceramics and ceramic sculpture produced using the potter's wheel. This course will introduce the operation of electric and gas kilns and will include instruction in clay and glaze technology. *Prerequisite: AR TS 280.*

### **ARTS 480 *Advanced Ceramics***

Advanced techniques in ceramic sculpture, wheel throwing, and mold-making. The class includes independent development in materials preparation and kiln firing. *Prerequisite: AR TS 380.*

### **ARTS 490 *Special Topics: Studio Art***

*Prerequisite: Consent of the instructor .*

### **ARTS 497 *Practicum: Studio Art***

Students will work on an individual basis to develop their own vision as artists. Group critiques will be regularly scheduled. The function of Practicum is to produce works that will be exhibited in the Senior Show. Students will create a professional quality slide portfolio complete with artist statement and resume. *Prerequisite: Senior standing and consent of the instructor .*

**ARTS 499 *Independent Study***

This course offers students an opportunity to pursue interests in areas of study not typically offered by the department. Students should submit a written proposal for independent study at least one month before work commences. *Prerequisite: Departmental approval.*

---

**Art History Courses**

---

**ARTH 170 *Western Art History Survey I: Ancient, Classical, Medieval* (HP)**

Introduces concepts and visual imagery of Ancient, Classical, and Medieval cultures.

**ARTH 171 *Western Art History Survey II: Renaissance through 20th Century* (EA, HP)**

Introduces concepts and visual imagery from the Italian Renaissance through Postmodernism.

**ARTH 392 *Art of Film***

Covered in this class are basic film techniques and concepts. Students are required to view a wide variety of films and critique their artistic, conceptual, and ideological merits. *Prerequisite: Consent of the instructor .*

**ARTH 430 *Contemporary Issues in Art Seminar* (EA)**

Students in this course will examine current theory, criticism, and practice relevant to understanding and creating art in the contemporary world. *Prerequisite: senior standing or consent of the instructor .*

**ARTH 490 *Special Topics: Art History* (EA)**

*Prerequisite: consent of the instructor .*

**ARTH 499 *Independent Study***

This course offers students an opportunity to pursue interests in areas of study not typically offered by the department. Students should submit a written proposal for independent study at least one month before work commences. *Prerequisite: Departmental approval.*

---

## Extrdepartmental Elective Courses

---

### **ARTH 331 *Renaissance and Baroque Art History* (EA, HP)**

*Prerequisite(s): AR TH170 and/or AR TH171 are recommended for this course.*

### **ARTH 332 *19th Century Art History* (EA)**

This course centers around the developments in European art during the 19th century. *Prerequisite(s): AR TH170 and/or AR TH171 are recommended for this course.*

### **ARTH 391 *History of Architecture* (EA, HP)**

Students will study the history of buildings from Ancient Egypt to European Modernism of the 20th century. *Prerequisite(s): AR TH170 and/or ARTH171 are recommended for this course.*

## BIOLOGY

Professors Haggard and Lombardi (chair)  
Associate Professors Hardin, Moran and M. Sutherland  
Assistant Professors Agnew, Dearolf, Gatti-Clark, and Murray

### MAJOR

Ten courses distributed as follows:

- BIOL 150 *Cell Biology*
- BIOL 160 *Organismal Biology*
- BIOL 250 *Genetics*
- BIOL 260 *Ecology and Evolution*
- CHEM 110 *General Chemistry I: Chemical Structure and Properties*  
**and**  
CHEM 120 *General Chemistry II: Chemical Analysis and Reactivity*  
**or**  
an equivalent
- four biology electives, 200-level or above, at least three of

which must be 300-level or above\*

All majors must take BIOL 497 *Biology Seminar*, which does not carry course credit.

*\*The Biology Department strongly encourages students to design and carry out independent research for course credit. However, this credit will not count toward the four required electives.*

## **MINOR**

Any five biology courses numbered 150 or above. The Biology Department highly recommends that all students pursuing a biology minor take at least CHEM 110 and 120.

Students planning to certify to teach biology should contact their major advisors and the Education Department for a list of courses required within the major and by the professional societies for licensure.

The following are general guidelines for courses required by many graduate and professional schools. It is recommended that students refer to the Guide for Academic Planning and work closely with their academic advisors to ensure adequate course preparation for specific post-graduate programs.

### **Medical School, Dental School, and Veterinary Medicine**

1. Preparation for qualifying examinations (MCAT, DAT, VCAT) is best achieved by completing at least BIOL 150, BIOL 160, and BIOL 250.
2. Two courses in General Chemistry and two courses in Organic Chemistry
3. At least one course in Mathematics
4. Two courses in Physics
5. Two to three courses in English

### **Graduate Schools**

**Many graduate schools in biology expect:**

1. Two years of Biology
2. Two years of chemistry through Organic Chemistry
3. One year of Physics

4. At least one Calculus course
5. At least one Statistics course
6. Competency in a foreign language

Experience with experimental design (such as through independent research), and in some cases, computer programming is highly desirable. Most graduate schools require a reading knowledge in at least one foreign language and/or basic programming skills.

## Senior Capstone Experience

The Senior Capstone Experience for the biology major consists of a comprehensive examination and participation in the Senior Seminar course. The comprehensive examination is the standardized Major Field Achievement Test (MFAT), or the Graduate Record Examination (GRE) in biology. BIOL 497 *Senior Seminar* is a one semester, non-credit course that meets weekly. During the course each senior presents a formal seminar. The grade for the Senior Capstone Experience is based on both the standardized test score and the Senior Seminar grade.

---

## Courses for non-science majors

---

*The following courses are designed for non-science majors and may not be used to fulfill requirements for the biology major or minor. They will fulfill the collegiate Natural Science Inquiry learning domain requirement.*

### **BIOL 101 *Concepts in Biology* (NS)**

The structure, function, heredity, evolution, and ecological interactions of living systems with emphasis on those concepts having major implications for humans and society.

### **BIOL 102 *Natural History* (NS)**

The variety of organisms and ecosystems, with special emphasis on the geological and biological history of Arkansas. Field laboratories expose students to the major taxonomic groups of organisms.

### **BIOL 103 *Biology of the Human Body* (NS)**

The structure and function of human organ systems, with emphasis on the maintenance and perpetuation of the living state.

**BIOL 104 *Environmental Biology* (CW , NS)**

An introduction to principles of ecology as they relate to the human concerns of overpopulation, resource management, pollution, and environmental ethics.

**BIOL 105 *Plants in Human Affairs* (NS)**

A consideration of useful and harmful plants in human cultures. Study emphasis is on plant origins, historical significance, economic importance, aesthetic uses, active ingredients, and their botanical relationships.

---

**Biology core**

---

*The following four courses are required for all biology majors and must be completed by the end of the junior year .*

**BIOL 150 *Cell Biology* (NS-L)**

The structure and function of cells with emphasis on evolutionary principles, basic biochemistry, and scientific epistemology. Laboratory course. This is a prerequisite for all biology courses 160 or above.

**BIOL 160 *Organismal Biology* (NS-L)**

Study of the evolutionary relationships of major life forms by comparing the structure and function of physiological systems. The focus will be on the diverse adaptations of organisms to their environment. Laboratory course. *Prerequisite: BIOL 150.*

**BIOL 250 *Genetics***

Fundamental principles of heredity, including both Mendelian and molecular genetics. Emphasis is on those principles with the greatest implications to understanding biological systems in general, and humans in particular. Laboratory course. *Prerequisite: BIOL 160, or consent of instructor .*

**BIOL 260 *Ecology and Evolution***

Study of biotic and abiotic interactions among organisms, and the evolutionary processes that have shaped life. Major topics include population and community interactions, biomes, forces of genetic change, adaptation, conservation biology, and the geological and biological history of the Earth. Laboratory course. *Prerequisite: BIOL 250.*

---

## Biological electives

---

### **BIOL 210 *Botany***

Survey of algae, nonvascular, and vascular plants, with emphasis on the origin, structure, development, and physiology of flowering vascular plants. Laboratory course. *Prerequisite: BIOL 160.*

### **BIOL 220 *General Zoology***

A survey of the major phyla, classes, and orders of animals, with emphasis on basic body plans and organization, development, phylogenetic relationships, and the structure and function of representative organ systems. Laboratory course. *Prerequisite: BIOL 160.*

### **BIOL 300 *Comparative Animal Behavior (W2)***

Study of the genetic, developmental, physiological, ecological, and evolutionary bases of adaptive behavior of animals, including humans. Laboratory course. *Prerequisite: BIOL 160 or both PSYC 295 and BIOL 101.*  
*Cross-listed as PSYC 300.*

### **BIOL 310 *Developmental Biology (W2)***

A survey of the development of a variety of animals, with emphasis on the molecular processes involved. The embryology of vertebrates is stressed. Laboratory course. *Prerequisite: BIOL 250.*

### **BIOL 320 *Animal Physiology (W2)***

Study of the mechanisms of homeostatic regulation in animals, with an emphasis on mammalian and other vertebrate organ systems. Laboratory course. *Prerequisite: BIOL 160.*

### **BIOL 340 *Microbiology***

Biology of bacteria and viruses. Laboratory includes culturing, identification, isolation from environment, and experimentation. Laboratory course. *Prerequisite: BIOL 250.*

### **BIOL 360 *Biology of Algae and Fungi***

Comparative ecology, physiology, and morphology of algae and fungi. Laboratory course. *Prerequisite: BIOL 260.*

### **BIOL 370 *Plant Physiology (W2)***

Study of the essential plant processes with emphasis on mineral nutrition, water relations, photosynthesis, hormones, and the influence of external factors. Laboratory course. *Prerequisite: BIOL 160.*

**BIOL 430 Immunology (W2)**

Principles of immunology with an emphasis on the role of experimentation in the development of current immunological concepts. The laboratory will include experiments to demonstrate principles and the use of immunological techniques for scientific investigation. Laboratory course.

*Prerequisites: junior or senior standing and completion of BIOL 150 and one course in chemistry.*

**BIOL 440 Comparative Vertebrate Anatomy**

Phylogenetic relationships and anatomical systems of vertebrates, with emphasis on cartilaginous fishes and mammals. Laboratory course.

*Prerequisite: BIOL 160.*

**BIOL 450 Advanced Cell Biology**

An examination of current models of intracellular processes such as membrane and cytoskeleton structure, compartmentalization, transport, signaling, and the control of cell division. Emphasis on current research and theory. Laboratory course. *Prerequisite: BIOL 250.*

**BIOL 460 Evolution (W2)**

The mechanisms of evolution, principles of population genetics, selection and adaptation, and the history of life on Earth. Biological diversity and evolutionary issues for conservation and medicine are also covered. Laboratory course. *Prerequisite: BIOL 260.*

**BIOL 470 Advanced Genetics**

Current research and paradigms in molecular genetics with emphasis on adaptive and developmental gene regulation, molecular evolution, manipulation for gene engineering, genomics, proteomics, and their implications. Laboratory course. *Prerequisite: BIOL 250.*

**BIOL 480 Field Ecology (W2)**

Studies of ecological patterns and processes in Arkansas ecosystems followed by comparative studies in non-Arkansas field sites. Comparative field study sites will alternate each year between Costa Rica and a US ecosystem such as the American Southwest or the Everglades. These comparative field studies entail an additional cost to the student. Laboratory course. *Prerequisite: BIOL 260.*

**BIOL 490 Advanced Topics**

Texts, review papers, and or original literature will be used to provide extended or integrated coverage of selected areas of biology. *Prerequisite: junior or senior standing; check course announcements for specific prerequisites.*

### **BIOL 497 *Biology Seminar***

Reviews of current literature and oral presentations by students based on library or original research. Non-credit, graduation requirement for all biology majors. *Prerequisite: BIOL 260 and Senior standing.*

### **BIOL 499 *Independent Research***

Original research using scientific methodology of hypothesis testing, data collection, and analysis. Requirements include a formal research proposal, a final written report in conventional scientific format, and an oral presentation. Students must select an advisor within the Biology Department to oversee and evaluate the study. Specific requirements and options (such as off-campus projects or summer research) can be obtained from the Biology Department. *Prerequisite: Junior or senior standing and consent of the Department.*

## **CHEMISTRY**

Professors Goodwin, Kopper (chair), and Teague  
Associate Professors Gron and Hales  
Visiting Assistant Professor Hill

### **MAJOR**

13 courses distributed as follows:

#### **Chemistry (8)**

- CHEM 110 *General Chemistry I: Chemical Structure and Properties*
- CHEM 120 *General Chemistry II: Chemical Analysis and Reactivity*
- CHEM 240 *Organic Chemistry I*
- CHEM 250 *Organic Chemistry II*
- CHEM 310 *Physical Chemistry I*
- CHEM 320 *Physical Chemistry II*
- CHEM 340 *Advanced Inorganic Chemistry*
- CHEM 330 *Biochemistry*

**or**

CHEM 350 *Advanced Analytical Chemistry*

**or**

CHEM 410 *Advanced Physical Chemistry*

**Mathematics (2)**

- MATH 130 *Calculus I*

**and**

- MATH 140 *Calculus II*

**Physics (2)**

- PHYS 230 and 240 *General Physics I and II (Calculus-based)*  
(recommended)

**or**

PHYS 210 and 220 *General Physics I and II*

**Biology (1)**

- BIOL 150 *Cell Biology* (or equivalent)

All majors must also take CHEM 310L and 320L *ATEC Laboratory*, and two semesters of CHEM 497 *Chemistry Seminar*. These do not carry course credit.

**American Chemical Society Certified Degree in Chemistry:**

requirements for the chemistry major plus

- CHEM 330 *Biochemistry*
- CHEM 350 *Advanced Analytical Chemistry*
- CHEM 450 *Directed Research*

**MINOR**

- CHEM 110 *General Chemistry I: Chemical Structures and Properties*
- CHEM 120 *General Chemistry II: Chemical Analysis and Reactivity*
- CHEM 240 *Organic Chemistry I*
- CHEM 250 *Organic Chemistry II*
- two additional courses in chemistry above the 250-level

**Senior Capstone Experience**

The Senior Capstone Experience for the chemistry major consists of two parts. The first consists of taking the Major Field Achievement Test (MFAT) in chemistry. The second part is an oral presentation of a literature-based research paper written under the direct supervision of a faculty member. The grade for the Senior Capstone Experience is the average of grades based on the two parts of the experience.

## Courses

---

### **CHEM 100 *Concepts of Chemistry (NS)***

The theories, models, structures, and reactions of modern chemistry are introduced to the nonscience major. Historical antecedents in the development of current concepts of matter are explored. Mathematical problem-solving in a chemistry context is included.

### **CHEM 110 *General Chemistry I: Chemical Structure & Properties (NS-L)***

Theories of matter with emphasis on environmental applications. Laboratory includes separations and spectroscopy.

### **CHEM 120 *General Chemistry II: Chemical Analysis & Reactivity***

Reactions and equilibria of environmental significance. Laboratory involves analysis of environmental samples. *Prerequisite: CHEM 110.*

### **CHEM 240 *Organic Chemistry I***

The compounds of carbon with an emphasis on structure, nomenclature, and stereochemistry. Laboratory course. *Prerequisite: CHEM 120.*

### **CHEM 250 *Organic Chemistry II***

The compounds of carbon with an emphasis on reaction mechanisms and spectroscopy. Laboratory course. *Prerequisite: CHEM 240.*

### **CHEM 310 *Physical Chemistry I (W2)***

Application of physical principles and mathematical descriptions to chemical systems. Quantum mechanics, spectroscopy, chemical kinetics, and chemical dynamics. *Prerequisites: MA 1140, PHYS 210 and 220 or PHYS 230 and 240, and CHEM 250 or consent of instructor. Corquisite: ATECLab.*

### **CHEM 320 *Physical Chemistry II***

Application of physical principles and mathematical descriptions to chemical systems. Chemical and statistical thermodynamics. *Prerequisite: CHEM 310. Corquisite: ATECLab.*

### **CHEM 330 *Biochemistry***

Fundamental biochemistry with emphasis on cellular constituents and molecular structure and function. Laboratory course. *Prerequisite: CHEM 250.*

**CHEM 340 *Advanced Inorganic Chemistry***

The elements and the periodic table with emphasis on modern structural theory. *Prerequisite: CHEM 310.*

**CHEM 350 *Advanced Analytical Chemistry***

Spectroscopic and electroanalytical methods including structural determinations. *Prerequisite: CHEM 120.*

**CHEM 410 *Advanced Physical Chemistry (NS-L, QS, W2)***

The course will focus on current topics in physical chemistry. Laboratory course. *Cross-listed as PHYS 315 Modern Physics. Prerequisite: CHEM 320.*

**CHEM 430 *Integrated Biochemical Topics***

Current topics in biochemistry, biochemical reactions and mechanisms, and macromolecular structure and function will be discussed. *Prerequisite: CHEM 330.*

**CHEM 450 *Directed Research***

Independent laboratory research conducted in conjunction with a specific faculty member. Research topics are selected on an individual basis. The results of the research are typically presented at a national scientific meeting in the spring and a final research report is written.

**CHEM 497 *Seminar***

No credit. Seminars by invited speakers, students, and faculty. *Prerequisite: senior standing.*

***ATEC Lab Advanced Techniques in Experimental Chemistry (ATEC)***

No Credit. Unified laboratory experience combining physical, inorganic, and analytical chemistry techniques, including data analysis and computational modeling. *Corequisite: CHEM 310 or 320.*

# ECONOMICS AND BUSINESS

Professors Berry (chair), Kerr, Rupert, Scott, and Stanley  
Assistant Professor Oxner

The Department of Economics and Business offers: (1) A major in Economics and Business (2) A major in Economics (3) A major in Accounting (4) A minor in Economics (5) A minor in Accounting (6) A Master of Arts in Accounting. Students are not allowed to earn a double-major solely in the Department. Likewise, students who major in the Department may not also minor in the Department.

The course requirements are as follows:

(1) Major in Economics and Business

- BUSI 200 *Fundamentals of Accounting and Business I*
- BUSI 210 *Fundamentals of Accounting and Business II*
- ECON 200 *Principles of Microeconomics*
- ECON 210 *Principles of Macroeconomics*
- BUSI 250 *Principles of Statistics*
- BUSI 350 *Business Law*
- MATH 120 *Functions and Models*

**or**

its equivalent

- Any two (2) upper-level accounting courses
- Any three (3) upper-level economics courses

(2) Major in Economics

- BUSI 200 *Fundamentals of Accounting and Business I*
- BUSI 210 *Fundamentals of Accounting and Business II*
- ECON 200 *Principles of Microeconomics*
- ECON 210 *Principles of Macroeconomics*
- BUSI 250 *Principles of Statistics*
- MATH 120 *Functions and Models*

**or**

its equivalent

- Any two (2) upper-level business courses
- Any five (5) upper-level economics courses

(3) Major in Accounting

- BUSI 200 *Fundamentals of Accounting and Business I*
- BUSI 210 *Fundamentals of Accounting and Business II*
- ECON 200 *Principles of Microeconomics*
- ECON 210 *Principles of Macroeconomics*
- BUSI 250 *Principles of Statistics*
- MATH 120 *Functions and Models* or its equivalent
- ECON 410 *Financial Management*
- Any four (4) upper-level accounting courses
- Any two (2) upper-level economics courses

(4) Minor in Economics

Any six (6) economics courses

(5) Minor in Accounting

- Any five (5) accounting courses
- ECON 200 *Principles of Microeconomics*

(6) Master of Arts in Accounting

A total of eight (8) courses are required with the following specifications:

- ECON 530 *Management Science*
- ECON 550 *Managerial Economics*
- and six (6) courses from the following list including at least four (4) business courses:

BUSI 500 *Taxation for Business Entities*

BUSI 510 *Accounting for Management Planning and Control*

BUSI 520 *Seminar in Accounting*

BUSI 530 *Governmental and Non-Profit Accounting*

BUSI 540 *Contemporary Issues in Auditing*

BUSI 550 *Business Law*

BUSI 598 *Independent Study*

**or**

BUSI 599 *Internship in Accounting*

ECON 500 *Econometrics and Forecasting*

ECON 570 *Industrial Organization*

ECON 590 *Economic Research*

ECON 599 *Independent Study in Economics*

Prerequisites for admittance into the Masters program include majoring in Accounting, Economics, or Economics and Business and

consent of the faculty. Because CPA Exam requirements vary by state, students should be informed of the prerequisites required by the state in which they plan to take the CPA Exam. The State of Arkansas requires 30 semester hours beyond the Hendrix B.A. in order to sit for the Exam. This fifth-year Master of Arts in Accounting program will fulfill this requirement. Interested students should contact the department chair by the end of their sophomore year for details or for information regarding programs offered to qualify to sit for the CPA and CMA examinations.

### **Senior Capstone Experience**

The Senior Capstone Experience for the accounting major, the economics major, and the economics and business major consists of a comprehensive examination. The written examination has three parts: (1) Fundamentals of Accounting and Business I and II; (2) Principles of Microeconomics and Principles of Macroeconomics; and (3) a concentration based on two upper-level courses. The grade for the Senior Capstone Experience is based on the examination.

## **Economics**

---

### **ECON 100 *Survey of Economic Issues* (CW , SB)**

An introduction to economic theory and practice with emphasis on applications to the contemporary social world.

### **ECON 200 *Principles of Microeconomics* (SB)**

Introduction to concepts and methods of microeconomics. Emphasis is placed on resource allocation, effects of market structures, and the manner in which these market structures affect the economics decisions of a business entity.

### **ECON 210 *Principles of Macroeconomics* (SB)**

Introduction to concepts and methods of macroeconomics. Topics such as inflation, unemployment, and economic growth are examined. The role of monetary and fiscal policy in achieving macroeconomic objectives is emphasized.

**ECON 300 *Intermediate Microeconomics (SB)***

Intermediate-level course dealing with the microeconomic theory of consumer and producer behavior. Particular attention is given to the theory of production and cost and to the effects of various market structures on resource allocation. *Prerequisites: ECON 200 and 210 or consent.*

**ECON 310 *Intermediate Macroeconomics***

A study of the functioning of the aggregate economy and the influences of monetary and fiscal policy on it. Special emphasis is placed on the economics of inflation. *Prerequisites: ECON 200 and 210 or consent.*

**ECON 320 *Money, Banking, and Credit***

A study of the U.S. commercial banking system and its role in the economy. Investigates the role of the Federal Reserve and the impact of monetary policy on the aggregate economy. *Prerequisites: ECON 200 and 210 or consent.*

**ECON 340 *Environmental Economics (CW , SB)***

Introduces students to the ways in which the tools of economic analysis can enable them to better evaluate environmental issues and policies. Topics covered include alternative governmental responses to externalities, the Coase Theorem, criteria for evaluating economic efficiency, measurement and discounting of environmental costs and benefits, exhaustible resources, energy resources, and sustainability.

**ECON 350 *History of Economic Thought (HP , SB, W2)***

An investigation of the evolution of economic ideas from the mercantilist period of the seventeenth century to the twentieth century. The economics of Adam Smith, Karl Marx, and David Ricardo, among others, is discussed. Emphasis is placed on how historical ideas inform current economic views. *Prerequisites: ECON 100 or 200 or 210 or consent.*

**ECON 360 *International Economics (CW)***

Survey of the pure theory of trade and international monetary systems. International and domestic effects of each international monetary system are examined. *Prerequisites: ECON 200 and 210 or consent. Recommended: ECON 300*

**ECON 370 *Industrial Organization***

The application of microeconomics to the problems of monopoly, oligopoly, restraints of trade, and other market imperfections. The course also focuses on the economic rationale for antitrust policy and regulation of public utilities. *Prerequisites: ECON 200 and 210 or consent.*

**ECON 390 *Investments (SB)***

This course offers the non-major an introduction to the range of investment opportunities available in current financial markets.

**ECON 400 *Econometrics and Forecasting***

A study of multiple regression analysis and its use in the estimation, testing, and forecasting of economic phenomena and business relationships. Emphasis is placed on the application of statistical methods to actual economic and business data. *Prerequisite: BUSI 250.*

**ECON 410 *Financial Management***

Survey of modern fiscal management theory and concepts. Topics covered include valuation models of securities, capital expenditure decisions, analysis of financial statements, capital structure and financing decisions, and dividend policy. *Prerequisites: ECON 200 and 210; BUSI 200 and 210 or consent.*

**ECON 430 *Management Science***

A study of mathematical modeling and problem solving applied to business issues. Topics include linear programming, integer programming, decision making under uncertainty, game theory, and inventory modeling. *Recommended: BUSI 250.*

**ECON 490 *Economic Research (W2)***

The purpose to this course is to acquaint students with the philosophy and methods of economic research and to provide them with ample opportunity to apply these methods to actual economic problems. The class will be conducted primarily as a seminar with major emphasis placed upon individual research projects.

**ECON 500 *Econometrics and Forecasting***

A study of multiple regression analysis and its use in the estimation, testing, and forecasting of economic phenomena and business relationships. Emphasis is placed on the application of statistical methods to actual economic and business data. *Prerequisite: Graduate standing or consent.*

**ECON 530 *Management Science***

A study of mathematical modeling and problem solving applied to business issues. Topics include linear programming, integer programming, decision making under uncertainty, game theory, and inventory modeling. *Prerequisite: Graduate standing or consent.*

**ECON 550 *Managerial Economics***

Application of the tools of economic theory and statistics to managerial decision making. Topics include demand analysis, production theory, quantitative cost analysis, market analysis, and the theory of investment.

*Prerequisite: Graduate standing or consent.*

**ECON 570 *Industrial Organization***

The application of microeconomics to the problems of monopoly, oligopoly, restraints of trade, and other market imperfections. The course also focuses on the economic rationale for antitrust policy and regulation of public utilities. *Prerequisite: Graduate standing or consent.*

**ECON 590 *Economic Research***

The purpose to this course is to acquaint students with the philosophy and methods of economic research and to provide them with ample opportunity to apply these methods to actual economic problems. The class will be conducted primarily as a seminar with major emphasis placed upon individual research projects. *Prerequisite: Graduate standing or consent.*

---

## **Business**

---

**BUSI 200, 210 *Fundamentals of Accounting and Business I & II***

A study of the generally accepted accounting principles and procedures of accumulating, measuring, and interpreting financial data of a business enterprise for use in financial reporting and in managerial decision-making. *Prerequisite: BUSI 200 is a prerequisite for BUSI 210.*

**BUSI 250 *Principles of Statistics (QS)***

A study of representations and interpretations of our contemporary world of data. Topics include descriptive statistics, graphical presentations, statistical estimation, hypothesis testing, and regression analysis. Emphasis is placed on applications to business data.

**BUSI 300, 310 *Intermediate Accounting I and II***

A study of the conceptual framework of financial accounting and its implications in the measurement, analysis, recording, and reporting of information in financial statements. An emphasis is placed on revenue and expense recognition issues as well as asset and liability valuation concepts. *Prerequisites: BUSI 200 and 210.*

**BUSI 320 *Federal Tax Accounting (W2)***

Federal Income Tax Law applicable to individuals and business enterprises with emphasis on tax determination and planning. *Prerequisites: BUSI 200 and 210.*

**BUSI 330 *Cost Accounting***

A study of accounting systems and tools for product costing, organizational planning, control, and management decision making. *Prerequisites: BUSI 200 and 210.*

**BUSI 350 *Business Law (W2)***

Introduction to law, its relation to and effect on society, business, and the individual. It includes the study of contracts, agencies, personal property, law of sales, and commercial paper.

**BUSI 370 *Auditing (W2)***

Theory and procedures underlying auditors' responsibilities in examining and reporting on financial statements of a business enterprise. Includes professional ethics, auditing standards, reports, internal control, and the selection, scope, and application of auditing procedures. *Prerequisite: BUSI 300 or consent.*

**BUSI 390 *Accounting Information Systems and Database Management***

A study of accounting information systems with practical experience of using computerized database management techniques to manipulate efficiently and to communicate effectively financial information. An emphasis is placed on using computerized controls to ensure data integrity in relational database management systems. *Prerequisites: BUSI 200 and 210 or consent.*

**BUSI 410 *Accounting for Management Planning and Control (W2)***

A study of cost-benefit analyses and other management science techniques used in economic decision-making. Specific topics include management control systems, cost-volume-profit analysis, budgeting, cost estimation and allocation, capital budgeting, and linear programming. *Prerequisite: BUSI 330.*

**BUSI 500 *Taxation for Business Entities***

Tax compliance and planning for corporations, partnerships, estates, and trusts. *Prerequisite: Graduate standing or consent.*

**BUSI 510 *Accounting for Management Planning and Control***

A study of cost-benefit analyses and other management science techniques used in economic decision-making. Specific topics include management control systems, cost-volume-profit analysis, budgeting, cost estimation and allocation, capital budgeting, and linear programming. *Prerequisite:*

*Graduate standing or consent.*

**BUSI 520 *Seminar in Accounting Theory and Practice***

A study of contemporary financial accounting theory and practice.

*Prerequisite: Graduate standing or consent.*

**BUSI 530 *Governmental and Non-profit Accounting***

Accounting and reporting for governmental units and organizations established as not-for-profit organizations. *Prerequisite: Graduate standing or*

*consent.*

**BUSI 540 *Contemporary Issues in Accounting***

A study of advanced auditing topics such as statistical sampling, special-purpose reports, internal auditing, and forensic accounting. Current issues related to financial accounting and auditing are explored. *Prerequisite:*

*Graduate standing or consent.*

**BUSI 550 *Business Law***

Introduction to law, its relation to and effect on society, business, and the individual. It includes the study of contracts, agencies, personal property, law of sales, and commercial paper. *Prerequisite: Graduate standing*

# EDUCATION

Associate Professor Jennings (chair)

Assistant Professor Wills

Hendrix College is accredited by the National Council for Accreditation of Teacher Education (NCATE) for the preparation of early childhood, middle school, and secondary teachers. In order to be recommended for teacher licensure to teach in the public schools, a student must complete all Hendrix College graduation requirements, all departmental requirements, all subject matter preparation requirements, and all state requirements. A listing of these requirements (including those of the Arkansas State Department of Education) may be obtained from the Education Department.

## General requirements for all students seeking licensure in the State of Arkansas

All students seeking licensure in the State of Arkansas must complete the following:

A. The Program for the Bachelor of Arts Degree as listed in the Hendrix College *Catalog*

**and**

B. The course requirements for ONE of the licensure areas listed below:

1. Elementary Education Major with emphasis in Early Childhood Education (Preschool-Grade 4)

EDUC 210 *History of Education*

EDUC 220 *Educational Psychology*

EDUC 300 *Teaching Reading, P-8*

EDUC 321 *Teaching Art and Music, P-8*

EDUC 322 *Teaching Math and Science, P-8*

EDUC 324 *Teaching Language Arts and Social Studies, P-8*

EDUC 330 *Children's Literature*

EDUC 481 *Introduction to Student Teaching, P-K-4*

EDUC 482 *Student Teaching, P-K-4* (three credits)  
HIST 270 *Arkansas History*

2. Elementary Education Major with emphasis in Middle School Education/Language Arts and Social Studies (Grades 4-8)

EDUC 210 *History of Education*  
EDUC 220 *Educational Psychology*  
EDUC 300 *Teaching Reading, P-8*  
EDUC 321 *Teaching Art and Music, P-8*  
EDUC 322 *Teaching Math and Science, P-8*  
EDUC 324 *Teaching Language Arts and Social Studies, P-8*  
EDUC 330 *Children's Literature*  
EDUC 420 *Introduction to Student Teaching, LA/SS 4-8*  
EDUC 421 *Student Teaching, LA/SS 4-8* (three credits)  
HIST 270 *Arkansas History*  
Must have a minor in English or one of the departments in the Social Science area.

3. Elementary Education Major with emphasis in Middle School Education/Math and Science (Grades 4-8)

EDUC 210 *History of Education and Effective Teaching Methods*  
EDUC 220 *Educational Psychology*  
EDUC 300 *Teaching Reading, P-8*  
EDUC 321 *Teaching Art and Music, P-8*  
EDUC 322 *Teaching Math and Science, P-8*  
EDUC 324 *Teaching Language Arts and Social Studies, P-8*  
EDUC 330 *Children's Literature*  
EDUC 423 *Introduction to Student Teaching, Math/Science 4-8*  
EDUC 424 *Student Teaching, Math/Science 4-8* (three credits)  
HIST 270 *Arkansas History*  
Must have a minor in one of the departments in the Natural Science area.

4. Licensure in Secondary Education (Grades 7-12)

EDUC 210 *History of Education and Effective Teaching Methods*  
EDUC 220 *Educational Psychology*  
HIST 270 *Arkansas History* (for Social Studies licensure only)

EDUC 460 *Introduction to Student Teaching, Secondary 7-12*  
EDUC 461 *Student Teaching, Secondary 7-12* (three credits)

The course requirements for at least one of the following academic majors:

Biology, Chemistry, English, French, Spanish, German, History, Math, Politics, Psychology, Religion, Sociology/Anthropology, Philosophy, Theatre Arts, or an academic major approved by the Education Department

One course selected from the following:

EDUC 431 *Methods in the Secondary School-English Language Arts*

EDUC 432 *Methods in the Secondary School-Foreign Language*

EDUC 433 *Methods in the Secondary School-Mathematics*

EDUC 434 *Methods in the Secondary School-Life/Earth and Physical Science*

EDUC 435 *Methods in the Secondary School-Social Studies*

EDUC 436 *Methods in the Secondary School-Speech/Drama*

5. Licensure in Art Education (Grades P-12)

EDUC 210 *History of Education and Effective Teaching Methods*

EDUC 220 *Educational Psychology*

EDUC 437 *Methods in Art Education* (Grades P-12)

EDUC 470 *Introduction to Student Teaching, P-12*

EDUC 471 *Student Teaching, P-12* (three credits)

Must meet the course requirements for an academic major in Art.

6. Licensure in Elementary Physical Education/Health (Grades P-8)

EDUC 210 *History of Education and Effective Teaching Methods*

EDUC 220 *Educational Psychology*

KINE 250 *Games and Basic Rhythms for Elementary Grades*

KINE 350 *Teaching Physical Education: Methods and Materials, P-8*

EDUC 470 *Introduction to Student Teaching, P-12*

EDUC 471 *Student Teaching, P-12* (three credits)

Must meet the course requirements for an academic major in Kinesiology and Physical Education.

7. Licensure in Secondary Physical Education/Health (Grades 7-12)

EDUC 210 *History of Education and Effective Teaching Methods*

EDUC 220 *Educational Psychology*

KINE 300 *Secondary Physical Education*

KINE 400 *Administration*

KINE 430, 440, 450, 460, or 470 *Coaching*

EDUC 460 *Introduction to Student Teaching, Secondary 7-12*

EDUC 461 *Student Teaching, Secondary 7-12* (three credits)

Must meet the course requirements for an academic major in Kinesiology and Physical Education.

8. Reading Endorsement

The Reading Endorsement Certificate is open to students seeking licensure in early childhood, middle school, or secondary school English Language Arts. Students must take:

EDUC 300 *Teaching Reading, P-8* (Prerequisites: EDUC 210 *History of Education and Effective Teaching Methods*)

EDUC 480 *Diagnosis and Remediation of Literacy Disorders with Practicum* (Prerequisites: EDUC 300 *Teaching Reading, P-8*, EDUC 220 *Educational Psychology*)

## Minor in Education

### A. Minor in Education - Early Childhood and Middle School

**Emphasis:** A total of six courses.

1. Each student must take the following two courses:

EDUC 210 *History of Education and Effective Teaching Methods*

EDUC 220 *Educational Psychology*

**and**

2. Four courses from the following:

EDUC 300 *Teaching Reading, P-8* \*

EDUC 321 *Teaching Art and Music, P-8* \*

KINE 350 *Physical Education for Elementary Education*

EDUC 322 *Teaching Math and Science, P-8* \*

EDUC 324 *Teaching Language Arts and Social Studies, P-8* \*

EDUC 330 *Children's Literature* \*

EDUC 480 *Diagnosis and Remediation of Literacy Disorders with Practicum* \*\*

**B. Minor in Education — Secondary Emphasis:** A total of six courses.

1. Each student must take the following two courses:

EDUC 210 *History of Education and Effective Teaching Methods*

EDUC 220 *Educational Psychology*

**and**

2. One methods course from the following:

EDUC 431 *Methods in the Secondary School-English Language Arts*

EDUC 432 *Methods in the Secondary School-Foreign Language*

EDUC 433 *Methods in the Secondary School-Mathematics*

EDUC 434 *Methods in the Secondary School-Life/Earth and Physical*

*Science*

EDUC 435 *Methods in the Secondary School-Social Studies*

EDUC 436 *Methods in the Secondary School-Speech/Drama*

EDUC 437 *Methods in Art Education (P-12)*

KINE 300 *Secondary Physical Education and Health*

**and**

3. Three courses from the following:

EDUC 300 *Teaching Reading, P-8* \*

EDUC 321 *Teaching Art and Music, P-8* \*

EDUC 322 *Teaching Math and Science, P-8* \*

EDUC 324 *Teaching Language Arts and Social Studies, P-8* \*

EDUC 330 *Children's Literature* \*

KINE 350 *Physical Education for Elementary Education*

EDUC 480 *Diagnosis and Remediation of Literacy Disorders with*

*Practicum* \*\*

\* Any student who completes the teacher licensure requirements for secondary education will automatically obtain a minor in education.

\* *prerequisite*: EDUC 210 *History of Education and Effective Teaching Methods*

\*\* *prerequisite*: EDUC 300 *Teaching Reading* and EDUC 220 *Educational Psychology*

## **Admission to the Teacher Education Program**

All students interested in the Hendrix Teacher Education Licensure Program are urged to attend an annual meeting held at the beginning of each academic year to discuss completing a minor, or licensure in education at the early childhood, middle school, or secondary level. At this meeting, students are asked to complete a general information form indicating their special interests.

All students interested in teacher licensure should make application for admission to the Teacher Education Program during the spring semester of the freshman year. Each student should arrange to have an individual interview with a member of the Hendrix Education Department. At this interview, all academic and personal requirements necessary for licensure are explained to the student. The chair of the student's major department is officially notified of the student's interest in teacher education. Licensure requirements and student files will be kept in the Education Department.

Students interested in obtaining a license to teach must enroll in EDUC 210 *History of Education and Effective Teaching Methods* and EDUC 220 *Educational Psychology* during the sophomore year. In the sophomore and junior years, prospective early childhood and middle school teachers should take EDUC 300 *Teaching Reading, P-8*, EDUC 330 *Children's Literature, P-8*, EDUC 321 *Teaching Art and Music, P-8*, EDUC 322 *Teaching Math and Science, P-8*, and EDUC 324 *Teaching Language Arts and Social Studies, P-8*. Prospective secondary teachers should take EDUC 210 *History of Education and Effective Teaching Methods* and EDUC 220 *Educational Psychology* during their sophomore year. Secondary licensure candidates should take one of the EDUC 431, 432, 433, 434, or 436 *Methods in the Secondary School* courses during the fall semester of their senior year. Students obtaining licensure in Physical Education will take the methods course in the Kinesiology Department. Students who wish to obtain a reading endorsement certificate should take EDUC 480 *Diagnosis and Remediation of Literacy Disorders with Practicum* during the fall semester of their senior year. All students will student teach during the spring semester of the senior year after taking all of the required courses for their area of licensure.

Prospective teachers should take the Praxis I Preprofessional Skills Test (PPST) no later than January of the sophomore year. Students should see a member of the Education Department about registering to take the Praxis I.

During the spring semester of the junior year, the prospective teacher should make formal application to the Teacher Education Committee

for admission to the Hendrix Teacher Education Program. At this time, the student must be able to meet all of the following criteria:

1. Have at least a 2.50 grade average.
2. Have a favorable recommendation from the student's major department.
3. Have at least the following scores on the Praxis I: reading—172, writing—171, mathematics—172 or comparable scores for the computerized version of the Praxis I.
4. Have at least a grade of "C" in specified courses in English composition and quantitative skills.\*
5. Have a plan to complete all methods courses\* prior to the student teaching experience and to complete the Teacher Education Program for Licensure and college graduation requirements by the end of the academic year.
6. Demonstrate those character traits (such as integrity, dependability, and personal acceptance of other persons regardless of race, sex, age, religion, culture, or handicap) which are deemed essential in an early childhood, middle school, or secondary teacher.
7. Prepare a portfolio based on the Teacher Education Committee guidelines and submit the portfolio to the Teacher Education Committee for review and approval.
8. Successfully complete an interview with the Teacher Education Committee.

Students who do not meet one or more of the above requirements may make application to the Teacher Education Committee for conditional admission. If conditional admission is granted, any deficiencies must be removed before the student will be permitted to student teach.

*\*See faculty members of the Hendrix College Education Department for the specific courses.*

## **Requirements for Initial Teaching License**

During the senior year, students enrolled in the Teacher Education Program must complete the specified early childhood, middle school, or secondary education courses, including Student Teaching. At the completion of the student teaching experience, the Teacher Education Committee will review the record and portfolio of each candidate before

recommending to the State of Arkansas that an initial teaching license be issued. This record will include, but is not limited to, the following:

1. The recommendations of the student's cooperating teacher and the Hendrix supervisor of the student teaching experience.
2. The applicant's academic record, which must show at least a 2.50 grade average.
3. The completion of all Hendrix College requirements for a bachelor of arts degree.
4. The completion of all course requirements of the State of Arkansas for the appropriate early childhood, middle school, or secondary initial teaching license.
5. The student's completed portfolio.
6. The successful completion of an interview with the members of the Teacher Education Committee at the end of student teaching.
7. Completion of the Praxis II (In order to receive an Arkansas initial license, the applicant must also make at least the minimum score set by the State of Arkansas on the Principles of Learning and Teaching test and the appropriate Subject Area Assessment Praxis II test. NOTE: See the Education Department for a list of minimum scores for the Praxis tests.)
8. The presentation of a lesson to the Teacher Education Committee.

After the completion of all requirements, the student may make application to the Hendrix Teacher Licensure Officer for approval for the initial license. The Teacher Licensure Officer will sign the Arkansas teacher licensure application only when the candidate has been approved by the Teacher Education Committee and when all requirements are met for licensure and for graduation.

## Senior Capstone Experience

The Senior Capstone Experience for the elementary education major includes the following components:

- Successful completion (a "C" or better) of Introduction to EDUC 420 Student Teaching, Language Arts/Social Studies, Grades 4–8 ; EDUC 423 Introduction to Student Teaching, Math/Science, Grades 4–8 ; OR EDUC 481 Introduction to Student Teaching, Grades PK–4 .
- Successful completion (credit only) of one of the following student teaching experiences: EDUC 421 Student Teaching, Language Arts/Social Studies, Grades 4–8 ; EDUC 424 Student Teaching, Math/Science,

*Grades 4–8* ; OREDUC 482 *Student Teaching, Grades PK–4* .

- Successful completion (passing score established by the Arkansas Department of Education) of Praxis II “Principles of Learning and Teaching, Grades K–6” examination and Praxis II “Early Childhood Education” examination. Both of these national examinations are published and administered by the Educational Testing Service.
- Final approval of the senior portfolio by the Teacher Education Committee. The grade for the Senior Capstone Experience is based on the Introduction to Education course and the senior portfolio.

The special subject of the seminar will be determined on a year-by-year basis.

**ENGL 499 Senior Thesis Seminar (W2)**

This seminar course taken during the spring of the senior year focuses on students' independent research projects in the discipline. Departmental faculty and other seminar members will provide input and critiques as the student works toward a significant piece of original literary criticism. At the end of the semester, the project will be presented/defended orally. Each student must have a second reader (advisor) in addition to the ENGL 499 instructor; the student must solicit the second reader and receive approval of the project idea by Fall Break of the senior year. The second reader does not necessarily need to be an English Department faculty member. The ENGL 499 instructor and the second reader will consult to determine the student's grade. This course is limited to senior English majors.

# ENVIRONMENTAL STUDIES

Professors Capek (chair-spring), Hines,  
Lombardi, and McDaniel  
Associate Professor Moran (chair-fall)  
Assistant Professor Agnew

The Environmental Studies program is designed to provide an integrated and interdisciplinary focus. As such, it both complements and embodies the Liberal Arts aim of combining strengths of the natural sciences, social sciences, and humanities to prepare students to be well-equipped citizens in an increasingly globalized world. Core requirements for Environmental Studies majors are designed to fit requirements for graduate programs in Environmental Studies or related fields while the electives allow students to specialize in their particular interests.

## MAJOR

13 courses distributed as follows:

### Core Requirements

- EVST 275/ENGL 275 *American Literature and the Environment*
- BIOL 102 *Natural History*
- BIOL 104 *Environmental Biology*

### **EVST 497 *Senior Seminar***

A capstone experience involving common readings, research methods and both written and oral presentation of independent research. Oral presentation and defense of research functions as the senior comprehensive exam. No Credit. *Prerequisite: senior standing.*

### **EVST 498 *Environmental Internship***

Provides opportunity for students to engage in an applied field experience. Focus of internship to be determined by the student's Environmental Studies emphasis. Internship must be approved in advance by Environmental Studies faculty. *Prerequisite: Junior or senior standing.*

## FOREIGN LANGUAGES

Professors Arms, Farthing, and Martin  
Associate Professor Oudekerk (chair)  
Assistant Professors Contreras-Silva, Gulielmetti,  
Resinski, and Vilahomat

The immediate aim of the Department of Foreign Languages is the progressive development of the student's ability to understand, speak, read, and write a foreign language. Its ultimate aim is to arouse curiosity and stimulate interest in the various aspects of the cultures whose language is being studied.

A student majoring in foreign languages may elect to concentrate in French, German, or Spanish. The major consists of credit for 11 courses in the language, including 110 and 120. The department offers minors in Classics, French, German, and Spanish.

Students planning to certify to teach a foreign language should contact their major advisors and the Education Department for a list of courses required within the major and by professional societies for certification.

# FRENCH

## MAJOR

The major in French consists of at least nine courses above the first-year sequence, including:

- FREN 210 *Intermediate Composition and Conversation*
- FREN 220 *Aspects of French Culture*,
- FREN 230 *Introduction to French Literature*
- FREN 310 *Advanced Composition and Conversation*
- five other upper-level French courses of the student's choosing.

For students certifying to teach, it is strongly recommended that one of these be FREN 320 *Practical Phonetics* .

Students majoring in French are also strongly encouraged to take at least the first-year sequence in Spanish, German, Latin, or Greek.

All students graduating from Hendrix are required to take a departmental comprehensive examination during the senior year over all work done in the major. The comprehensive exam in French includes both a written and an oral examination. In addition, seniors majoring in French will be required to present a portfolio consisting of samples of their undergraduate work in the major.

## MINOR

The minor in French consists of at least five courses at or above the 200 level.

## Senior Capstone Experience

The Senior Capstone Experience for the French major is comprised of two parts: a written and/or oral examination based on coursework in the major and courses taken abroad, if applicable. The grade for the Senior Capstone Experience is based on this examination.

---

## Elementary French courses

---

The basic sequence courses are the prerequisite for all other courses in French. However, if a student has taken two or more years of French in high school, he or she may be eligible to skip some or all of the first-year sequence. Placement into higher-level courses is based on an evaluation of the incoming student's high school record, entrance exam scores, and results of the placement test.

### **FREN 110 First-Year French, Part I**

This course is designed for students with no prior experience in the French language. It is a course in the four basic skills of listening, speaking, reading, and writing in French, with an emphasis on oral expression and an introduction to French culture.

### **FREN 120 First-Year French, Part II (FL)**

This course continues the development of basic skills, cultural awareness, and oral proficiency at the first-year level.

---

## Intermediate French courses

---

### **FREN 210 Intermediate Composition and Conversation**

This course continues the development of skills acquired in the first-year sequence. Assignments include oral exposes and weekly compositions with emphasis on idioms, grammar, and syntax in both written and spoken French. Prerequisite: FREN 120 or consent of the instructor.

### **FREN 220 Aspects of French Culture**

This course is an analysis of diverse phenomena contributing to the development of contemporary French culture. It includes an historical survey as well as a study of regions of France and francophone countries. Prerequisite: FREN 210 or consent of the instructor.

### **FREN 230 Introduction to French Literature (LS)**

This course is designed to introduce students to representative authors, periods, and genres in French literature and to acquaint them with methods of reading and criticism in preparation for more advanced literary study. Prerequisite: FREN 210 or consent of the instructor.

---

## Advanced French courses

---

*The prerequisite to all advanced French courses is French 210.*

### **FREN 310 *Advanced Composition and Conversation***

This course is a study of advanced grammar and syntax to help students arrive at more effective written and oral expression. Regular compositions on assigned topics and scheduled oral presentations are included.

### **FREN 320 *Practical Phonetics***

This course is a systematic review of French pronunciation involving the study of phonetics through oral exercises, texts in poetry and prose, and the use of the language laboratory. It is recommended for majors in French, especially for those preparing to teach.

### **FREN 410 *Medieval and Renaissance Literature (LS)***

This course deals primarily with the epic, medieval romance, and humanist writings. Readings include the *Chanson de Roland*, *Tristan et Iseut*, and the poetry of Ronsard.

### **FREN 420 *Golden Age of French Drama (LS)***

This course is a comprehensive study of the Classical period of French literature, concentrating on the works of Corneille, Racine, and Moliere.

### **FREN 440 R *Romanticism to Symbolism (LS)***

This course is an overview of the major works of the nineteenth century, including both poetry and prose. Hugo, Flaubert, and Baudelaire are among the authors studied.

### **FREN 450 *Contemporary French Literature (LS)***

This course presents significant works and movements of the twentieth century, with emphasis on the novel. Authors studied include Alain-Fournier, Proust, Camus, Sartre, and Duras.

### **FREN 460 *Topics in French Literature (LS)***

This course explores an author, movement, or genre in depth. Topics may be selected from among the following French literature and film: *Women Writers of French* or *The French Short Story*. Coursework will be completed in French. *Cross-listed as LITR 260.*

## **GERMAN**

### **MAJOR**

The major in German consists of at least nine courses above the basic sequence, including GERM 210 or 310, 320 or 330, and 420.

### **MINOR**

The minor in German consists of at least five courses at or above the 200-level.

### **Study Abroad**

While not specifically required for graduation in German, a significant study abroad experience clearly adds greatly to the linguistic skills and cultural awareness of our majors, and is very strongly recommended. The most popular vehicles for study in German-speaking countries are the Hendrix-in-Graz and the ISEP programs, both of which permit the use of the student's Hendrix financial aid.

### **Senior Capstone Experience**

The Senior Capstone Experience for the German major is a comprehensive examination that follows completion of GERM 420. The comprehensive examination consists of two parts: a self-paced written examination over several hours covering all aspects of German cultural history, but with a special emphasis on literature, and, the next day, a similarly broad-ranging one-hour oral examination, conducted in German. The grade for the Senior Capstone Experience is based on this examination.

---

## German courses

---

Please note that GERM 210 or permission of the instructor is a prerequisite for all other upper-level courses.

### **GERM 110 *Elementary German I***

Introductory language course stressing the skills of listening, reading, and writing, with special emphasis on the rapid acquisition of speaking ability. Introduction to the cultures of German-speaking countries.

### **GERM 120 *Elementary German II (FL)***

Continuation of GERM 110 with emphasis on further development of skills and cultural awareness. Introduction to literary and non-literary texts.

### **GERM 210/310 *Intermediate Composition and Conversation (W2)***

Open to any student who has completed the basic sequence. Further develops communication skills while offering a focused review of essential grammar concepts. Content varies annually, but focuses on contemporary life and literature in German-speaking Europe. Please note that GERM 310, taught concurrently, involves additional work and may be taken for credit by students who have previously had GERM 210.

### **GERM 220 *German Literature and its Context (LS, W2)***

An introduction to the study of German literature in its sociohistorical context. Provides the student with essential research and analytical skills through the examination of short, representative works by authors such as Goethe, Heine, Kafka, Hesse, Grass and Seghers. Continues the development of the student's command of oral and written German.

### **GERM 230 *Masterpieces of German Cultural History (W2)***

An introduction to some of the great works of German art, architecture, literature, music, and philosophy through a focus on significant periods in German cultural history such as the High Middle Ages, the Reformation, the Baroque era, the Classic and Romantic Periods, and Expressionism. As with 220, the course continues the development of the student's command of oral and written German.

### **GERM 320 *Survey of German Literature and Civilization, Part I (to 1830) (LS, W2)***

An overview of the most important literary figures and works in German history as reflections of the various cultural periods that produced them.

The broader cultural context of each epoch—its social history, philosophy, art, architecture and music—will be stressed.

**GERM 330 *Survey of German Literature and Civilization, Part II (1830-Present)* (LS, W2)**

Applies the same approach as in GERM 320 to the period from Goethe's death to the present. GERM 320 is not a prerequisite.

(Note: GERM 320 and 330 are viewed as core courses in the German program. While at least one of them is required for the major, both courses should be of significant interest to non-majors and minors as well.)

**GERM 340 *From Expressionism to Exile Literature* (LS, W2)**

Deals with the most important authors and cultural movements of Fin-de-Siècle Vienna, the Weimar Republic and the years of Nazi domination in German. Includes such authors as Rilke, Mann, Kafka, Hesse, Seghers, and Brecht.

**GERM 350 *German Literature since 1945* (LS, W2)**

Examines the most important literary figures writing in German since the Second World War against the backdrop of the turbulent history of this period. Includes authors such as Boll, Grass, Hesse, Becker, Wolf, and Maron.

**GERM 395 *Contemporary German Civilization* (W2)**

This course focuses on the political, economic, social, and cultural institutions of Germany since World War II, with special emphasis on developments from 1989 to the present.

**GERM 420 *Senior Seminar in German Literary History* (LS, W2)**

A course for senior German majors designed to help them synthesize their understanding of German literature and civilization to this point. Considerable individualization of content will allow each participant to concentrate on key periods and authors not previously studied.

**GERM 490 *Special Topics in German Literature* (LS, W2)**

Provides the opportunity to explore various authors or literary movements in depth. May on occasion be offered in both English and German so that a wider spectrum of students might participate. When offered in English, will be cross-listed as a LITR 330 course, and will not be coded "FL". Potential special topics include Gender in 19th-Century German Literature, German-Jewish Literature, German Film, The Novella, German Drama, Fairy Tales.

## Courses

---

*The course Introduction to Gender Studies is not currently required for a Gender Studies minor. It is, however, strongly encouraged. All other courses that can be taken to fulfill the minor requirements are described under the respective academic departments.*

### **GEND 250 Introduction to Gender Studies (CW)**

An interdisciplinary course designed for first or second year students that will explore men's and women's experiences in American society, and the role that ideas about sexual differences have played in shaping those experiences. Areas of inquiry will include, but are not limited to, the following: the construction of gender roles and sexuality; the relationship between gender and other social, political, and legal structures and institutions; the interplay of gender with race, class, and ethnicity in cultural perceptions and expectations of both men and women. This course will strive to assist students in formulating questions about gender as it relates to their on-going work in various disciplines across the curriculum.

## HISTORY

Professors Larson and McAinsh (chair)  
Associate Professors Jennings, Shutt, and Schantz  
Assistant Professor Skok

### **MAJOR**

Students seeking a major in history will take 11 courses distributed in the following manner:

- 2 courses in American history
- 2 courses in European history
- 3 courses selected from African, Middle Eastern, or Chinese history.
- 3 elective courses in history
- HIST 300 *Historiography*

These 11 courses must include:

- 1 course in pre-modern history (that is, a course which treats in a substantial way the period before 1800.)
- 1 seminar course (that is, a small discussion-based course focusing on important historical texts)
- 1 research course (that is, a course in which students produce a research paper of at least 25 pages)

These courses are identified in departmental course offerings at the end of each description as follows:

- pre-modern courses (PM),
- seminar courses (S), and
- research courses (R).

Students may satisfy only one of the above requirements in a single course. (Thus, a student may not take *American Revolutionary Era* as both a research course and a pre-modern course but would have to decide on one designation or the other.)

Students who contemplate taking the senior-level HIST 497 *Advanced Research and Writing* are urged to complete their research course as well as *Historiography* during the junior year.

## MINOR

Students seeking a minor in history will take 6 courses distributed in the following manner:

- 1 course in American history
- 1 course in European history
- 2 courses selected from African, Chinese, or Middle Eastern history
- 2 elective courses in history

## Senior Capstone Experience

The Senior Capstone Experience for the history major consists of a comprehensive examination. The comprehensive examination is the standardized Major Field Achievement Test (MFAT). The grade for the Senior Capstone Experience is based on the standardized test score.

---

## General Topics Courses

---

### **HIST 190 *History & Film* (HP)**

This course subjects films on historical topics to discussion and analysis. It probes how filmmakers treat historical subjects and introduces students to the methods historians might use in evaluating the accuracy and impact of such films.

### **HIST 300 *Historiography* (HP, W2)**

This course focuses on two major topics: ways of historical thinking and methods of historical research. Among the varied topics of consideration are: historical method, the philosophy of history, the history of historical writing, the life and works of several historians, and conflicting interpretations of historical events.

### **HIST 350 *Environmental History* (HP, CW)**

This is a reading and research seminar in environmental history from the United States, Europe and Africa. Topics include ideas about the environment, environmental degradation, misreading the landscape, race and the environment, and African environmental concerns. (S, R)

### **HIST 497 *Advanced Research and Writing* (HP)**

This year-long course begins in the fall semester of the senior year. It is directed toward the production of a substantial piece of historical writing based, in large part, on primary sources. Working closely with an advisor, students devise a topic and conduct research. They also meet together with other students in the course and their mentors in a seminar format in which they will read each other's work and offer their evaluation of that work. Students interested in enrolling in this course should consult their advisor during the spring semester of the junior year. Students who wish to enroll in this course should also have their basic departmental research requirement (an R course) completed by the end of the junior year. *Prerequisite: consent of the department.*

---

## American History Courses

---

### **HIST 214-A *Poverty and Welfare in America* (HP)**

This class uses primary and secondary sources to examine the many ways in which Americans have understood the existence of poverty and the poor. With emphasis on the nineteenth and twentieth centuries, we will investigate the roots of poverty in the American economic system, in order to examine why so many people remain poor in the richest nation on earth. We will also look at the evolution and larger macroeconomic purposes of the American welfare state. Whenever possible, we will also use first hand accounts by poor people and antipoverty activists themselves, in order to let them tell their own stories in their own voices.

### **HIST 216-A *The American Century, 1945-Present* (HP)**

The post-1945 period was an era of dramatic change in American history, one whose repercussions still shape the world in which we live today. In this course, we will focus on some of the major developments of the period, including the Cold War, the civil Rights Movement, and the dramatic shift in gender roles that has changed the lives of both women and men. We will also cover related subjects, such as the domestic war on poverty, and the foreign war in Vietnam.

### **HIST 218-A *Progressive Era Reform, 1890-1920* (HP)**

Over the past thirty or forty years, historians have gone from idolizing Progressive-Era reformers and demonizing political bosses, to practically the reverse. In this course, we will use primary and secondary sources to examine the creation of the boss-reformer paradigm during the Progressive Era, and its rediscovery by historians in the 1960s and 70s. Then we will look at more recent attempts to unpack the ethnic, racial, class, and gender dynamics behind the paradigm. We will investigate who had what kind of power in Progressive-Era cities, and what we can learn from the past about the society in which we live today. (S)

### **HIST 270-A *Arkansas History* (HP)**

A history of Arkansas from earliest times to the present.

### **HIST 351-A *American Revolutionary Era* (HP)**

An exploration of the political, social, and intellectual forces that propelled the North American British colonies into rebellion. The course also examines the war itself and evaluates the revolutionary settlement defined in the making of the Constitution. (R, PM)

**HIST 353-A *American Civil War and Reconstruction* (HP)**

Offers an analysis of the sectional conflict leading to the secession crisis, the impact of the war on American society, and the reunification of the nation during Reconstruction. Within all three topics the course will be fundamentally concerned with the shifting meanings of freedom in American life. (R)

**HIST 360-A *Vietnam and the 60's* (HP, CW)**

This course will examine the Vietnam War in the context of the social upheavals of the 1960s. Starting with the supposedly quiescent periods of the late 1940s and 1950s, we will look at the war in the context of Cold War politics, the Civil Rights Movement, and other domestic conflicts. We will think about the class, racial, and gender dynamics of the war. Last but not least, we will read Vietnamese perspectives on the war, in order to illuminate why our involvement there had such tragic results. (R)

**HIST 380-A *City and Nation in American History* (HP)**

From the beginning of American History, cities have played an integral role in the life of the nation. They have been vital centers of trade since before the arrival of Europeans in North America. They have been economic engines, spurring the westward movement of Europeans across the continent. They have been centers of culture and sites of conflict. They have raised questions of regional and national identity. They have housed a diverse array of class, ethnic, and racial groups. In this course, we will examine the growth of the American urban system from the Colonial Era to the present. Course requirements include a research paper on some aspect of the city of Little Rock using primary source documents. Students will receive plentiful help in finding a topic. Past topics include: Boxing in the 1870s, the Little Rock electric trolley system, Little Rock women's clubs, and race relations in the 1960s. (S, R)

**HIST 385-A *American Social History to 1865* (HP)**

This course examines important American diaries, journals, and autobiographies from the colonial period through the era of the Civil War and explores the historical context in which these texts were written. It stresses, especially, the importance of gender, class, and race in the shaping of American life. (S, PM)

**HIST 390-A *African American History to 1865* (HP)**

This course examines the major topics in African American history from the emergence of the ancient African Kingdoms to the Civil War.

Emphasis will be placed on the use of a multidimensional approach to analyze African American culture, lifestyles, and related issues. Major themes related to the African American experience in America, as well as experiences throughout antebellum society, will be examined. (PM)

**HIST 395-A *African American History since 1865* (HP)**

This course examines the major topics in African American history from the Civil War to the end of the Civil Rights era. Emphasis will be placed on the use of a multidimensional approach to analyze African American culture, lifestyles, and related issues. Major themes such as racism, assimilation, separatism, Pan-Africanism, desegregation, and civil rights will be examined. (S)

**HIST 402-A *American Women's History* (HP)**

A seminar and discussion course centered on important texts in the history of American women from the colonial period to the present. (S)

**HIST 403-A *History of Death in America* (HP, VA)**

Some would argue that America is inherently a "death-denying" culture. This course investigates that assertion by exploring critical texts in the history of death in America from the colonial period to the present. It includes such topics as Puritan view(s) of death, the social construction of disease, death and warfare, the rise of the hospital, and an examination of the modern funeral industry. (S)

**HIST 420-A *Topics in American History* (HP)**

A seminar or research course devoted to a particular topic in American history. Student suggestions for the selection of a topic are especially encouraged. Topics might focus on particular historical epochs, individuals, movements or themes. (S or R, depending upon the topic and structure of the course)

---

## European History Courses

---

**HIST 170-E *Contemporary Europe* (CW, HP)**

This course aims to provide students with historical perspective on a variety of current problems and issues. Concentrating on the period since 1945, major topics covered include the decline and fall of the Soviet Union, the Cold War and its aftermath, welfare state democracy and its prospects, European responses to environmental problems, and the ongoing development of the European Union. Political, diplomatic, and economic developments are stressed

**HIST 221-E *England to 1688* (HP)**

Beginning with Roman Britain, this course traces the social, cultural, political and religious evolution of England up to the Glorious Revolution. Particular attention is given to the growth of the Common Law, the rise of parliament, and other developments of significance to our own country. (PM)

**HIST 222-E *England since 1688* (HP)**

This course will trace the process of England's transformation to modernity, concentrating on social and cultural, as well as political and economic changes. Students will also consider the rise and fall of England as an imperial power and as a great power in Europe's state system.

**HIST 301-E *Greek Civilization* (HP)**

An integrated survey of the history, society, art, and literature of ancient Greece, from the Bronze Age through Alexander the Great. No prerequisite. *Cross-listed as CLAS 301.*

**HIST 302-E *Roman Civilization* (HP)**

An integrated survey of the history, society, art, and literature of ancient Rome, from the early Republic to the height of the Roman Empire. No prerequisite. *Cross-listed as CLAS 302.*

**HIST 311-E *Medieval Europe* (HP)**

Beginning with the decline and fall of the Roman Empire and the rise of Christianity, this course will focus on Western Europe from about 400 to 1300. Particular attention will be given to the intertwining of Classical, Christian, and Germanic cultures which resulted in the birth and early development of Western Civilization. (PM)

**HIST 312-E *Renaissance Europe* (HP)**

This course will focus on the social, political, economic, and cultural developments in Western Europe (with particular concentration on Italy) in the fourteenth, fifteenth, and early sixteenth centuries. Emphasis will be given to the questions of whether these developments are best understood as a repudiation or as a continuation of Medieval culture, and whether they should be seen as the origins of Modernity. (PM, R)

**HIST 313-E *Reformation and Baroque Europe* (HP)**

Among the topics stressed in the study of the sixteenth and seventeenth centuries are the Protestant Reformation and the Scientific Revolution, with the cultural changes associated with them. The development of the modern State system of Europe is also considered. (PM)

**HIST 314-E *Age of Democratic Revolutions* (HP)**

Eighteenth-century Europe is examined with an eye toward determining the causes of the upheavals which followed. The French Revolution of 1789 and subsequent revolts against the status quo through the Revolutions of 1848 are then considered, with particular attention to their political and diplomatic aspects. (R)

**HIST 315-E *Age of the Nation State* (HP)**

This course treats the history of Europe from the Revolutions of 1848 to the end of the First World War. Particular emphasis falls on the five major powers of Europe, and the intellectual changes during this period. (R)

**HIST 316-E *Europe: 1918-1945* (HP)**

This course focuses primarily on the problems of political and cultural breakdown in the inter-war years, on the rise of the dictators, and on the origins of World War II. (R)

**HIST 332-E *Russia: 1689-1917* (HP)**

This course traces the development of the Russian Empire from the reign of Peter the Great to the February Revolution. Special emphasis is placed on Russia's struggle to modernize. (PM)

**HIST 333-E *Russia since 1917* (HP, CW)**

This course begins at the turn of the century and attempts to explain the success of the Bolsheviks, the development and dissolution of the Soviet Union, and the current condition of Russia. (R)

**HIST 370-E *Communism, Fascism, and Democracy* (HP)**

This is a course in intellectual history. The basic ideas, and historical development of Liberal Democracy, Fascism, and Communism, are considered. History 170, Contemporary Europe, is recommended. (R)

**HIST 440-E *Seminar in the History of Europe, 1890-1940* (HP)**

This course focuses on some of the important conflicts and changes in Western and Central Europe in the half century preceding World War II.

*Prerequisite:* HIST 315, or HIST 316, or consent of instructor. (S)

**HIST 445-E *Seminar in Soviet History* (HP)**

This course focuses in more detail on some of the major problems in the development of the Soviet Union and its successors. *Prerequisite:* Hist 333,

or consent of instructor. (S)

## African, Chinese and Middle Eastern History Courses

---

### **HIST 120-G *Early African History* (HP)**

An introductory course with continent-wide scope. Covers the major trends and events in Africa to the imposition of colonialism, including the development of agriculture, cities and states, technology, and religious life. (PM)

### **HIST 130-G *Colonial African History* (HP)**

The second half of the general survey course takes African history up to independence. Covers such topics as the colonial state, resistance movements, problems of independence, and development.

### **HIST 240-G *History of the Islamic World* (HP)**

This survey course follows the rise of Islam as a world religion from the time of the Prophet Muhammad, into the Classical Age of expansion and cultural development, and on into the rise of the Ottoman Empire. Topics include Muslim piety, Sunni and Shi'ia Islam, Sufism, gender and African forms of Islam. We consider briefly the contemporary era in the last section of the course. (PM)

### **HIST 242-G *China since the Ming* (HP)**

This course emphasizes three elements of Modern Chinese history: The collapse of Imperial China under the impact of the West; the failure of the Nationalist Government to modernize China; and the mixed success of the Chinese Communist government in bringing China toward the 21st Century.

### **HIST 250-G *History of Southern Africa* (HP)**

This course explores the History of South Africa as a regional powerhouse in the sub-continent. The course begins with the history of the Khoisan, the earliest inhabitants of the sub-continent, and traces developments in the economy, culture and politics to the end of the Apartheid era in 1994. (PM)

**HIST 280-G *Contemporary Africa* (HP , CW)**

This course focuses on the challenges of political independence in Africa. Using case studies of selected African countries, this course examines the prospects for democracy, the problems of economic development, the challenges of political corruption, and the legacy of colonialism in Africa today. (R)

**HIST 325-G *Africa and the Americas* (HP)**

This is an introduction to the interconnected history of the Americas (Brazil, Caribbean, United States) and Africa. We will examine the impact of the Atlantic slave trade on African peoples, and follow the transportation and settlement of enslaved Africans to the Americas. Our focus is the contribution of African peoples to the history, culture and politics of the Americas. (PM, R)

**HIST 330-G *Culture and Colonialism* (HP , CW)**

This seminar focuses on selected readings concerning the cultural impact of colonialism in Africa. Topics include domesticity, health and medicine, etiquette, music and clothing styles, gangsters, films, and Christianity. (S, R)

**HIST 430-G *Topics in African History* (HP)**

This reading course focuses on topics in African history that interest students and the instructor.

# INTERDISCIPLINARY STUDIES

Students wishing to explore major courses of study not offered by individual departments may petition for an Interdisciplinary Studies major. Under the guidance of a faculty committee specially appointed by the Registrar, such students may develop majors combining courses from several departments or areas. Each Interdisciplinary Studies major must have a coherent thematic principle governing the selection and sequencing of courses in the major and must be approved in all particulars by the specially appointed committee. Students who would like to explore an Interdisciplinary Studies major are urged to consult with their faculty advisors or with the Office of the Registrar.

Students are encouraged to declare an intention to pursue an Interdisciplinary Studies major during the sophomore year. Under no circumstances should a student declare such intent later than the first term of his or her junior year. Declaration of such intent is made by submitting a written proposal to the Registrar. The proposal must be signed by the student's academic advisor and must contain a list of eight to fourteen courses proposed to constitute the major, a narrative account of the aims the student intends to fulfill by means of the proposed major, and the reasoning that supports the desirability of the proposed major.

The faculty committee appointed by the Registrar will review the student's proposal for an Interdisciplinary Studies major and advise the student subsequent to approval of the proposal, if approval is granted. On receipt of a positive recommendation from the committee, the Registrar will authorize the student to pursue the major. Interested students should consult the Registrar.

# INTERNATIONAL RELATIONS AND GLOBAL STUDIES

Associate Professor Oudekerk

## MAJOR

12 courses distributed as follows:

### PART A: Foreign Language

Two courses beyond the basic sequence in at least one modern foreign language.

- FREN 210 *Intermediate Composition and Conversation*

**or**

FREN 220 *Aspects of French Culture*

**or**

FREN 230 *Introduction to French Literature*

**or**

GERM 210 *Intermediate Composition and Conversation*

**or**

SPAN 200 *Conversation and Composition*

**or**

the equivalent course in another modern foreign language).

- One upper-division course taught in a foreign language, including "foreign literature" courses.

### PART B: Global Awareness

- POLI 250 *Global Politics I*

**or**

POLI 251 *Global Politics II*

- ECON 360 *International Economics*

**or**

POLI 260 *Political Economy*

- Culture Studies: One from:

SOCI 250 *Gender and Family*

SOCI 270 *Racial and Ethnic Minorities*

SOCI 360 *Social Change/Social Movements*

SOCI 380 *Medical Sociology*

SOCI 390 *Social Inequality*  
 ANTH 100 *Introduction to Anthropology*  
 ANTH 250 *Visual Anthropology*  
 ANTH 360 *Global Studies*  
 ANTH 370 *Psychological Anthropology*  
 ENGL 255 *Post-Colonial Literature*  
 ENGL 265 *Masterpieces of World Literature*  
 ENGL 363 *English as a Global Language*  
 RELI 110 *Religion in a Global Context*  
 RELI 200 *State of the World*  
 RELI 340 *World Religions: Contemporary Perspectives*  
 RELI 330 *Women and Religion*  
 MUSI 270 *Survey of Global Musics*

- **Environmental Studies:**

One from:

SOCI 375 *Environmental Sociology*  
 ANTH 320 *Gender and Environment*  
 PHIL 270 *Environmental Philosophy*  
 BIOL 104 *Environmental Biology*  
 ECON 340 *Environmental Economics*

**PART C: Regional Concentration** (Choose one region only.)

**Asian Studies:**

- POLI 372 *China and East Asia*
- plus any three from:
  - ANTH 220 *Cultures of India*
  - RELI 311 *Buddhism*
  - HIST 242 *China since the Ming*
  - PHIL 260 *Philosophies of China and Japan*
  - PHIL 250 *Philosophies of India*

**European Studies:**

- HIST 170 *Contemporary Europe*
- plus any three from:
  - HIST 222 *England since 1688*
  - HIST 316 *Europe: 1918-1945*
  - HIST 333 *Russia since 1917*
  - HIST 370 *Communism, Fascism, and Democracy*
  - HIST 445 *Seminar in Soviet History*
  - GERM 395 *Contemporary German Civilization*
  - RELI 231 *Western Christianity since 1500*
  - POLI 240 *History of Western Political Thought*

### **Middle Eastern Studies:**

POLI 373 *Palestine, Israel, and the Middle East*

plus any three from:

- RELI 123 *Introduction to Hebrew Bible*
- RELI 216 *Judaism*
- RELI 240 *Biblical Archaeology*
- RELI 250 *Hebrew Prophecy and Wisdom*
- HIST 240 *History of the Islamic World*

### **African Studies:**

HIST 280 *Contemporary Africa*

plus any three from:

- HIST 120 *Africa: An Interdisciplinary Approach*
- HIST 250 *History of South Africa*
- HIST 320 *Gender in African History*
- HIST 330 *Culture and Colonialism*
- HIST 325 *Africa and the Americas*
- HIST 430 *Topics in African History*
- AFRI 220 *African Film*
- ENGL 245 *African Novel*
- ENGL 250 *Women and African Literature*
- ENGL 455 *Chimua Achebe and Wole Soyinka*

### **PART D: Electives**

Two courses from Parts A, B, and C not already selected as fulfillments for those parts;

**or,**

for those students interested in an Economics & Business concentration, two courses from:

- BUSI 200 *Fundamentals of Accounting and Business I*
- BUSI 210 *Fundamentals of Accounting and Business II*
- BUSI 330 *Cost Accounting*
- ECON 200 *Principles of Microeconomics*
- ECON 210 *Principles of Macroeconomics*
- ECON 320 *Money, Banking, and Credit*
- ECON 410 *Financial Management*

### **PART E: Study Abroad**

Students must complete at least one study abroad experience that earns at least one Hendrix course credit. Students should seek approval from the IRGS Committee before completing this requirement.

## SPECIAL NOTES:

1. Study abroad courses, if approved by the IRGS Committee in advance and in response to student petition, can be used to substitute for courses in Parts A through D above.
2. Independent studies, if approved by the IRGS Committee in advance and in response to student petition, may count as fulfillments for Parts A through D above.
3. Students wishing to major in IRGS in the more “traditional” IR sense should consider taking POLI 250 *Global Politics I*, POLI 251 *Global Politics II*, and POLI 260 *Political Economy*, along with ECON 360 *International Economics*.

Students wishing to major in IRGS in the “global studies” sense should emphasize language, humanities, and socio-cultural courses where possible.

Students wishing to major in IRGS with a concentration in Economics and Business should emphasize the ECON/BUSI courses listed in Part D above, as well as taking ECON 360.

4. Students should check catalog course descriptions by department for any prerequisites.

## MINOR

Nine courses distributed as follows:

### **PART A: Foreign Language**

The basic sequence or its equivalent in any modern foreign language.

### **PART B: Global Awareness**

- POLI 250 *Global Politics I*  
**or**  
POLI 251 *Global Politics II*
- ECON 360 *International Economics*  
**or**  
POLI 260 *Political Economy*
- Two from:  
ANTH 100 *Introduction to Anthropology*  
ANTH 250 *Visual Anthropology*  
ANTH 320 *Gender and Environment*  
ANTH 360 *Global Studies*  
ANTH 370 *Psychological Anthropology*

BIOL 104 *Environmental Biology*  
ECON 340 *Environmental Economics*  
ENGL 255 *Post-Colonial Literature*

SOCI 270 *Racial and Ethnic Minorities*  
SOCI 360 *Social Change/Social Movements*  
SOCI 375 *Environmental Sociology*  
SOCI 380 *Medical Sociology*  
SOCI 390 *Social Inequality*

**PART C: Regional Concentration** (Choose one region only.)

**Asian Studies:**

POLI 372 *China and East Asia*

**and**

two from:

ANTH 220 *Cultures of India*

RELI 311 *Buddhism*

HIST 242 *China since the Ming*

PHIL 260 *Philosophies of China and Japan*

PHIL 250 *Philosophies of India*

**European Studies:**

HIST 170 *Contemporary Europe*

**and**

two from:

HIST 222 *England since 1688*

HIST 316 *Europe: 1918-1945*

HIST 333 *Russia since 1917*

HIST 370 *Communism, Fascism, and Democracy*

HIST 445 *Seminar in Soviet History*

GERM 375 *Contemporary German Civilization*

RELI 231 *Western Christianity since 1500*

POLI 240 *History of Western Political Thought*

### **Middle Eastern Studies:**

POLI 373 *Palestine, Israel, and the Middle East*

**and**

two from:

RELI 123 *Introduction to Hebrew Bible*

RELI 216 *Judaism*

RELI 240 *Biblical Archaeology*

RELI 250 *Hebrew Prophecy and Wisdom*

HIST 240 *History of the Islamic World*

### **African Studies:**

HIST 280 *Contemporary Africa*

**and**

two from:

HIST 120 *Africa: An Interdisciplinary Approach*

HIST 250 *History of South Africa*

HIST 320 *Gender in African History*

HIST 330 *Culture and Colonialism*

HIST 325 *Slavery and Freedom in Africa and the Atlantic World*

HIST 430 *Topics in African History*

AFRI 220 *African Film*

ENGL 245 *African Novel*

ENGL 250 *Women and African Literature*

ENGL 455 *Chimua Achebe and Wole Soyinka*

### **SPECIAL NOTES:**

1. Study abroad courses, if approved by the IRGS Committee in advance and in response to student petition, can be used to substitute for courses in Parts A through D above.
2. Students should check catalog course descriptions by department for any prerequisites.

### **Senior Capstone Experience**

The Senior Capstone Experience for the international relations and global studies major consists of a translation into English of a short article in the student's primary foreign language of choice, plus a 8-10 page paper in English on the topic of the article to be translated. The topic will be one familiar to the student, and he/she will be expected to critically

appraise the article as well as to put it into larger historical and theoretical contexts. The grade for the Senior Capstone Experience is based on these papers.

## KINESIOLOGY

Professors Garrison, Hannah (chair), and Kelly  
Associate Professor Winkelman  
Assistant Professor Mayo

### MAJOR

A major in Kinesiology consists of eleven courses (eight core courses, and three courses in an emphasis chosen by the student) and six physical education activity classes, at least one chosen from each of the following categories: fitness, team sport, individual sport, aquatics, and dance.

The eight required courses are the following:

- KINE 100 *Foundations of Kinesiology*
- KINE 150 *Concepts of Fitness*
- KINE 200 *Care and Prevention of Exercise and Sport Injuries*
- KINE 220 *Health and Wellness*
- KINE 280 *Skills for Majors*
- KINE 320 *Anatomy and Physiology*
- KINE 330 *Structural Kinesiology*
- KINE 360 *Physiology of Exercise*

The areas of emphasis, and the courses comprising them, are these:

#### **Secondary Physical Education and Health - 3 courses**

- KINE 300 *Secondary Methods*
  - KINE 400 *Administration*
  - KINE 430 *Coaching Spring Sports*
- or**
- KINE 440 *Coaching Basketball*
- or**

KINE 450 *Coaching Swimming*

**or**

KINE 460 *Coaching Volleyball*

**or**

KINE 470 *Coaching Football*

**Elementary Physical Education** - 3 courses

- KINE 250 *Games and Basic Rhythms for Elementary Grades*
- KINE 290 *Motor Development*
- KINE 350 *P.E. for Elementary Education*

**Sports Management** - 3 courses

- ECON 100 *Survey of Economics Issues*

**or**

BUSI 200 *Fundamentals of Accounting and Business I*

- Marketing (to be taken off campus)
- KINE 498 *Individual Internship*

**Recreation Leadership** - 3 courses

- KINE 240 *Recreational Leadership*
- KINE 270 *Outdoor Education*
- KINE 498 *Independent Internship*

Each student must pass a minimum standard fitness test before graduation and demonstrate minimum standards on a list of proficiencies as prescribed by the department.

Students planning to certify to teach physical education should contact their major advisors and the Education Department for a list of courses required within the major and by the professional societies for licensure.

## MINOR

A minor in Kinesiology consists of the following six courses:

- KINE 100 *Foundations of Kinesiology*
- KINE 150 *Concepts of Fitness*
- KINE 200 *Care and Prevention of Exercise and Sport Injuries*
- KINE 300 *Secondary Methods*

**or**

KINE 350 *P.E. for Elementary Education*

- KINE 320 *Anatomy and Physiology*

**or**

KINE 330 *Structural Kinesiology*

or

KINE 360 *Physiology of Exercise*

- KINE 400 *Administration*
- One activity class credit from four of the five different activity areas

## Senior Capstone Experience

The Senior Capstone Experience for the kinesiology major consists of a comprehensive examination that covers material presented in the courses required for the major. For each course, the student is given three or four discussion questions from which to choose and answer two questions. The grade for the Senior Capstone Experience is based on this exam.

---

## Courses

---

### **KINE 100** *Foundations of Kinesiology and Physical Education*

An overview of the history of past and present concepts, principles, and philosophies that relate to and influence health leisure, physical education, and recreation. Offered in 2002-2003 and alternate years.

### **KINE 110** *Responding to Emergencies*

Designed to prepare people to meet the needs of most situations when emergency first aid care is needed and medical assistance is not excessively delayed. American Red Cross Certification in Responding to Emergencies and Adult CPR is attainable through this course.

### **KINE 150** *Concepts of Fitness*

An introductory course to provide information on the why, how, and what of exercise and physical activity for fitness. The course involves discussions of the need for fitness, and a comparison of health-related and skill-related fitness. It combines classroom and lab experiences that promote a healthy lifestyle.

### **KINE 200** *Care and Prevention of Exercise and Sport Injuries*

The course is designed to provide the student with the knowledge of prevention, care, and rehabilitation of common athletic injuries. The

student will receive athletic training information and the skills necessary to care for the common movement injury. Designed to develop competence in rendering immediate and temporary aid to a victim of accident, sudden illness, or injury. The student will also receive certification for basic first aid and adult CPR.

**KINE 220 *Health and Wellness***

Includes an examination of the holistic approach to health. Emphasis is placed on the physical, psychological, social, intellectual, spiritual, and environmental domains of this approach. Designing individual preventative health care practices in each of these domains is strongly encouraged throughout the course.

**KINE 240 *Recreational Leadership***

An examination of the field of recreation as a profession, the services that it renders, and the settings where it is conducted. Introduces students to the skills and techniques needed to conduct a variety of school and community recreation activities. Offered in 2003-2004 and alternate years.

**KINE 250 *Games and Basic Rhythms for Elementary Grades***

Introduces students to the sequential development of individual and group game skills in low organized games. Also introduces students to the development of sequential fundamental movement patterns, creative rhythms, and various forms of dance using folk, round, line, and square dance. (On demand.)

**KINE 260 *Nutrition***

Examines basic principles of nutrition with emphasis on role of nutrition in health and disease. Also application of basic nutrition principles to optimize daily or athletic performance. Offered in 2003-2004 and alternate years.

**KINE 270 *Outdoor Education***

Outdoor education experience in classroom and wilderness setting to allow student to gain knowledge/skills in camping, wilderness survival, canoeing, orienteering, and environmental studies. *Prerequisite: KINE 200 or KINE 110.*

**KINE 280 *Skills for Majors***

Preparation of Kinesiology majors for the teaching and coaching of various sports and skills. Students should show competence in individual and team sports. Offered in 2003-2004 and alternate years.

**KINE 290 *Motor Development***

Application of psychological and physiological principles to motor development and improvement of physical performance; role of growth, development, and emotional and psychosocial phenomena in motor learning and performance.

**KINE 300 *Secondary Physical Education***

Designed to develop student knowledge and understanding of the planning, organization, and teaching included in physical education in the middle school and secondary school levels. Includes lesson plan, unit, and curriculum design, with peer teaching and a field experience. Offered in 2003-2004 and alternate years.

**KINE 320 *Anatomy and Physiology***

An introduction to the physiological processes and anatomical features of the body which are related to and affected by physical activity and training. It includes the study of the chemical organization, structure and function of cells and various support systems.

**KINE 320L *Anatomy and Physiology Lab***

Laboratory to accompany KINE 320. Models, dissections, and other media will be used to explore the structure and function of several support systems.

**KINE 330 *Structural Kinesiology***

Study of the muscular and skeletal systems as they are involved in the science of movement. Also, the mechanical principles underlying human performance will be addressed.

**KINE 330L *Structural Kinesiology Lab***

Laboratory to accompany KINE 330. Emphasis is given to demonstration of resistance exercise needed to develop, maintain, or rehabilitate the muscular system. Additionally, biomechanical analyses of sports skills will be addressed.

**KINE 350 *Physical Education for Elementary Education (W2)***

Principles and objectives of a developmentally appropriate physical education program for the elementary school student - what it is, how to design it, appropriate activities to use, how to teach it, and how to assess it. Emphasis on pedagogical physical education, knowledge of fundamental motor skills from a motor development perspective, adaptive techniques, knowledge of social, cognitive, and affective, development

of children; curriculum design and discipline and management of physical education classes. Will design lessons and teach in public schools for practical application. *Prerequisite: Have completed or take simultaneously KINE*

230

**KINE 360 *Physiology of Exercise (NS-L)***

This course is designed to enhance the student's ability to understand the acute and chronic physiological changes in response to exercise. Emphasis is placed on the practical application of exercise training for health, fitness and performance.

**KINE 360L *Physiology of Exercise Lab***

Laboratory to accompany KINE 360. Emphasis is given to the demonstration of physiological responses to exercise, as well as other laboratory procedures unique to sports science.

**KINE 400 *Administration of Health, Physical Education, and Recreation***

A study of various administrative philosophies and techniques used in educational and recreational settings. A study of the principles underlying the organization and administration of programs and health, physical education, and athletics in modern schools. *Prerequisite: KINE 100.*

**KINE 430 *Coaching Spring Sports***

A study of the rules, coaching and training techniques, and event management for baseball, track and field, tennis, and golf. Offered in 2003-2003 and alternate years.

**KINE 440 *Coaching Basketball***

A study of individual and team fundamentals, philosophies, basic offensive and defensive strategies, techniques and program organization, and administration. It also includes an overview of the coaching profession. Offered in 2003-2004 and alternate years.

**KINE 450 *Coaching Swimming***

Includes organization, administration, and philosophy of conducting a sound, competitive program. Emphasis will be placed on teaching the fundamentals of stroke technique, race strategies, training, and conditioning. Offered in 2000-2001 and alternate years.

**KINE 460 *Coaching Volleyball***

A study of organization, administration, and philosophy of coaching volleyball which includes the teaching of skills, offenses, defenses, conditioning, and management of a team to develop effective coaching techniques. (On demand)

**KINE 470 *Coaching Football***

Coaching football involves a thorough study of individual and team fundamentals, different philosophies of play, and coaching techniques. Topics will also include the organization and administration of an overall football program.

## LIBERAL STUDIES

Courses whose subject matter is multi-disciplinary and do not fit conveniently into existing academic disciplines or interdisciplinary programs may be listed as LBST.

### Courses

---

**LBST 100 *Journeys***

Journeys is a one-semester, common course required of all first-year students entering Hendrix College. It is grounded in the College's motto which (from Ephesians 4:13) may be translated as "toward a fulfilled person." The motto thus implies trajectory, a sense of movement or development, from one state of being or one way of living to another. It implies, in short, the notion of journey. This course takes the concept of journey as its touchstone and explores how different cultures and different peoples have made sense of their own life journeys.

The Journeys course is global in its perspective and interdisciplinary in its approach. For example, through an exploration of Homer's *Odyssey* and some of the dialogues of Plato we probe how the ancient Greeks conceived of human journeys, both physical and metaphorical. We turn then to China, examining "the ways" for human flourishing pioneered by Confucius and the Buddha. In both Islam and Christianity, we can trace adherents' spiritual journeys toward a relationship with the divine: to that end, we will study Islamic poetry and art, as well as the importance of the pilgrimage to Mecca, and we will encounter the mystical thought of Hildegard of Bingen. We explore journeys of a more contemporary nature by looking at Charles Darwin's *Voyage of the Beagle*, with its

subsequent influence on his theory of evolution, and by reading texts pivotal to the rise of modern democracy, including selections from Mary Wollstonecraft's *Vindication of the Rights of Woman*. We probe journeys of self-discovery, such as the one revealed in W.E.B. DuBois' *Souls of Black Folk* and the challenges faced by indigenous communities as they confront modernity. We will look, too, at the journeys toward independence made by nations and individuals as they have thrown off the yoke of imperialism—we look especially at the role of Gandhi in the move for Indian independence in the 20th century. The exact works and kinds of journeys we examine will no doubt evolve as the course changes over the coming years. But our goal will remain constant. We aim to challenge our students to examine a variety of human journeys, with the hope that they will come to understand different conceptions of human fulfillment and that they will reflect deliberately on the paths their own lives might take.

### **LBST 101 *Explorations: Liberal Arts for Life***

*Explorations: Liberal Arts for Life* is a one-semester common course required of all entering students in their first semester at the College. *Explorations* is designed to foster an ongoing engagement with the liberal arts experience, to facilitate the transition of new students to the Hendrix community, and to enhance students' potential for success in their collegiate studies. The course meets once a week and carries one-quarter (.25) course credit. Areas of study in *Explorations* include higher education and the liberal arts, the aims and expectations of the College, academic and career explorations, and self-inquiry and personal development. Additionally, the seminar focuses on refining student knowledge, perspectives and skills requisite to successful academic work and integration into the Hendrix community. Each new student will be enrolled in both a *Journeys* and an *Explorations* section. Academic components of *Explorations* may be linked to *Journeys* content, adding immediate relevance to these areas of study. In each *Explorations* section, instruction will be complemented by the presence of a second-year peer assistant who will be available to provide student perspective and assistance throughout the course.

### **LBST 200 *Vocation and Integrity: A Call to Wholeness (CW , VA)***

What does a life expressing wholeness look like? What are the joys and struggles of leading a life of commitment and integrity? What ultimately gives meaning to life? How is suffering overcome? What place do faith, love, justice, and friendship have in a meaningful vocation? How can one's life-work bespeak one's fundamental values? These and other questions

related to the search for a life well lived will be investigated in this interdisciplinary course sponsored by the Hendrix-Lilly Vocations Initiative. Biographies and autobiographies, as well as other literary, philosophical, and artistic forms, are selected for study by the course faculty.

**LBST 400 *Propylaea***

To cultivate intellectual and aesthetic curiosity, a student may attend and evaluate 60 intellectual and cultural events, including Murphy Foundation programs, Steel Center events, Special Events programs, convocations, theatre productions, and others. Students may register for *Propylaea* through the Student Activities Office at the onset of any term. Students who complete LBST 400 *Propylaea* receive one course credit.

**LBST 410 (LS)**

This course, under the sponsorship of the Hendrix-Murphy Foundation, is a study of literary, musical, and art works selected by the course faculty. The works have been chosen both for their intrinsic merit and for the opportunities they afford in the teaching and learning of reading, writing, and critical discussion skills. As the cultivation of interdisciplinary perspective is one of the aims of this course, selections are intentionally diverse. Students and faculty will discuss these works both orally and in writing, aiming in these processes to improve their skills of analysis, synthesis, and expression. The Master Works course is designed to be a culminating educational experience, an enjoyable and stimulating exercise of skills acquired at Hendrix.

# LITERATURE IN TRANSLATION

Courses whose subject matter is multi-disciplinary and do not fit conveniently into existing academic disciplines or interdisciplinary programs may be listed as LITR.

### **LITR 460 *Topics in French Literature (LS)***

This course explores an author, movement, or genre in depth. Topics may be selected from among the following French literature and film: Women Writers of French or The French Short Story. Coursework will be completed in English. *Cross-listed as FREN 260.*

# MATHEMATICS AND COMPUTER SCIENCE

Professors Collins and Eslinger  
Associate Professors Barel (chair), Kooshesh, and D.  
Sutherland  
Assistant Professors Campbell and Ferrer

The Department of Mathematics and Computer Science offers a major in Mathematics, a major in Computer Science, and minors in Mathematics and in Computer Science. A student may double major in Mathematics and Computer Science or major in one discipline and minor in the other. Three years of high school mathematics, including two years of algebra and one year of geometry, or equivalent preparation, are necessary for all courses offered in the Department. Trigonometry/Precalculus is strongly recommended. A student who studied calculus

before enrolling in Hendrix College may receive course credit for MATH 130 *Calculus I* if he or she takes MATH 140 *Calculus II*, with consent of the instructor, and passes it with a grade of "C" or better.

### AP Credit

**MATHEMATICS:** A student who scores a 4 or higher on the Calculus AB exam or a 3 or higher on the Calculus BC exam will be given course credit for MATH 130 *Calculus I*. In addition, a student scoring 4 or higher on the Calculus BC exam will be given course credit for MATH 140 *Calculus II*.

**COMPUTER SCIENCE:** A student who scores a 4 or higher on the Computer Science AB exam or a 3 or higher on the Computer Science BC exam will be given course credit for CSCI 150 *Foundations of Computer Science I*. In addition, a student scoring 4 or higher on the Computer Science BC exam will be given course credit for CSCI 151 *Foundations of Computer Science II*.

### MAJOR IN MATHEMATICS

11 courses distributed as follows:

- MATH 130 *Calculus I*
- MATH 140 *Calculus II*
- MATH 240 *Discr ete Mathematics*
- MATH 290 *Intr oduction to Advanced Mathematics*
- One of the following two-course sequences:
  - MATH 320 *Algebra* and MATH 420 *Seminar in Algebra*
  - MATH 350 *Real Analysis* and MATH 450 *Seminar in Analysis*
- two courses chosen from the following:
  - any mathematics courses listed 200 or above,
  - CSCI 151 *Foundations of Computer Science II*
  - CSCI 380 *Theory of Computation*
  - ECON 300 *Intermediate Microeconomics*
  - ECON 430/530 *Management Science*
  - PHYS 380 *Classical Mechanics*
- three additional courses chosen from the following:
  - any mathematics courses listed 300 or above;
  - CSCI 380 *Theory of Computation*

Each senior major must also enroll in the year-long MATH 497 *Senior Seminar* . A working knowledge of a high-level computer language such as C++ or Java is strongly recommended.

## MAJOR IN COMPUTER SCIENCE

12 courses distributed as follows:

- CSCI 150 *Foundations of Computer Science I*
- CSCI 151 *Foundations of Computer Science II*
- MATH 130 *Calculus I*
- CSCI 250 *Programming Practicum*
- CSCI 280 *Algorithms and Problem Solving Paradigms*
- MATH 240 *Discrete Mathematics*
- CSCI 330 *Computer Organization and Architecture*
- CSCI 360 *Survey of Programming Languages*
- MATH 140 *Calculus II*

or

- CSCI 380 *Theory of Computation*
- CSCI 420 *Operating Systems and Concurrent Computing*
- CSCI 480 *Parallel and Distributed Computing*
- CSCI 350 *Software Engineering*

or

CSCI 340 *Database Systems*

Each senior major must also enroll in the year-long CSCI 497 *Senior Seminar* .

## MINOR IN MATHEMATICS

Six courses distributed as follows:

- MATH 130 *Calculus I*
- MATH 140 *Calculus II*
- MATH 240 *Discrete Mathematics*
- MATH 290 *Introduction to Advanced Mathematics*
- one mathematics course listed 200 or above
- one mathematics course listed 300 or above

## MINOR IN COMPUTER SCIENCE

Six courses distributed as follows:

- CSCI 150 *Foundations of Computer Science I*
- CSCI 151 *Foundations of Computer Science II*

- MATH 130 *Calculus I*
- CSCI 250 *Programming Practicum*
- MATH 240 *Discrete Mathematics*

**and**

CSCI 280 *Algorithms and Problem Solving Paradigms*

two computer science courses listed 300 or above

## Senior Capstone Experience

The Senior Capstone Experience for the computer science major and the mathematics major consists of an undergraduate research portfolio and participation in two semesters of the Senior Seminar course. MATH 497 *Senior Seminar* and CSCI 497 *Senior Seminar* are non-credit courses that meet weekly to guide students through the process of developing a senior undergraduate research project. The undergraduate research portfolio consists of the senior project and any other research projects completed by the student outside of regular course work. The grade for the Senior Capstone Experience is based on the portfolio and an oral presentation of the senior project.

---

## Mathematics Courses

---

### **MATH 110** *Journey through Mathematics (HP, QS)*

An historical survey of mathematical ideas (arithmetic, geometry, algebra) in various cultural contexts. The emphasis is on the mathematical content.

**Note:** This course is not available for credit to students who had MATH 130 or equivalent. These students are referred, instead, to MATH 280.

*Prerequisite:* LBST 100.

### **MATH 115** *Mathematics in Contemporary Issues (CW, QS, SB)*

A survey of problems of social conflict, fairness, and uses of mathematics in the modern world, emphasizing mathematical analysis of political and social structures. Topics may include voting methods, power distributions, apportionment, fair division, graph theory, coding theory, and scheduling problems.

**MATH 120 *Functions and Models* (QS)**

Study of algebraic, trigonometric, exponential and logarithmic functions within the context of mathematical modeling.

**MATH 130 *Calculus I* (QS, NS)**

Study of limits, differentiation, and integration of functions of one variable. *Prerequisite:* MA TH 120 or its equivalent.

**MATH 140 *Calculus II* (QS, NS)**

Further aspects of integration of functions of one variable. Infinite series. *Prerequisite:* MA TH 130 or advanced placement.

**MATH 195 *Mathematical Problem Solving***

Practical sessions in solving challenging problems in mathematics (possible sources: periodicals, problem collection books, or Putnam exams). The class meets biweekly to discuss solutions and receive new assignments. Most problems are solved between sessions, individually or in groups. A student receives one course credit after four semesters of successful problem solving. *Prerequisite:* MA TH 130 or consent of instructor.

**MATH 230 *Multivariable Calculus***

Vectors and coordinate systems in two and three dimensions, vector-valued functions, functions of several variables, extrema, multiple integrals, vector fields, including fundamental theorems of vector calculus. This course will have an emphasis on developing geometric intuition. Offered in alternate years. *Prerequisite:* MA TH 140 or consent of instructor.

**MATH 240 *Discrete Mathematics* (NS)**

An introduction to the discrete paradigm in mathematics and computer science. Topics included are induction, recursion, logic, algorithmic problem-solving, graph theory, number theory, and counting techniques. *Prerequisite:* MA TH 130 or consent of instructor.

**MATH 260 *Differential Equations* (NS)**

Study of ordinary differential equations and systems of equations, through the use of analytic, qualitative/ geometric, and numerical techniques. Applications from physics, biology, chemistry, engineering, economics, and psychology will be presented. *Prerequisite:* MA TH 140.

**MATH 270 *Linear Algebra* (NS)**

Solving linear systems, matrix algebra, vector spaces and linear transformations, eigenvectors, orthogonality. *Prerequisite:* MA TH 130.

**MATH 280 *History of Mathematics (HP , W2)***

A survey of mathematical ideas and discoveries in their historical context. The course combines mathematics (proofs and problems) with readings on its development. Offered in alternate years. *Prerquisite:* MA TH 130 or consent of instructor.

**MATH 290 *Introduction to Advanced Mathematics (W2)***

Fundamentals of set theory, logic, and functions. Emphasis is on developing the students' theorem-proving skills, independent work, written and oral communication skills, and ability to critique others' work. *Prerquisite:* MA TH 140 and completion of or concurrent enrollment in MA TH 240.

**MATH 310 *Mathematical Probability and Statistics I***

Theory of probability and mathematical statistics including an introduction to descriptive statistics and exploratory data analysis, basic concepts of probability theory, discrete and continuous random variables, special distributions, moment-generating functions, multivariate distributions, sampling distribution theory, and the Central Limit Theorem. Offered in alternate years. *Prerquisite:* MA TH 140.

**MATH 320 *Algebra***

Introduction to classical algebraic systems and their morphisms. Topics include groups, rings, fields, substructures, ideals, homomorphisms, and quotients. Offered in alternate years. *Prerquisite:* MA TH 290.

**MATH 340 *Combinatorics***

Continues the ideas of counting, graph theory, and algorithms from Mathematics 240. Topics may include Ramsey Theory, designs, coding theory, generating functions, and optimization. Offered in alternate years. *Prerquisite:* MA TH 240.

**MATH 350 *Real Analysis***

A rigorous study of the structure of the real line and the properties of real-valued functions. Topics include sequences, limits, continuity, differentiability, and integrability. Offered in alternate years. *Prerquisite:* MATH 290.

**MATH 410 *Mathematical Probability and Statistics II***

Continuation of Probability and Statistics I including the theory of statistical inference, point estimation, confidence intervals, regression, hypothesis testing, and analysis of variance. Offered in alternate years. *Prerquisite:* MA TH 310.

**MATH 420 Seminar in Algebra**

Algebraic topics that extend the fundamental ideas in MATH 320 will be presented. Offered in alternate years. *Prerequisite:* MA TH 320.

**MATH 450 Seminar in Analysis**

Analytic topics that extend the fundamental ideas in Mathematics 350 will be presented. Offered in alternate years. *Prerequisite:* MA TH 350.

**MATH 490 Advanced Topics in Mathematics**

Faculty-student seminar. Content will vary according to the interests of the participants and instructor. Past offerings include Great Theorems in Mathematics and Their Proofs, Dynamical Systems, Number Theory, Topology, Wavelets and Wavelet Transforms, Complex Variables, and Introduction to Category Theory. *Prerequisite:* consent of instructor.

**MATH 497 Senior Seminar**

A required seminar for all senior mathematics majors which meets throughout the academic year. Each student will develop an individual research project under the direction of a faculty member and present the results both orally and in written form.

## Computer Science Courses

---

**CSCI 135 Robotics Exploration Studio (NS-L)**

Introduction to mechanical design and computer programming in the context of building and programming mobile robots. Mechanical design topics will include vectors and forces, Newton's Laws, gears, motors, rotational motion, friction, and the design process. Computer science topics will include an introduction to programming, the programming of sensors and motors, and an introduction to artificial intelligence. Other topics include application of scientific method, teamwork skills, technical writing, and the relationship between the science fiction portrayal of robots and current technological reality. Cross-listed as PHYS 135.

**CSCI 150 Foundations of Computer Science I (QS, NS)**

Introduction to computer programming, the process of designing and constructing software. It emphasizes techniques for object oriented design and software development by means of an introduction to the features of the programming language Java, including the notion of classes, and computation due to the interaction between classes. The course also covers some of the most fundamental data structures and algorithms that are useful in Computer Science.

**CSCI 151 Foundations of Computer Science II (NS)**

Builds on the skills acquired in *Foundations of Computer Science I*, placing special emphasis on object oriented software design and data abstraction. Students are introduced to some of the most important and frequently used data structures: lists, stacks, queues, trees, graphs, and programming techniques such as recursion. Other topics covered include analysis of algorithm complexity, program verification, and simulations. Programming assignments focus on the design and implementation of algorithms and data structures. *Prerequisite: CSCI 150 and either completion of* *orenr 011mentinMA TH130.*

**CSCI 250 Programming Practicum (NS)**

Introduction to the C++ programming language in the context of building the tools and Other computer science concepts necessary for the development of large software systems. These range from an introduction to UML and design patterns to the learning of make files and sockets. *Prerequisite: CSCI 151.*

**CSCI 280 Algorithms & Problem Solving Paradigms (W2)**

Introduction to several algorithm design strategies that build on data structures and programming techniques introduced in the first three computer science courses. These include: divide-and-conquer, dynamic programming, and greedy algorithms. Particular topics to be considered will include shortest path and other network problems; problems in computational geometry; searching, sorting and some advanced data structures such as balanced binary search trees, heaps, hash-tables, and union-find structures. In addition, an introduction to complexity theory and the complexity classes P and NP will be provided. *Prerequisites: CSCI 151 and MA TH240.*

**CSCI 330 Computer Architecture and Organization**

A study of the design concepts of major importance in modern computers. Topics will include microprogramming, language-directed computers, parallel processors, and pipeline computers. Emphasis will be placed on the relationship of architecture to programming issues. *Prerequisite: CSCI 250.*

**CSCI 340 Database Systems**

Introduction to the theoretical and practical aspects of database management systems. Emphasis is on the relational data model. Topics covered include query languages, relational design theory, file structures, and query optimization. Students will implement a database application using Oracle or MySQL, Java Applets, and Servlets. *Prerequisite: CSCI 280.*

**CSCI 350 *Software Engineering (W2)***

In this course, students learn and gain practical experience with software engineering principles and techniques. The practical experience centers on a semester-long team project in which a software development project is carried through all of the stages of the software lifecycle. Topics in this course include requirements analysis, specification, design, abstraction, testing, and maintenance. Particular emphasis is placed on designing and developing maintainable software and on the use of object-oriented techniques throughout the software lifecycle. *Prerequisite: CSCI 250.*

**CSCI 360 *Survey of Programming Languages (W2)***

Concepts and structures governing the design and implementation of modern programming languages. Introduction to concepts of compilers and run-time representations of programming languages. Features of programming languages supporting abstraction. Programming language paradigms including procedural, functional programming, object-oriented programming, logic programming, polymorphism, and concurrency will be covered. *Prerequisite: CSCI 280.*

**CSCI 380 *Theory of Computation***

Covers basic topics in automata, computability, and complexity theory, including: models of computation (finite automata, Turing machines and RAMs); regular sets and expressions; recursive, r.e., and non-r.e. sets and their basic closure properties; complexity classes; determinism vs. non-determinism, with and without resource bounds; reductions and completeness; practice with NP- and P-completeness proofs; and the complexity of optimization and approximation problems. *Prerequisite: MATH240.*

**CSCI 420 *Operating Systems and Concurrent Computing***

Basic principles of modern operating systems design: emphasis on concurrency including problems (nondeterminism), goals (synchronization, exclusion) and methods (semaphores, monitors); resource management including memory management and processor scheduling; file systems; interrupt processing; multithreaded programming. *Prerequisite: CSCI 280.*

**CSCI 480 *Parallel and Distributed Systems***

An introduction to the fundamentals of parallel and distributed processing. Investigations into parallel programming issues and models: control parallel, data parallel, and data flow. Programming projects in this course will include the use of departmental cluster of computers. *Prerequisite: CSCI 420.*

### **CSCI 490 *Advanced Topics in Computer Science***

Faculty-student seminar. Content will vary according to the interests of the participants and instructor. *Prerequisite:* consent of instructor.

### **CSCI 497 *Senior Seminar***

A required seminar for all senior computer science majors which meets throughout the academic year. Each student will develop an individual research project under the direction of a faculty member and present the results both orally and in written form.

## **MUSIC**

Professors N. Fleming, Griebeling, and Herrick  
Associate Professors Boehm (chair), and Krebs  
Assistant Professor Stern

### **MAJOR**

- MUSI 101 *Introduction to Music Studies*
- MUSI 201 *Basic Musicianship Skills*
- MUSI 202 *Introduction to Diatonic Harmony*
- MUSI 301 *Introduction to Chromatic Harmony and Twentieth-Century Practices*
- MUSI 302 *Form and Analysis in Western Music*
- MUSI 401 *Medieval, Renaissance, and Baroque Music*
- MUSI 402 *Classic, Romantic, and Modern Music*
- MUSI 497 *Senior Seminar*
- four course credits worth of music electives
- six semesters of applied music in the major instrument or voice (either MUSA 300 or MUSA 400) and
- six semesters of the appropriate ensemble (MUSA 200);
- six semesters of recital attendance (MUSA 100)

### **MINOR**

- MUSI 101 *Introduction to Music Studies*
- **or**
- MUSI 150 *Survey of Western Classical Music*
- MUSI 201 *Basic Musicianship Skills*

- MUSI 202 *Introduction to Diatonic Harmony*
- One music history/literature class from the following:
  - MUSI 250 *Introduction to Opera*
  - MUSI 260 *Introduction to Twentieth-Century Music*
  - MUSI 270 *Survey of Global Musics*
  - MUSI 280 *Topics in Music Literature*
  - MUSI 401 *Medieval, Renaissance, and Baroque Music*
  - MUSI 402 *Classic, Romantic, and Modern Music*
- one course credit of private applied study (either MUSA 300 or MUSA 400)
- one elective

## Senior Capstone Experience

The Senior Capstone Experience for the music major consists of a comprehensive examination and a senior project. The comprehensive exam is the standardized Major Field Achievement Test (MFAT). The senior project may take the form of a research paper, a lecture recital, a portfolio of original compositions, or a recital accompanied by written program notes. Preparation for this project is a part of MUSI 497 *Senior Seminar*. In the space reserved for the Senior Capstone Experience, transcripts for music majors will contain two grades, a grade received for the MFAT and a grade received for the senior project.

---

## Courses

---

### **MUSI 100 *Music Fundamentals* (EA)**

Introduction to basic skills in reading and writing musical notation as regards pitch and rhythm. Introduction to keyboard and sight-singing skills. Designed for students who do not read music.

### **MUSI 101 *Introduction to Music Studies* (EA)**

A course intended for music majors, music minors, and students contemplating the music major. An introduction to skills required for advanced music study and success in professional music careers. Emphasis on research, oral and written communication, and the acquisition of appropriate listening skills, through the study of music literature.

**MUSI 150 *Survey of Western Classical Music (EA)***

A course designed to develop skills in listening to music and to introduce selected areas in the literature of Western art music.

**MUSI 190 *The Alexander Technique***

A study of the movement and coordination of the Alexander Technique and their application to performance and general activity.

**MUSI 201 *Basic Musicianship Skills (EA)***

Harmonic, melodic, and rhythmic principles of tonal music. Development of ear training and music writing skills. Sight-singing and keyboard lab. Students may elect to test out of MUSI 201 and receive credit upon successful completion of MUSI 202. *Prerequisite: MUSI 100 or successful completion of a placement exam. Corequisite: Concurrent enrollment in MUSA 300 voice and/or piano lessons as needed.*

**MUSI 202 *Introduction to Diatonic Harmony (EA)***

Continues the development of solfege, aural, composition, and keyboard skills begun in MUSI 201, and introduces the principles of diatonic harmony, counterpoint, and structural analysis. Lab. *Prerequisites: MUSI 201 and MUSA 300 piano (or equivalent).*

**MUSI 240 *Pedagogy (EA)***

A study of the principles and techniques of teaching applied music. Offered as needed.

**MUSI 250 *Introduction to Opera (EA, W2)***

An introduction to some of the major works in the active operatic repertoire. Designed for all students.

**MUSI 260 *Introduction to Twentieth-Century Music (EA)***

An introduction to aspects of classical music of the twentieth century as seen from selected works dating from the late nineteenth century through the early twenty-first century. Designed for all students.

**MUSI 270 *Survey of Global Musics (CW, EA, W2)***

Develops listening and communication skills through the study of selected folk musics and cultures around the world including those of Africa, Asia, Europe, and Native and Ethnic America. Field study, research, written projects, and oral presentations emphasized. No prerequisite, although an introductory music, anthropology, or sociology course may be helpful. Offered in alternate years.

**MUSI 280 Topics in Music Literature (EA)**

An introduction to individual composers, specific musical genres, or the art music of a particular country. Designed for all students.

**MUSI 301 Introduction to Chromatic Harmony and Twentieth-Century Practices (EA)**

Continues the development of solfege, aural, composition, and keyboard skills, and introduces the principles of chromatic and twentieth-century harmony, counterpoint, and structural analysis. Lab. Offered in alternate years. *Prerequisite: MUSI 202.*

**MUSI 302 Form and Analysis in Western Music (EA)**

Form and analysis of music. Offered in alternate years. *Prerequisite: MUSI 301.*

**MUSI 310 Conducting (EA)**

A study of the basic principles and techniques of conducting with emphasis on manual technique. Offered in alternate years. *Prerequisite: MUSI 202 or per mission of instructor .*

**MUSI 340 Choral Literature and Techniques (EA)**

A study of choral literature, choral programming, selected conducting problems in choral music, and various aspects of administration related to choral ensembles. Offered as needed. *Prerequisite: MUSI 310 and permission of instructor .*

**MUSI 350 Instrumental Literature and Techniques (EA)**

A study of instrumental music literature, performance practice, conducting, and pedagogy. Offered as needed. *Prerequisite: MUSI 310 and per mission of instructor .*

**MUSI 360 Instrumental Methods (EA)**

A study of instrumental performance techniques for winds, strings, and percussion. Offered as needed.

**MUSI 370 Composition I (EA)**

Introduces principles of compositional craft, listening skills, and musical philosophies, and develops musical creativity through written projects, score study, readings, and listening assignments. Required before the senior year for students pursuing a senior project in composition. Offered in alternate years. *Prerequisite: MUSI 201 and per mission of instructor .*

**MUSI 380 *Composition II* (EA)**

Continuation of MUSI 370. Offered in alternate years. *Prerequisite: MUSI 370 and permission of instructor.*

**MUSI 401 *Medieval, Renaissance, and Baroque Music* (EA, HP , W2)**

A study of the history and literature of Western art music from Antiquity through the Baroque period. Offered in alternate years. *Prerequisite: Permission of instructor or either MUSI 101 or MUSI 150.*

**MUSI 402 *Classic, Romantic, and Modern Music* (EA, HP , W2)**

A study of the history and literature of Western art music of the late eighteenth through early twenty-first centuries. Offered in alternate years. *Prerequisite: Permission of instructor or either MUSI 101 or MUSI 150.*

**MUSI 430 *Orchestration* (EA)**

Introduces the timbres of standard orchestral instruments and techniques of effective writing for various instrumental combinations. Offered every four years. Recommended elective for students pursuing a senior project in composition. *Prerequisite: MUSI 202.*

**MUSI 440 *Counterpoint* (EA)**

Development of principles introduced in MUSI 202 using a standard species approach to contrapuntal techniques. Offered every four years. Recommended elective for students pursuing a senior project in composition or music theory. *Prerequisite: MUSI 202.*

**MUSI 497 *Senior Seminar***

A culminating seminar course for music majors intended to synthesize analytical techniques, stylistic sensitivity, and interpretive or creative skills. Emphasis on oral and written communication. A primary focus will be the preparation of the senior project. *Prerequisite: senior standing.*

## Lessons and Ensembles

---

Students interested in taking private music lessons and/or participating in any music ensemble should not pre-register. Instead, they should contact the appropriate member of the music faculty during the week of orientation and registration in the fall or during the first week of classes in the spring. Ensembles and lessons are open to all Hendrix students regardless of major.

The grade earned in each semester of a Music Activity class is included in the computation of the student's grade point average. However, to receive one complete course credit towards graduation, students must complete either

- a. four activity courses at the 200- or 300-level, or
- b. two activity courses at the 400-level, or
- c. one activity course at the 400-level and two at the 200- or 300-level.

A complete course credit earned in this manner may be used to satisfy the Expressive Arts Domain, except in the case where the student has opted to take a MUSA 300 private lesson as an activity credit with no grade.

Any number of individual activity courses may be taken by a student. However, non-music majors may count only two course credits from music activity courses toward graduation. Music majors may earn up to two additional course credits toward graduation (for a total of four) from music activity classes.

### **MUSA 000 *Non-Credit Music Ensembles***

The following music ensembles are open to all students by permission of the instructor. No credit is offered for participation in these ensembles.

**Chamber Chorale.** Chosen from the membership of the Choir, the Hendrix College Chamber Chorale is a small select group that specializes in vocal chamber works from the Renaissance to the present. The Chamber Chorale rehearses two hours weekly.

*Prerequisite: concurrent participation in Choir.*

**Women's Ensemble.** Open to all women without audition, the Women's Ensemble performs music of all styles for treble voices. The ensemble rehearses two hours weekly.

**Opera Scenes.** The Music Department presents a recital of operatic scenes each spring.

**Jazz Ensemble.** The Hendrix College Jazz Ensemble is open to musicians interested in performing jazz literature that ranges from big band arrangements to progressive jazz. The ensemble rehearses ninety minutes weekly. *Prerequisite: concurrent participation in Wind Ensemble.*

**Chamber Players.** Chamber music ensembles at Hendrix such as string quartet, brass quintet, woodwind quintet, and percussion ensemble. Offered as needed. These groups rehearse weekly.

**Pep Band.** Performs at home basketball games.

### **MUSA 100 *Recital Attendance***

In order to broaden their understanding of the protocol and challenges of concert work and to gain a deeper acquaintance with the literature, music majors are required to attend a minimum of seven department-sponsored concerts and recitals during each of six semesters. Although no course credit is awarded for this requirement, attendance will be monitored, and each successfully completed semester will be recorded on the student transcript.

### **MUSA 200 *Music Ensembles (EA)***

MUSA 200 activity courses must be taken for a grade.

**Choir.** Open to all students by audition, the Choir performs standard choral repertoire from all stylistic periods. The ensemble performs both on campus and on tours within Arkansas and to neighboring states. The Choir rehearses 80 minutes three times weekly.

**Chamber Orchestra.** The Hendrix College Chamber Orchestra is open to orchestral string, wind, keyboard, and percussion instrumentalists with appropriate music background and reading skills. The group performs classical repertoire from all orchestral style periods on at least one concert each semester. The Chamber Orchestra rehearses 80 minutes three times weekly.

**Wind Ensemble (Band).** Open to all woodwind, brass, and percussion players on the campus, the Hendrix Wind Ensemble (Band) performs a wide variety of standard wind-ensemble and symphonic-band literature, orchestral transcriptions, and popular arrangements. The ensemble performs both on campus and on tour in Arkansas and surrounding states. The Wind Ensemble rehearses 80 minutes three times weekly.

**Accompanying.** Piano students may receive MUSA 200 credit if they rehearse and accompany lessons for at least four hours each week during the course of a semester.

### **MUSA 300 *Applied Music (EA)***

One half-hour instruction weekly. Fee: Private instruction—\$150 per semester; class instruction \$100 per semester. Fee will be waived for

students who must study piano or voice in order to complete MUSI 201 or MUSI 202 successfully. Private and class instruction in piano, organ, classical guitar, voice, and string, wind, and percussion instruments. Adequate piano proficiency is a prerequisite for organ study. Three hours practice (30 minutes daily for six days) required each week. Nonmajors and music majors taking MUSA 300 in a secondary area may elect to take MUSA 300 for an activity credit with no grade.

### **MUSA 400 *Applied Music* (EA)**

One hour instruction weekly. Fee: \$300 per semester. Private instruction in piano, organ, classical guitar, voice, and string, wind, and percussion instruments. Adequate piano proficiency is a prerequisite for organ study. Six hours practice (60 minutes daily for six days) required each week.

Students may enroll in MUSA 400 *only after successful completion of an audition* before the music faculty. MUSA 400 is intended primarily for music majors and minors. After successful completion of the audition, nonmajors may enroll in MUSA 400 if there is space available. MUSA 400 must be taken for a grade.

### **Proficiency**

All music majors are required to pass proficiency examinations in piano, solfege, and aural skills. Music majors are required to attempt these exams no later than the semester in which MUSI 302 is completed. Students who are unable to pass the piano proficiency exam are required to study piano and take the proficiency examination each successive term until this requirement is met. Students who are unable to pass the solfege and aural skills exams are required to take these exams each successive semester until these requirements are met. No grade will be awarded for MUSI 302 until all three examinations are passed.

# PHILOSOPHY

Professors Falls-Corbitt, Schmidt (chair),  
and Churchill (on leave)  
Associate Professors Ablondi and Campolo

## MAJOR IN PHILOSOPHY

Ten courses distributed as follows:

- PHIL 285 *Plato and Aristotle*
- PHIL 295 *Seventeenth and Eighteenth Century Philosophy*
- PHIL 300 *Nineteenth Century Philosophy*
- PHIL 390 *Junior Research Seminar*
- PHIL 497 *Senior Thesis*
- Five other philosophy courses, at least two of which must be 300-level or above. Topics not covered in courses described below are available to majors through individually arranged independent studies.

## MINOR IN PHILOSOPHY

- PHIL 285 *Plato and Aristotle*
- PHIL 295 *Seventeenth and Eighteenth Century Philosophy*
- PHIL 300 *Nineteenth Century Philosophy*
- three other philosophy courses, at least one of which must be 300-level or above.

## PHILOSOPHY AND RELIGION MAJOR

A total of ten courses in philosophy and religion to include:

- no fewer than four courses in philosophy
- two must be chosen from
  - PHIL 285 *Plato and Aristotle*
  - PHIL 295 *Seventeenth and Eighteenth Century Philosophy*
  - PHIL 300 *Nineteenth Century Philosophy*
- No fewer than four courses in religion
- PHIL 370/RELI 370 *Philosophy of Religion*
- PHIL 497 *Senior Thesis*    **or**    RELI 497 *Senior Seminar*
- at least four other courses 200-level or above.

Philosophy and Religion majors cannot major or minor in either philosophy or religion.

## Courses

---

**PHIL 110 *Introducing Philosophical Questioning (VA)***

Study centering on a particular theme or question. Reading and understanding philosophical texts will be introduced; in discussions and essays philosophical questioning will be practiced.

**PHIL 120 *Critical Reasoning***

An investigation into the varieties of reasoning, with concentration on the comprehension, evaluation, and construction of arguments. By analyzing examples of reasoning drawn from everyday life, the media, and different academic disciplines, students will develop the skills and vocabulary required to articulate how reasoning works and to make reasoning an effective tool for gaining knowledge and participating in public discourse.

**PHIL 150 *Introduction to Logic***

Emphasis upon the development of a symbolic system for sentential logic. Some aspects of traditional and informal logic receive brief treatment.

**PHIL 215 *Ethics and Society (CW , VA)***

The philosophical analysis and evaluation of selected controversies related to the use of law and political systems to create and sustain just social conditions. The typical sort of issues studied would be: poverty and world hunger, racism, the death penalty, civil disobedience, and conflicts over the protection of fundamental rights such as freedom of speech, freedom of religion, and privacy.

**PHIL 225 *Ethics and Medicine (CW , VA)***

The philosophical analysis and evaluation of selected controversies related to the practice of medicine. The typical sort of issues to be studied would be: abortion, termination of treatment, physician-assisted suicide, the use of reproductive and genetic technologies, and the just allocation of limited medical resources.

**PHIL 240 *Existentialism (VA)***

An introductory study of existentialism through readings in literature and philosophy. Typically with selections from Kierkegaard and Nietzsche to Heidegger, Sartre, and Jaspers. The modern predicament of the human being will be examined and possible solutions sought.

**PHIL 250 *Philosophies of India (VA)***

Presentation of the major philosophies of the Indian sub-continent in their historic and cultural contexts. In addition to readings from the Vedic and Epic periods, the systems of Jainism, Buddhism, Nyaya, Vaisesika, Samkhya, Yoga, and Vedanta will usually be discussed, sometimes with emphasis placed on one school or text.

**PHIL 260 *Philosophies of China and Japan (VA)***

Presentation of the major philosophies of China in their historical and cultural contexts, including Confucianism, Taoism, and Buddhism, as well as an examination of neo-Confucianism and the tradition of Zen Buddhism in Japan.

**PHIL 270 *Environmental Philosophy (CW , VA)***

Study of particular themes related to an understanding of the relation of humans to the environment. Some years will focus on a particular area, such as environmental ethics, philosophies of technology, or philosophies of nature.

**PHIL 285 *Plato and Aristotle (VA)***

Study of the two great systematic philosophers of ancient Greece, with attention to the development of their thought in subsequent periods and to the contemporary philosophical debates which they influence.

**PHIL 295 *Seventeenth and Eighteenth Century Philosophy (VA)***

Study of philosophers and philosophical systems of the Enlightenment: Rationalism, Empiricism, and Kant.

**PHIL 300 *Nineteenth Century Philosophy (VA)***

Study of Hegel and the reactions to his system in Marx, Mill, the American Pragmatists, and Nietzsche. *Prerequisite: PHIL 285 or 295, or consent.*

**PHIL 310 *Feminist Thought (CW , VA)***

Study of women's experience under patriarchy and of the philosophical, theological, and social criticisms arising therefrom.

**PHIL 315 *Ethics and Relations to Friend, Kin, and Community (CW , VA)***

The philosophical analysis and evaluation of ethical issues pertinent to establishing and maintaining the goods of friendship, family, and community. This course will examine such questions as these: What virtues make flourishing relationships possible? What vices make them impossible? When, if ever, is respecting one another's rights not enough?

Is “love” always enough? What are the ethical boundaries of different kinds of love? What moral obligations are entailed by our powers as sexual, procreative beings?

**PHIL 330 *Ethical Theory (VA)***

Study and evaluation of the major ethical theories that are structuring the context of our contemporary moral debates, regardless of the concrete issue at stake. The course focuses upon understanding and comparing theories about what principles should guide human action, what kind of living constitutes the truly good life, and in what sense judgments regarding moral value have “objective” answers.

**PHIL 340 *American Philosophy (VA)***

Study of particular philosophers or philosophical systems associated with the history of philosophy in the United States and their relations to European philosophies. *Recommended: PHIL 295 or 300.*

**PHIL 360 *Social and Political Philosophy (VA, W2)***

Study and evaluation of the major philosophical theories and controversies shaping our contemporary political debates over such issues as the nature of social and economic justice, the meaning of equality, the limits of individual freedom, the sources of political obligation, and the characteristics of a well ordered society.

**PHIL 370 *Philosophy of Religion (VA)***

Study and evaluation of classical and contemporary arguments regarding such issues as the nature and existence of God, the nature of religious faith and its relationship to reason, the meaning and epistemic value of religious experience, the “problem of evil,” and the relationship between religion and morality. Cross-listed as RELI 370.

**PHIL 390 *Junior Research Seminar (VA, W2)***

Through a historically-based examination of a particular topic in Western Philosophy, students will develop and practice research skills necessary for advanced philosophical writing. Open only to philosophy majors, philosophy and religion majors, and philosophy minors.

**PHIL 410 *Early Analytic Philosophy (VA)***

Study of some of the major issues in 20th century analytic philosophy up to about 1960 through an examination of philosophers such as Frege, Russell, Moore, Wittgenstein, Carnap, Quine, and Austin. *Prerequisite: previous course in philosophy or consent of instructor.*

**PHIL 420 *Contemporary Analytic Philosophy* (VA, W2)**

Study of some of the more important thinkers in recent Anglo-American Philosophy, including philosophers such as Quine, Davidson, Rorty, Putnam, Kripke, and Lewis. *Prerequisite: a previous course in philosophy or consent of instructor.*

**PHIL 450 *Philosophy of Science* (VA)**

Philosophical issues related to science and the scientific method with readings from Hempel, Popper, Kuhn, and others. *Recommended: major in philosophy or science.*

**PHIL 480 *Philosophy of Mind* (VA)**

Study and evaluation of contemporary theories concerning the status of the mind and its contents. Typically, aspects of property dualism, reductive materialism, functionalism, and eliminative materialism will be discussed. *Prerequisite: a previous course in philosophy or consent of instructor.*

**PHIL 490 *Special Topics***

Selected studies of major philosophers or philosophical concerns. At least one topic will be offered each academic year. *Prerequisite: a previous course in philosophy or consent of instructor.*

**PHIL 497 *Senior Thesis***

Students in consultation with a professor will research, write, and defend a substantial paper on a topic of their choosing. Open only to philosophy and philosophy-and-religion majors in their senior year.

## MAJOR

13 courses distributed as follows:

### Physics (8)

- PHYS 210 *General Physics I*

**or**

PHYS 230 *General Physics I (Calculus-based)*

- PHYS 220 *General Physics II*

**or**

PHYS 240 *General Physics II (Calculus-based)*

- PHYS 305 *Vibrations and Waves*
- PHYS 315 *Modern Physics*
- PHYS 340 *Electronics*

**or**

PHYS 350 *Advanced Experimental Laboratory*

- three courses selected from
- PHYS 320 *Electrodynamics*
- PHYS 330 *Quantum Mechanics*
- PHYS 370 *Thermodynamics*
- PHYS 380 *Classical Mechanics*

### Mathematics (3)

- MATH 130 *Calculus I*
- MATH 140 *Calculus II*
- MATH 260 *Differential Equations*

### Chemistry (2)

- CHEM 110 *General Chemistry I: Chemical Structure and Properties*
- CHEM 120 *General Chemistry II: Chemical Analysis and Reactivity*

Students planning a career in physics or engineering should take all four of PHYS 320, 330, 370, and 380. PHYS 49X, MATH 270, and CSCI 150 are useful preparation for graduate study in physics or engineering.

All physics majors should do a research project while at Hendrix. Consult with any physics faculty member about research opportunities.

### **MINOR**

- PHYS 210 *General Physics I*  
**or**  
PHYS 230 *General Physics I (Calculus-based)*
- PHYS 220 *General Physics II*  
**or**  
PHYS 240 *General Physics II (Calculus-based)*
- PHYS 305 *Vibrations and Waves*
- PHYS 315 *Modern Physics*
- MATH 130 *Calculus I*
- MATH 140 *Calculus II*
- MATH 260 *Differential Equations*

### **Senior Capstone Experience**

The Senior Capstone Experience for the physics major consists of a comprehensive examination and an oral presentation of a research project or independent study. Students have two options for the examination. They may either take a national standardized examination (Advanced Physics Graduate Record Examination), or they may take a departmentally-designed examination, for which the student studies a set of questions for two hours, and then delivers a written response to a selection of questions. The grade for the Senior Capstone Experience is based on the examination.

---

#### **PHYS 110 *Concepts of Space, Time, and Reality (NS-L)***

A conceptual study of the implications of modern physics on how we view space, time, and reality. Includes an introduction to the ideas of relativity and quantum physics. Two hours lecture, two hours lab.

**PHYS 135 Robotics Exploration Studio (NS-L)**

Introduction to mechanical design and computer programming in the context of building and programming mobile robots. Mechanical design topics will include vectors and forces, Newton's Laws, gears, motors, rotational motion, friction, and the design process. Computer science topics will include an introduction to programming, the programming of sensors and motors, and an introduction to artificial intelligence. Other topics include application of scientific method, teamwork skills, technical writing, and the relationship between the science fiction portrayal of robots and current technological reality. Cross-listed as CSCI 135 *Robotics Exploration Studio* (NS-L).

**PHYS 160 Astronomy (NS)**

A study of the structure and evolution of the universe. Topics include how astronomers observe and interpret phenomena, models of the solar system, life cycle of stars, and current models of the universe.

**PHYS 210 General Physics I (QS, NS-L)**

Mechanics, heat, and sound. Laboratory course. Calculus not required.

**PHYS 220 General Physics II (QS, NS-L)**

Electricity, magnetism, and optics. Laboratory course. *Prerquisite: PHYS 210*

**PHYS 230 General Physics I (Calculus-based) (QS, NS-L)**

Mechanics, heat, and waves. Laboratory course. *Co-rquisite: MA TH 130.*

**PHYS 240 General Physics II (Calculus-based) (QS, NS-L)**

Electricity, magnetism, and optics. Laboratory course. *Prerquisites: PHYS 210 or 230, and MA TH 130, Co-rquisite: MA TH 140, or consent.*

**PHYS 305 Vibrations and Waves (QS, NS)**

Mechanical and electromagnetic waves. Fourier analysis and vector calculus. *Prerquisite: PHYS 240, Co-rquisite: MA TH 240.*

**PHYS 315 Modern Physics (QS, NS-L, W2)**

Phenomenological basis of atomic and subatomic physics. Laboratory course. Cross-listed as CHEM 410 *Advanced Physical Chemistry*. *Prerquisite: PHYS 305.*

**PHYS 320 Electrodynamics**

Electrostatics, electromagnetic fields, currents, and Maxwell's equations. *Prerequisite: PHYS 305.*

**PHYS 330 *Quantum Mechanics***

Mathematical formalism of quantum theory. The Schrodinger equation and operator algebra. Bound state solutions and angular momentum. *Prerequisite: PHYS 305 and 315.*

**PHYS 340 *Electronics***

Analog circuits, digital circuits, and semiconductor devices. *Prerequisite: PHYS 305.*

**PHYS 350 *Advanced Experimental Laboratory (W2)***

Selected experimental work in nuclear and particle physics, condensed matter physics, electronics, optics, mechanics, and measurement techniques. *Prerequisite: PHYS 305.*

**PHYS 370 *Thermodynamics***

The laws of thermodynamics, classical and quantum distribution functions, and an introduction to statistical mechanics. *Prerequisite: PHYS 305.*

**PHYS 380 *Classical Mechanics***

Central force problem, Lagrangian and Hamiltonian formalisms, and special relativity. *Prerequisite: PHYS 305.*

**PHYS 490 *Topics in Physics***

Topics will be determined by student and faculty interest. Possible topics may include: nuclear/particle physics, condensed matter, lasers and optics, statistical physics, mathematical methods. *Prerequisite: PHYS 305 and consent.*

## General Topics Courses

---

### **POLI 100 *Issues in Politics (SB)***

This course is designed to introduce students to the variety of ways that political phenomena can be studied systematically. The faculty member will select a topic as the focus of the course which will then be examined through the lens of the primary subfields the department covers: political theory, American politics, comparative politics, and global politics. Finally, students will gain an introduction to the process of social science research as they participate in a research project related to the topic of the course. Students will receive early exposure to the full scope of the politics discipline as well as begin the process of preparing themselves for research in politics.

### **POLI 400 *Research Methods (SB)***

This course examines the methods by which political scientists attempt to better understand political phenomena, with a focus on quantitative methodologies.

**POLI 497 *Senior Research Seminar (SB, W2)***

This seminar course during the senior year is centered around students' independent research projects in the discipline. Departmental faculty and other seniors will give input and critiques as a student completes a significant piece of original research, with a view to formally presenting it at a research conference, e.g., at the National Conference on Undergraduate Research or at a professional political science meeting.

*Prerequisite: POLI 400.*

---

**Political Theory Courses**

---

**POLI 240-T *History of Western Political Thought (VA)***

A selective survey from ancient times to the 21st century of the political thought of seminal political thinkers in the Western tradition. Selected thinkers may include, for instance, Plato, Aristotle, Aquinas, Rousseau, Locke, Mill, Marx, Arendt, Foucault, Nietzsche, Rawls, and Habermas. See instructor for definitive selection in any given year.

**POLI 245-T *American Political Thought (VA, W2)***

A variety of works will be examined to learn how influential American thinkers have conceptualized political ideas and how their views on the proper organization of American society have changed over time. Particular attention will be paid to the development of the concepts of democracy and equality and to political protest movements in the U. S.

**POLI 300-T *Feminist Political Thought (CW , VA)***

An upper level course examining works of political thought that focus on the role of gender in the social and political arenas.

**POLI 410-T *Topics in Political Theory (VA, W2)***

This course will include an in-depth treatment of a selected list of issues from the history of political thought and the relevant thought of seminal political thinkers. Issues and theorists might include: democratic theory, cyberpolitics, Hannah Arendt, Manuel Castells, Marxism, Postmodernism, the State. *Prerequisite: None.*

---

## American Politics Courses

---

**POLI 130-A *American State and Local Government (SB)***

An introductory examination of American state and local government and politics, with an emphasis on the study of particular public policy areas in the state and local arena.

**POLI 205-A *Southern Politics (SB)***

A study of the political history and contemporary political characteristics of this distinctive region of the U. S. Topics covered will include the demographic changes that have altered the region's political culture, the persistent impact of race on the South's politics, and the changing role of the region in national politics.

**POLI 220-A *American Political Parties and Elections (SB)***

An examination of the role and activities of voters, political parties, and the media on the electoral process in the United States.

**POLI 230-A *Public Administration (SB, CW)***

This course examines some of the key issues confronted by a society that has become dependent upon bureaucracy to a substantial degree. As such we will examine personnel, organization, budgeting, leadership, and privatization.

**POLI 235-A *Public Policy (SB, CW)***

An introduction to the process of formulating, implementing, and evaluating public policy in the United States with particular attention to policy devoted to air pollution. A variety of substantive policy areas, such as health care, education, and welfare, will also be examined.

**POLI 310-A *American Presidency (SB)***

An upper level course examining the origins and development of the American presidency, as well as the challenges faced by more recent officeholders.

**POLI 321-A *American Constitutional Law: The Federal System***

This course considers the contemporary state of constitutional doctrine after 200 years of judicial decisions. Emphasis is placed on theories of constitutional interpretation and on the development of case law in the realms of federalism, the regulatory power of Congress, and the separation of powers among the three federal branches of government.

**POLI 322-A *American Constitutional Law: Individual Rights & Liberties***

A continuation of POLI 321, with emphasis on those decisions concerned with the rights of individuals in such areas as speech, press, religion, privacy, and equal protection of the law. *Prerquisite: POLI 321 or consent of instructor.*

**POLI 340-A *U.S. Congress (SB, W2)***

An upper level course analyzing the Congress as an institution and its attempt to perform two fundamentally contradictory functions: legislating and representing.

**POLI 380-A *Gender, Sexuality, and American Politics (CW , W2)***

An upper-level seminar course focusing on the impacts of gender and sexuality on politics in the American context. A focus will be on the histories of the women's rights and gay rights movements, examining their similarities and differences.

**POLI 390-A *Race and American Politics (CW , HP)***

An upper-level seminar course focusing on the persistent, yet changing, impact of race on American politics since the Reconstruction era. The course will focus on the interaction between race and electoral politics and the contemporary role of race in shaping American public policy in a variety of realms.

**POLI 420-A *Topics in American Politics (SB, W2)***

A seminar course focusing on a particular topic in the field of American politics or public law of interest to faculty and students in the department.

---

## **Comparative/Global Politics Courses**

---

**POLI 250-G *Global Politics I (SB, CW , W2)***

Combining a variety of theoretical approaches to the study of global politics with in-depth analyses of a selection of contemporary global issues, this course and its companion, POLI 251, aim to equip students with an understanding of the expanding array of topics, problems, and issues that now crowd the global agenda. Such topics may include weapons of mass destruction and their proliferation, globalization, the environment, indigenous peoples, democratization, and much more.

**POLI 251-G *Global Politics II (SB, CW , W2)***

Building on POLI 250, this course adds topics, problems, and issues not already addressed in that course. Prerequisites: POLI 250 or consent of instructor.

**POLI 260-G *Political Economy (SB, CW , W2)***

Combining the history of the development of political economy globally with an in-depth analysis of contemporary developments and future prognostications, this course aims to arm students of politics with an understanding of how economics intersects with the political world, broadly defined. While the course focuses on politics and economics, it necessarily branches out to touch many other disciplines, from history and religion to sociology and business. The course is relevant for students of both American and global politics. Prerequisites: None.

**POLI 372-G *China and East Asia (SB, CW , W2)***

This course will focus primarily on Chinese politics, but will also include consideration of the politics of other selected countries in Asia as well as regional issues. *Prerequisite: None, but POLI 260 or an Economics course is highly recommended.*

**POLI 373-G *Palestine, Israel, and the Middle East (SB, CW , W2)***

This course will focus primarily on the Israeli-Palestinian Conflict, but will also include consideration of the politics of other selected Mid-East countries as well as regional issues. *Prerequisite: None, but POLI 260 or an Economics course is highly recommended.*

**POLI 430-G *Topics in Comparative Politics (SB, CW , W2)***

An occasional course which will examine the politics of selected countries around the world not usually treated in either POLI 372 or 373, e.g., the European Union, Cuba, South Africa. *Prerequisite: None, but POLI 260 or an Economics course is highly recommended.*

**POLI 440-G *Topics in Global Politics (SB, CW , W2)***

Building on POLI 260, 250, and 251, this occasional course will explore in more depth issues already treated in these courses or address new ones that relate to them. Possible topics might include Technology and Politics; Revolution; Kosovo; Information Age Warfare; Peace and Conflict Resolution. *Prerequisite: Either POLI 260, 250 or 251, or consent of instructor .*

## MAJOR

A total of 10 courses distributed as follows:

- PSYC 290 *Statistics*
- PSYC 295 *Research Methods*

Two courses from Cluster A, at least one of which must have a laboratory:

- PSYC 300 *Comparative Animal Behavior*
- PSYC 320 *Cognitive Psychology*
- PSYC 330 *Learning*
- PSYC 335 *Sensation and Perception*
- PSYC 360 *Behavioral Neuroscience*

Two courses from Cluster B:

- PSYC 210 *Developmental Psychology*
- PSYC 230 *Social Psychology*
- PSYC 345 *Applied Psychology*
- PSYC 370 *Personality*

One course from Cluster C:

- PSYC 380 *Psychology Practicum*
- PSYC 390 *History and Systems*
- PSYC 400 *Psychology of Gender*
- PSYC 420 *Advanced Social Psychology*
- PSYC 450 *Senior Seminar*

Three electives from psychology listings at any level.

*Statistics is a prerequisite for Research Methods, and Research Methods is a prerequisite for all other laboratory courses in the department.*

## MINOR

Six courses in psychology, at least three of which must be at the 300-level or above. Note: PSYC 380 *Psychology Practicum* will not count toward the minor.

## Senior Capstone Experience

The Senior Capstone Experience for the psychology major consists of the Test (MFT) in Psychology, which is intended as an assessment device for senior psychology majors. It consists of 140 multiple-choice items covering the major areas of psychology. The examination is normally taken during the spring semester of the senior year. The grade for the Senior Capstone Experience is based on the student's score on the Psychology MFT.

---

## General Topics Courses

---

### **PSYC 110 *General Psychology (SB)***

An introduction to the scientific study of behavior and its underlying cognitive and biological processes. Students who have already taken two or more psychology courses at the 200 level or above will not be allowed to take General Psychology.

### **PSYC 250 *Thinking, Judgement, and Decision-Making***

Examination of the cognitive and motivational bases for thinking, judging, and decision-making, discussed in the context of real-life conflicts and issues. Topics include moral reasoning, intuition, and models of decision-making.

### **PSYC 290 *Statistics (QS)***

Descriptive and inferential techniques for analyzing research data. Factorial analysis of variance, Chi square, nonparametrics, and experimental design.

### **PSYC 295 *Research Methods (W2)***

Introduction to the procedures psychologists use to study behavior, cognition, and emotion. Students will evaluate, design, conduct, and present research. With laboratory. *Prerequisite:* PSYC 290.

**PSYC 365 Emotion**

Examination of the history of emotion research, as well as specific topics related to emotion such as psychological well-being, physical health, culture, and decision-making. Introduction to research methods specific to the field. *Prerequisite: Two of the following courses: PSYC 110, PSYC 210, PSYC 230, PSYC 320, or PSYC 360.*

**PSYC 385 Abnormal Psychology**

An overview of the main psychological disorders, focusing on the major scientific theories of their etiology and treatment. *Prerequisite: one psychology course.*

**PSYC 490 Topics in Psychology**

An in-depth examination of major topics within the discipline. The content and format of this course vary according to the interests of students and faculty. *Prerequisite: consent of instructor is recommended.*

---

**Cluster A Courses**

---

**PSYC 300-A Comparative Animal Behavior (W2)**

Study of the genetic, developmental, physiological, ecological, and evolutionary bases of adaptive behavior of animals, including humans. With laboratory. *Prerequisite: BIOL 160 or both PSYC 295 and BIOL 100. Credit listed as BIOL 300.*

**PSYC 320-A Cognitive Psychology (W2)**

Introduction to the concepts, theories, and methods of cognitive psychology, which is the study of the mind and mental processes. Topics include attention and consciousness, memory, language, cognitive development, and neurocognition. With laboratory.

**PSYC 330-A Learning**

The course uses a behavioral and experimental approach to examine basic forms of learning. Content covers both theory and experimental methodology, maintaining a critical eye toward empirical evidence to support theoretical interpretations. The basic principles of learning will be described first, followed by examples of ways in which these principles have been applied. *Prerequisite: one psychology course.*

**PSYC 335-A *Sensation and Perception***

Examination of sensory systems and perceptual processing of external stimuli and their relation to psychological and behavioral processes. Particular emphasis will be placed on the nature of the visual system, and comparisons will be made to other special senses.

**PSYC 360-A *Behavioral Neuroscience***

The anatomical, physiological, and chemical bases of normal and abnormal behavior are considered, followed by close examination of specific areas in neuroscience such as motivation, feeding, consciousness, and learning. With laboratory. *Prerequisite: PSYC 295 or Biology laboratory course.*

---

**Cluster B Courses**

---

**PSYC 210-B *Developmental Psychology (SB)***

Overview of the physical, cognitive, emotional, and social development of humans throughout the lifespan.

**PSYC 230-B *Social Psychology (SB)***

The influence of interpersonal processes on individual behavior. Methods of research, conformity, attribution, prosocial behavior, attitudes, impression management, environmental factors, and ethics in research. Small group research activities.

**PSYC 345-B *Applied Psychology (SB)***

Real world applications of psychological theory and research. Behavior analysis and change strategies in consumer, legal, environmental, industrial/organizational, sport, health, and stress management settings. Topic emphases determined by class interest.

**PSYC 370-B *Personality (SB)***

An overview of the major theories of personality with special focus on contemporary personality theory and research.

---

## Cluster C Courses

---

### **PSYC 380-C *Psychology Practicum***

A service-learning course that enables students to obtain practical experience in educational or service-oriented community organizations and institutions. Class meetings include discussion of students' work experiences and selected readings. *Prerequisite: junior standing and consent of instructor.*

### **PSYC 390-C *History and Systems***

Historical roots of contemporary psychology, including the systematic positions of early psychologists. Descartes to present.

### **PSYC 400-C *Psychology of Gender (CW , W2)***

Examination of the biological, social, and psychological differences and similarities of females and males, with a focus on the nature/nurture debate within the field. Prerequisites: (a) two psychology courses (excluding Statistics) or consent of instructor; (b) junior or senior standing.

### **PSYC 420-C *Advanced Social Psychology (W2)***

Experimental investigation of social behavior, with students working individually and in groups. Current journal literature, field experimentation, methodological difficulties unique to social psychology, critical discussion of student research projects. With laboratory. *Prerequisite: Consent of instructor is recommended.*

### **PSYC 450 *Senior Seminar in Psychology***

Discussions of current and classic controversies in psychology. Contemporary theoretical and research trends, critical assessment of readings, student-guided discussions, and independent analyses of major topics. Content changes annually as a function of participants' interests within the discipline.

## General Topics Courses

---

### **RELI 110 *Religion in a Global Context (VA)***

A survey of the basic perspectives and practices of indigenous religions, Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, and Islam.

### **RELI 490 *Topics in Religion***

Intensive analysis of important topics in theological, historical, and biblical studies. Topics will be determined in light of student interest and faculty expertise. *Prerequisite: junior standing and two courses in religion or instructor's consent.*

### **RELI 497 *Senior Colloquium (W2)***

A course designed at synthesis of studies undertaken in the field of religion. Selected readings in the area of biblical interpretation, religious history, the history of Christian thought, theology, and world religions. Required of all religion majors. Open to nonmajors by departmental consent.

---

## A. World Religions Courses

---

### **RELI 210-A *Native American Religions (VA)***

A journey into the religious worlds of the first Americans to find how religion and life coalesced and how the distinctive ways of life of the various tribes produced diverse religious traditions, which were connected by common perceptions of the humans' relationships to the world and to each other. In depth study of selected tribes from a variety of geographic regions will promote an understanding of how the relationship of a people to a place shapes their worldview and way of life.

### **RELI 216-A *Judaism (VA)***

An exploration of contemporary forms of Jewish beliefs, practices, thought, and culture. Emphasis is on the ideas and texture of the worldwide Jewish experience in Orthodox, Conservative, Reform and Reconstructionist Judaism, as well as Kabbalah. This course is a deepening and expansion of ideas introduced in RELI 110, which is recommended as a prerequisite, but not required.

### **RELI 220-A *Advanced Studies in World Religions (VA)***

A focused study of one religious tradition with the aim of acquiring a deeper understanding of its worldview, beliefs, practices, values, and spirituality. Among the religions that will be examined in depth on an alternating basis are: Chinese Religions (Taoism, Confucianism, and Chinese Buddhism), Hinduism, and Islam. May be taken more than once as topics vary.

### **RELI 311-A *Buddhism (VA)***

An exploration of varieties of Buddhism thought and practice, with particular focus on Zen Buddhism. Includes discussion of Buddhism as an emerging tradition in North America and occasional experiments in Buddhist meditation. This course is a deepening and expansion of ideas introduced in RELI 110, which is recommended but not required as a prerequisite.

### **RELI 336-A *John Wesley and Methodism (VA)***

An examination of pivotal themes in the religious thought of John Wesley (against the background of the Protestant, Catholic, and Orthodox traditions that informed his own theology), followed by a survey of the development of Wesleyan religion in America, with special emphasis on questions of ecumenism, social justice, Methodist responses to trends in

Western culture (science, democracy, liberation) during the 19th and 20th centuries.

**RELI 340-A *World Religions: Contemporary Perspectives***

This course introduces students to some of the best of contemporary religious writers from the various world religions. Represented perspectives include Buddhist, Hindu, Muslim, Jewish, Taoist, Confucian, and Native American points of view. In the context of reading their works, various topics are addressed, including (1) nature of mystical experience, (2) the possibility of life-after-death, (3) the meaning of life, and (4) responsibility for protecting people, animals, and the earth. *Prerequisite:*

*RELI 110 or one upper-level course in a world religion other than Christianity.*

---

## **B. Biblical Studies Courses**

---

**RELI 123-B *Introduction to Hebrew Bible (LS, HP)***

An introduction to the major texts, themes, and history of the Hebrew Bible or Old Testament, which employs tools of modern biblical scholarship. The course examines biblical texts in light of the history and culture of ancient Israel and the Ancient Near East, particularly Mesopotamia and Egypt, and also features Jewish and Christian histories of interpretation of selected texts.

**RELI 124-B *Introduction to the New Testament (LS)***

An introduction to the texts of the New Testament, with emphasis on historical contexts and methodologies of modern biblical scholarship. The course attempts to immerse students in the experience of the original audience of the New Testament, insofar as that is possible, and therefore includes the student of varieties of early Christianity, Judaism, and Greco-Roman religions.

**RELI 240-B *Biblical Archaeology (SB)***

A survey of the methods, results, interpretations, and significance of biblical archaeology. The course considers several archaeological sites throughout Israel, including Megiddo, Masada, Jerusalem, Hazor, Qururan, and Bethsaida, and considers the impact of archaeology on our understanding of the Bible. The lab component of the course introduces students to pottery reading and restoration, excavation methods, mapping and surveying. Students who are unable to fulfill the physical requirements of the lab should speak with the instructor prior to enrolling, as alternate arrangements can be made. The optional summer program, "Hendrix in

Israel, " is recommended but not required, and may be used to fulfill a portion of the research component of the course with the prior approval of the instructor.

**RELI 250-B *Hebrew Prophecy and Wisdom* (LS, V A)**

An historical, theological, and sociological analysis of the biblical prophets and of the wisdom literature, including Job, Ecclesiastes, and Proverbs. The course has two major foci: 1) an exploration of the messages of the classical prophets and their relevance to ancient and contemporary issues of social justice and 2) an analysis of the prophets' experience through an understanding of their practices, rituals, writings, and socio-cultural roles.

**RELI 300-B *Dead Sea Scrolls and Apocrypha* (LS)**

An historical and literary survey of Judaism from the close of the Hebrew Bible to the Mishnah, including the Dead Sea Scrolls, Apocrypha, and Pseudepigrapha. The course investigates the diverse forms of Second Temple Judaism, which preceded and influenced both early Christianity and rabbinic Judaism. Special emphasis is placed on understanding the archaeological and literary remains of the Dead Sea Scroll caves and Qumran community.

**RELI 305-B *Search for the Historical Jesus* (HP , LS)**

An examination of the current state of research into the question of the historical Jesus, variously characterized as Gnostic sage, apocalyptic prophet, ascetic, rabbi, Greco-Roman philosopher, magician, mystic, or Jewish messiah. The investigation applies literary critical methods to canonical and non-canonical texts and also uses each characterization of Jesus as a window into a specific construct of the history of the first centuries of the common era.

---

## C. Christianity Courses

---

**RELI 229-C *Varieties of Early Christianity* (HP , LS)**

An exploration of the varieties of first and second century Christianity and the battle for apostolic authority. The course examines the history and thought of early Christianity as attested in the canonical writings, particularly the Gospels, Paul and Revelation, as well as in numerous non-canonical texts, such as the Gospel of Thomas, Gnostic collections, Montanist writings, and the Valentinian corpus.

**RELI 230-C *Western Christianity To 1500* (HP, VA, W2)**

The development of Christian thought and institutions from the Apostolic Fathers to the late Middle Ages, with special emphasis on the interaction between the religious and secular dimensions of Western culture.

**RELI 231-C *Western Christianity Since 1500* (HP, VA, W2)**

A continuation of Western Christianity to 1500, with special emphasis on the Protestant Reformation, the Wesleyan movement, and recent developments in Roman Catholic and Protestant thought.

**RELI 236-C *John Wesley and Methodism* (HP, VA)**

A study of the life and thought of John Wesley (with special attention to the Anglican context of Wesley's theology), followed by a survey of the historical development of Wesleyan religion in America and a consideration of key issues confronting Methodism in the contemporary world.

**RELI 356-C *Christian Theology: Contemporary Perspectives***

This course examines selected options within contemporary Christian thought, that have emerged after 1965. Kinds of Christian thinking include: (1) process theology, (2) ecological theology, (3) feminist theology, (4) African-American theology, (5) Native American theology, (6) Asian American theology, (7) Asian theology, (8) African theology, (9) Latin American theology, (10) theologies that are shaped from, and out of, dialogue with other world religions, including the Christian dialogues with Judaism and Buddhism.

**RELI 430-C *Medieval Religion* (VA, W2)**

A study of the religious dimension of medieval European culture as experienced "from below," i.e., by laypeople who were not directly involved in formal academic discussion of theological questions. Topics will include mysticism, women's spirituality, relics, crusades, saints, heretics, and attitudes toward food, sexuality, and the body. Prerequisite: Junior standing.

---

## D. American Religion Courses

---

**RELI 145-D *History of Religion in America* (HP, VA)**

Historical survey of some of America's diverse religious traditions, including selected Native American religions. The course examines the historical development of significant denominations of Christianity and

Judaism and considers the effects of the American context on religions such as Buddhism and Islam, which contribute to America's religious pluralism. A key question will be "How has religion shaped the history, culture, and sense of place of the American people?"

**RELI 343-D *Religion in Contemporary American Culture (W2)***

An attempt to understand and to analyze what contemporary social institutions, the arts, politics, and philosophy reveal about Americans' religious perceptions, especially with respect to the nature of human life and of the world in which they live, and about their religious experiences.

**RELI 360-D *African American Religion (CW , VA, W2)***

An analysis of the role of religion in the African-American community, along with a survey of key themes in the religious thought of African-Americans from the ante-bellum period to the present, giving special attention to the perspectives of Martin Luther King, Jr., Howard Thurman, James Cone, and Malcolm X. *Prerequisites: Junior standing.*

---

## **E. Theology and Philosophy of Religion Courses**

---

**RELI 246-E *Modern Christian Theology, 1799-1968 (VA)***

A survey of pivotal developments in the history of Christian theology in the 19th and 20th centuries: Protestant Liberalism, the Social Gospel, and Neo-Orthodoxy will be approached through close analysis of the writings of Friederick Schleiermacher, Adolf von Harnack, Walter Rauschenbusch, Karl Barth, Dietrich Bonhoeffer, Reinhold Niebuhr, H. Richard Niebuhr, Rudolf Bultmann, and Paul Tillich, among others.

**RELI 370-E *Philosophy of Religion (VA)***

Study and evaluation of classical and contemporary arguments regarding such issues as the nature and existence of God, the nature of religious faith and its relationship to reason, the meaning of religious language, and the relationship between religion and morality. Cross-listed as PHIL 370.

**RELI 390-E *Advanced Studies in Contemporary Religious Thought (VA)***

This course examines issues and perspectives in contemporary theology and philosophy as they appear in such topics as: religion and science, religion and psychology, the philosophy of Whitehead and process thought. May be taken more than once as topics vary.

**RELI 420-E *Death and Eternal Life* (VA, W2)**

An examination of the significance of mortality and visions of life beyond death in a variety of religious traditions. The meaning of death and the hope for immortality will be explored in relation to a wide range of perspectives, from an acceptance of death as part of human finitude to religious visions of heaven, hell, purgatory, and reincarnation. *Prerquisite: juniorstanding.*

---

**F. Religion and Culture Courses**

---

**RELI 200-F *State of the World* (CW)**

This course has three aims. The first is to consider problems of environment, poverty, hunger, violence, and the gap between rich and poor. The course begins with a weekend retreat at the Heifer Project International ranch in Perryville, Arkansas, amid which students undergo the "global village overnight" experience and are introduced to the philosophy and work of HPI. Students taking the course should be prepared to spend the first weekend at the HPI ranch. Second, the course is an introduction to contemporary religious responses to the "state of the world," with special attention to spiritual resources offered by the world religions which might help people make constructive differences in the world. Third, the course is a service-learning course, in which the student is required to undertake five hours of volunteer service a week, in order to learn-while-doing.

**RELI 266-F *Religion and Literature* (LS, V A, W2)**

An exploration of selected fiction, poetry, and certain kinds of nonfiction, such as autobiography and biography, to discern how the artist portrays spiritual experiences and perceptions. Literature from ancient times to the present will be considered. *Prerequisite: any course carrying the LS code or per mission of the instructor .*

**RELI 315-F *Advanced Studies in Religion and Culture* (VA)**

To examine the relationships of religion to cultural phenomena, this course will focus on one selected topic and will investigate how cultural forces both shape and reveal the attitudes and perceptions about religion and spirituality. The areas that will be explored are religion and film, religion and politics, apocalyptic thought, and religion in the American South. May be taken more than once as topics vary.

**RELI 330-F *Women and Religion (CW)***

An examination of assumptions about women's roles in the world's religious traditions, with attention to changing roles of women and men, women's spiritual experiences, and new forms of women's religious expression.

## **SOCIOLOGY/ANTHROPOLOGY**

Professors Bruce (chair) and Capek  
Assistant Professor Brown

The Sociology/Anthropology department reflects the shared intellectual foundations and common areas of inquiry in sociology and anthropology, as well as their distinct disciplinary differences. While the main focus of sociology has been on the range of social relationships in complex societies, anthropology has concentrated on the transformation of traditional societies and cross-cultural comparisons. Today the fields of sociology and anthropology use similar ethnographic and quantitative methods in the investigation of the human condition through space and time in the global context. A joint major aims to recognize those shared disciplinary goals, and the specific emphases honor the uniqueness of each discipline.

### **MAJOR**

Students may take a major in Sociology/Anthropology with an emphasis in either sociology or anthropology. For either, eleven courses are required: five core courses and six electives to be selected from departmental offerings. At least two of the six electives must be from the discipline that is not the major emphasis. Majors in Sociology/Anthropology and may not double major in sociology and anthropology.

### **Emphasis in Sociology**

#### **Core Courses:**

- SOCI 110 *Introduction to Sociology*
  - SOCI 260 *Classical Sociological Theory*
- or**
- SOCI 410 *Contemporary Social Theory*
  - SOCI 430 *Sociological Research Methods*
- and**
- SOCI 497 *Advanced Research/Practicum*
  - BUSI 250 *Principles of Statistics*
- or**
- PSYC 290 *Statistics*

#### **Sociology/Anthropology Electives:**

Any four additional sociology courses and any two anthropology courses

### **Emphasis in Anthropology:**

#### **Core Courses:**

- ANTH 100 *Introduction to Anthropology*
  - ANTH 300 *Ethnographic Methods*
  - ANTH 400 *Anthropological Theory*
- and**
- ANTH 497 *Advanced Research/Practicum*
  - BUSI 250 *Principles of Statistics*
- or**
- PSYC 290 *Statistics*

#### **Sociology/Anthropology and Other Electives:**

Any four additional anthropology courses\* and any two sociology courses.

*\* For the Emphasis in Anthropology, up to two elective courses may be counted toward the four anthropology electives, with departmental approval, from other college offerings focusing on cultural areas, traditions, history, or religion.*

### **MINOR IN SOCIOLOGY**

Six courses in Sociology are required including:

- SOCI 260 *Classical Sociological Theory*
- or**

- SOCI 410 *Contemporary Social Theory*
- and at least two additional sociology courses numbered 300 or above

## MINOR IN ANTHROPOLOGY

Six courses in Anthropology\* are required including:

- ANTH 400 *Anthropological Theory*
- and at least two Anthropology courses numbered 300 or above or approved substitutes

\* For the anthropology major or minor, up to two elective courses may be applied toward the six in anthropology, with departmental approval, from other college offerings focusing on cultural practices, traditions, history, or religion.

## Senior Capstone Experience

The Senior Capstone Experience for the sociology-emphasis major consists of a comprehensive examination. The examination is the Major Field Achievement Test (MFAT) in Sociology. The grade for the Senior Capstone Experience is based on the comprehensive examination.

The Senior Capstone Experience for the anthropology-emphasis is a senior paper or a departmentally constructed examination. The grade for the Senior Capstone Experience is based on the paper or examination.

---

## Sociology Courses

---

### **SOCI 110** *Introduction to Sociology (SB)*

The methods, concepts, and applications of sociological knowledge emphasizing culture, interaction, groups, institutions, order, and change.

### **SOCI 250** *Gender and Family (CW, SB)*

Comparative family systems and the social construction of gender in a cross-cultural perspective.

### **SOCI 260** *Classical Sociological Theory (SB, W2)*

Study of the historical development of sociological thought from Europe in 1822 to America in 1931 with emphasis on the cultural context of ideas. Offered in 2002-2003 and alternate years.

**SOCI 270 *Racial and Ethnic Minorities* (CW , SB)**

A consideration of the evolving patterns of conflict and cooperation among racial and ethnic groups. Major attention is given to the socially constructed nature of group identities based on ethnicity and race; racist ideologies, prejudices, stereotypes and various forms of discrimination; as well as the ongoing struggles for social justice.

**SOCI 300 *The Urban Community* (CW , SB)**

Emphasis on a sociological understanding of urban and community processes. Topics of special interest include the political economy of cities, growth, housing, urban revitalization, architecture and use of space, design for sustainability, and cross cultural comparisons.

**SOCI 360 *Social Change/Social Movements* (CW , SB)**

While social change is an enormous topic, this course opens up some major questions relating to the study of social change. It begins with a look at processes of social change in general, and then focuses on the sociological study of organized movements to produce (and resist) social change. Selected past and present movements are included.

**SOCI 361 *Sociology of Death* (SB, V A)**

The social, emotional, intellectual, and cultural dimensions of death and dying are examined in order to enhance the meaning of human life.

**SOCI 362 *Images of the City* (HP)**

This course takes an interdisciplinary approach to the study of the city. Using images of the city recorded in literature and the visual arts, it examines the city as a symbol reflecting changing ideas about self and society, social order and change, and the relationship between nature and culture.

**SOCI 375 *Environmental Sociology* (CW , SB)**

A sociological approach to human-nature relationships, with a focus on social constructions of nature, major social groups that have a stake in defining environmental issues, environmental policy (local and global), the role of technology and of the scientific community in shaping environmental outcomes, the environmental movement and counter-movement, the evolving concept of "environmental justice," and designs for sustainability.

**SOCI 380 *Medical Sociology* (CW , SB)**

Sociocultural aspects of medicine including cross cultural comparisons of health care systems; the delivery of medical care; the social organization

of medical training, practice, and research; the doctor-patient relationship; political, legal, technological, and ethical environments of medicine; stratification by gender, race, and class; and the social experience of illness.

**SOCI 390 *Social Inequality*(CW , SB)**

How and why power, wealth and prestige are unequally distributed in terms of gender, race, and social class. Ideological justifications, the consequences for individuals and societies, and the personal and public strategies employed to address the problems associated with structural inequality are considered.

**SOCI 410 *Contemporary Social Theory* (SB, W2)**

An exploration of contemporary social theorists using a "sociology of knowledge" approach, which links social circumstances and intellectual developments. The approximate period covered will be World War I to the present. *Prer requisite: SOCI 110 or consent of instructor .*

**SOCI 430 *Sociological Research Methods* (SB)**

An overview of the major research methods used in sociology, including ethnographic fieldwork, social experiments, content analysis, and survey research. The focus is on applied projects as well as on a theoretical understanding of debates over the role of science in social investigation. The prior taking of a statistics course is recommended. Offered in 2004-2005 and alternate years.

**SOCI 490 *Selected Topics***

Concentrated study of important social issues. Content and approach will vary according to needs and interests of students and staff. Each course will focus on a single topic. Examples are ethnic identity, population problems, deviant behavior, family violence, work and leisure, Native Americans, technology, sociology of art, mass media, and religious movements.

**SOCI 497 *Advanced Research/Practicum* (SB)**

In addition to reading about and discussing current issues in sociological and anthropological research and practice, each student will complete an internship or research project in order to apply and demonstrate his or her level of knowledge in the major. *Prer requisite: Consent of instructor if not a senior sociology/anthropology major .*

## Anthropology Courses

---

### **ANTH 100** *Introduction to Anthropology* (SB)

Covers the breadth of the discipline through the four subfields of anthropology. An examination of the range of cultural and physical variation of humans throughout time and around the world. Explores cultural diversity and social organization through a look at family, work, ritual, art, economy, and politics, and situates American cultures in this global context. A look at the global future.

### **ANTH 220** *Cultures of India* (CW , SB)

Cultural and environmental diversity of the Indian subcontinent with some historical context. Focus on tensions between religion and secularism, colonialism and independence, caste and gender inequalities, and changing environmental conditions.

### **ANTH 250** *Visual Anthropology* (CW , SB)

In an increasingly visually-oriented world, this course focuses on the use of photographs and film to represent people from various cultures, as well as the use of film by indigenous groups to represent themselves. We learn about cultures through visual and narrative means, and critically analyze the filmmaking process, as well as other forms of visual media.

### **ANTH 260** *Indian Pasts* (SB)

How have anthropologists, archaeologists, and museums represented Indian pasts to both academic and popular audiences, and in what ways have Indian groups responded to these efforts? This course will both introduce students to the archaeology, ethnohistory, and museum studies of native peoples of the Americas, as well as encourage them to question conventional assumptions that inform these areas of study.

### **ANTH 280** *Anthropology of Gender* (SB)

This course traces the development of the study of gender in Anthropology. Key issues to be covered will include the impact of the Feminist Movement on the discipline, women and work, and gender roles and sexualities across cultures.

### **ANTH 300** *Ethnographic Methods* (SB)

Examines historical development of ethnographic writing through reading of classic and contemporary ethnographies, as well as critical texts on

changing ethnographic methods. Field projects using a variety of ethnographic methods. Offered in 2003-2004 and alternate years.

**ANTH 320 *Gender and Environment* (CW , SB)**

Explores environmental problems and gender-specific impacts in various cultural contexts, including the US. Examination of intersections between gender, local environments, and social inequalities through cross cultural case studies.

**ANTH 360 *Global Studies Seminar* (CW , SB)**

This course examines some debates about globalization focusing on cultural responses to the rapid transfer of information, technologies, and economic resources around the world. Field projects will focus on local/global connections and will integrate anthropological theory and methods.

**ANTH 370 *Psychological Anthropology* (CW , SB)**

A cross cultural perspective on the interrelationships between the person and society with attention to how personality is influenced and expressed through such activities as child rearing, ritual, health care, language, folklore, and art. *Prer equisite: SOCI 110, ANTH 100, or consent of instr uctor .*

**ANTH 380 *Indian Peoples of the Americas* (SB)**

An ethnohistorical and ethnographic examination of some of the issues that confront Indian peoples from the US Southwest to South America today. Key issues to be considered include the response of Indian peoples to European colonialism and imperialism; economic dependency and integration into the global economy; social movements; and identity politics.

**ANTH 400 *Anthropological Theory* (SB)**

A survey of historical and contemporary theories in cultural anthropology. Inclusion of theoretical contributions from other disciplines such as sociology, literary theory, and feminist theory. Reading of primary texts as well as those influenced by particular thinkers or schools of thought. Offered in 2004-2005 and alternate years. *Prerequisite: ANTH 100 or consent of instr uctor .*

**ANTH 490 *Special Topics***

Course topics may include in-depth exploration of a particular culture area (such as Southeast Asia or Latin America) or subcultures (such as American agricultural workers or urban youth), or other special topics

such as The Anthropology of Food, Comparative Mountain Communities, Cultures of the American West or topics generated by student interest.

### **ANTH 497 *Advanced Research/Practicum (SB)***

In addition to reading about and discussing current issues in sociological and anthropological research and practice, each student will complete an internship or research project in order to apply and demonstrate his or her level of knowledge in the major. *Prerequisite: Consent of instructor if not a senior sociology/anthropology major.*

## Hendrix Players

Participation in the annual major dramatic productions and in spring-semester Senior Seminar production is open by audition to all Hendrix students. Students who participate in the activities of the Hendrix Players perform in plays that cover a wide range of dramatic literature. In addition, students construct scenery and costumes and participate in other technical aspects of dramatic performance. The activities of the Hendrix Players take place in the Cabe Theatre Arts Center.

## Senior Capstone Experience

The Senior Capstone Experience for the theatre arts major consists of three parts. Parts one and two are completed during the Fall Semester and part three is completed during the Spring Semester of the senior year.

Part one consists of an oral presentation, either a lecture demonstration or an acting audition. Part two is either a written paper involving text analysis and related to an acting, a directing, or a design

project or a written/visual presentation of the student's Manifesto for Theatre. The grade average of these two components is entered on the students transcript but is not calculated in the GPA.

Part three is participation in TART 497 *Senior Seminar*.

An exploration of choices made and methods used by Shakespeare in the building and presentation of a dramatic work through selection, analysis, and adaptation of source materials.

### **TART 140 *Beginning Acting* (EA)**

Focus on first problems in acting and on text analysis.

### **TART 150 *Stage Movement and the Alexander Technique* (EA)**

A study of the performer in movement through theatrical space as related to the Alexander Technique.

### **TART 210 *Script Into Performance: Text Analysis* (EA, LS)**

Study and analysis of dramatic texts for the purpose of transforming scripts into theatrical productions.

### **TART 220 *Theatre Practicum* (EA)**

Extensive experience in the production of plays. Theatre Practicum is a special opportunity available to students who seek to create with their fellows the "delicate illusionary reality that we call the theatre." The department believes that the education of students is enriched by participation in the actual process of creating a performance and by participation in a variety of experiences in that process. The emphasis of all the course requirements is on commitment, teamwork, and dedication to a common goal shared by all in the process. (Course extends over three semesters.) *Prerequisite: consent of instructors.*

**TART 240 *Intermediate Acting: Modern Scene Study (EA)***

Focus on the study of modern scenes and techniques. *Prerequisite:* TART 140.

**TART 260 *Theatre Production: Scenery and Lighting (EA)***

Techniques of lighting, sound, scenery and property construction for the theatre.

**TART 280 *Theatre Production: Costume and Make-up (EA)***

Techniques of make-up and costume construction for the theatre.

**TART 310 *History of the Theatre and Drama I (HP, LS, W2)***

Study of Theatre and dramatic texts from the Classical Era through the Eighteenth Century.

**TART 311 *History of the Theatre and Drama II (HP, LS, W2)***

Study of Theatre and dramatic texts from Romanticism through the modern era.

**TART 330 *Theatre and the Challenges of the Contemporary World (CW, W2)***

A study of theatrical responses to selected challenges of the contemporary world such as gender, racial, ethnic, environmental and world citizenship issues.

**TART 340 *Advanced Acting: Classical Styles (EA)***

Focus on classical styles of acting with particular emphasis on Shakespeare.

*Prerequisite:* TART 140.

**TART 390 *Playwriting (EA)***

Construction of the literary text through in-depth research and disciplined creativity. *Prerequisites:* Theatre Arts Major requirements 100 through 300 or consent of instructor.

**TART 430 *Stage Directing (EA)***

Study of presentational play analysis and of the techniques of staging plays. *Prerequisite:* Theatre Arts Major requirements 100 through 300.

**TART 450 *Production Design (EA)***

Process of unified design for the technical elements of a play. *Prerequisites:*

*Theatre Arts Major requirements 100 through 310.*

**TART 497 *Senior Seminar (EA, W2)***

A collaborative synthesis: Theory transformed into theatrical practice.

*Prerequisite:* Senior Theatre Arts Major only.
